## W. F. EARNHART,

ASSOCIATION BLOCK

## FROM DEATH'S JAWS

MRS. WARNER BARELY ESCAPES WITH LIFE.

Falls Through the Decayed Covering of a Cesspool—Grasps the Walls and Keeps Her Head Above Water Until Rescued.

Mrs. T. C. Warner miraculously escaped a frightful death yesterday, at her home at the corner of Thompson and Alta streets.

She was collecting some handkerchiefs from a clothes line at the rear of the house, when she inadvertently walked upon the covering of a cesspool, or drainage reservoir for the kitchen sink and bath room. The covering to the pool consisted of a thickness of boards, with a few inches of soil on top of this. The pool is 14 feet deep and almost full of water and mud.

The boards were decayed and instantly gave way, precipitating her suddenly into this awful pool. With wonderful presence of mind she grasped the sides and by bracing her body against the walls succeeded in keeping her head above water until help came in response to her screams. Although not seriously injured, she suffered a severe shock from the frightful position she occupied for the few moments she clung by superhuman efforts, between life and death.

Fortunately, neighbors near by heard her first cries and hurried to her assistance. She was immediately rescued from what would seem, under ordinary circumstances, to mean a sudden and frightful death, and aside from the nervous shock she suffered, is as well today as could be expected after such a narrow escape and thrilling experience.

### COMMITTEE NAMED.

R. Alexander, C. E. Roosevelt and Jesse Failing to Raise Funds for New Club House.

The committee to solicit subscriptions of stock for the new club house has been named and after a week's rest the matter of pushing that proposition is begun in earnest. This committee was appointed Tuesday evening by President Leon Cohen, of the Commercial Association, and consists of R. Alexander, C. E. Roosevelt and Jesse Failing.

This committee will at once proceed to see just how much money can be raised toward the new \$20,000 home for the young people and the encouragement given them will determine whether or not Pendleton is to have a club house.

In making his announcement of the committee, Mr. Cohen said: "I have had the interest of the proposition so much at heart that I have refrained from appointing this committee until now for the reason that I felt the success or failure of the home depends entirely, or almost, upon the committee that does the soliciting. I have consulted with a number of the members of the association and have looked carefully over the membership list and now feel that I have appointed the strongest committee that could be named from the association."

### THE MILITARY GIRL.

Second Performance Meets the Same Enthusiastic Reception Accorded the First.

The second performance of "The Military Girl," at the Frazer, met with the same enthusiastic reception that was accorded the young people on their first appearance.

The two nights' entertainment furnished by local talent has been appreciated by the people of Pendleton and the performances have netted the ladies of St. Francis Guild a handsome return for their public spirited and painstaking efforts. Something near \$275 will be left to the society as their profit. However, the amount will be divided equally with the gentlemen, who supervised the production.

### R. S. BRYSON RESIGNS.

Tenders Resignation to Commercial Association as Librarian.

At the regular monthly meeting of the Pendleton Commercial Association last night, Librarian R. S. Bryson tendered his resignation, which is to take effect just as soon as some one can be found to succeed him. Mr. Bryson succeeded Lot Livermore, when he took the postmastership, and has been librarian for the association for the past three months, but he now wishes to engage in business which will require his time otherwise.

Mr. Bryson has engaged an office in the East Oregonian building and will establish himself in the insurance and general collection business.

### Red Men Elect Officers.

At the last meeting of Umahollis Tribe No. 18, local lodge of Red Men, the following officers were elected to hold offices in the order for the ensuing six months: Sachem, Thomas W. Murrell; prophet, August Stanger; senior sagamore, William Bogart; junior sagamore, Richard Keegan.

The license of Portland bill posters has been increased from \$100 to \$400.

### COAL AT OUR DOOR.

(Concluded.)

will be dug, with four drifts, six feet square and 50 feet in length, from the main shaft, at a depth of 50 feet, to furnish water storage. A water tower 80 feet in height will then be constructed and a perfect water system will be the pride of this busy point. The most pleasing bit of news that I heard while in the coal fields, was the statement made by dozens of farmers and business men that within the past two months, as a result of the bright prospects ahead in the coal district, farm land has advanced in price \$5 per acre in Morrow county."

## FLY WHEEL'S AWFUL WORK

FRAGMENT WEIGHING A TON SHATTERS THREE WALLS.

Was Being Tested for High Speed, When It Flew to Pieces—One Carpenter Killed—Pavement Torn Up and School House Wrecked.

East Liverpool, O., Dec. 3.—One man was killed and the United Powder Company engine room was wrecked at noon today by the bursting of a 12-foot flywheel, which was being tested for high speed. A piece weighing one ton crashed through the roof, cutting the steel girders and allowing the walls to fall. In continuing its flight it struck the Burgess Pottery, a block and a half distant, and went through the wall killing one carpenter. Another piece went through the opposite wall of the power plant and tore up several feet of brick paving, when it rebounded and went through the wall of the Lisbon school building. The scholars had just left the room. The walls of the power plant fell outward, so that no workmen were injured.

### INDEPENDENT OPERATORS AFRAID TO DISCLOSE PROFITS

President Mitchell and an Old Miner on the Stand—Man Lost \$350, by Docking Last Year.

Scranton, Pa., Dec. 3.—The independent operators this morning would not submit accounts to show their profit and loss. Darrow replied that if they were willing to admit that the miners were entitled to fair wages whether the company was making money or not, he would agree that it was useless to have the accounts submitted, otherwise if they contend that they are unable to pay fair wages, submission of the accounts would be necessary.

President John Mitchell was the first witness. He said a 20 per cent increase of wages meant only 17 cents a ton added to the cost of mining coal.

Mac Veagh's questions were entirely relative to wages. After Mitchell was excused, photographic exhibits of the miners' homes were offered.

Darrow then put the coal miner, Dettrey on the stand, who told of the system of docking and said that on some occasions 40 per cent of the weight was deducted. He said he had lost \$350 that way last year. His income was \$300, but for several years past he had only received \$200. He had been blacklisted once because he would not disown the union and once before because he refused to work on a break where he could only make \$3 a week.
