## ABOUT 200 A MONTH

ALARMING INCREASE OF JAPANESE.

Spokane the Storm Center of the Northwest - Various Churches Have Small Membership Among Them.

The Japanese are making their headquarters at Spokane and numbering perhaps 300, will soon have a permanent Methodist congregation, with a Japanese preacher residing here. Rev. G. Tauruda has been stationed here for that work by Rev. H. D. Schwartz, presiding elder in the Northwest Pacific Japanese division of the mission work for the Methodist church, says the Spokesman-Review.

### A Dozen Methodists.

The Japanese Methodists in the city now number about a dozen, including seven or eight converts who are ready for baptism. In addition to religious services a night school will be conducted there. The Japanese pupils have arranged to cover the expenses of rent, light and fuel, but the salary of Rev. Mr. Tauruda will be paid by the church mission.

### A Center for Japanese.

Spokane is a center for Japanese in the Northwest, as many are working on the railways here. Then, too, a good many Japanese are employed as house servants.

Rev. Dr. Schwartz said yesterday: "Figures which I have just received from the Japanese consul at Seattle show that there are about 11,000 Japanese in the Northwestern states and they have been coming into the country at the rate of about 200 a month. There are 2263 in Washington, 2328 in Oregon, 1390 in Idaho and 2200 in Montana. Then Wyoming has some, too. At Portland, with a Japanese population of about 250, Rev. Mr. Sugihara has 85 members in his little flock."

### DON'T STOP ADVERTISING.

Real Estate Circulars From This Coast the Means of Bringing in Good Class of Settlers.

"If a real estate man quits advertising and refuses to send out circulars describing the kind of property he has for sale," said B. S. Woodruff, a real estate man of Walla Walla. "He not only ruins his own business, but he puts a damper on the influence that is at the present time playing such a great part in the bringing of immigrants to the productive Northwest."

"By the aid of these circulars, which one must have if one intends to make a success in business, and the people of different Eastern states find out what is to be had and they must pay for a piece of farm land or town property when they get to this country. They know all this if the real estate man has what the folders say he has, which they must do if the man for whom they stand expects to get the trade of his friends and the credit of the newcomers.

"The real estate of the greater part of Washington and Oregon," said Mr. Woodruff further, "is what I would call good and I do not know at the present time of any section that contains what would be classed as bad property. The country is now in a prosperous condition and is being sought by a crowd of immigrants, which it is ready to receive and care for in the best manner."

### AMERICAN HORSES.

Foreign Countries Purchase Horses From Us—75,000 Sold in England in One Year.

That American horseflesh is rapidly growing in favor in foreign markets statistics proved. Within the last six years Great Britain alone spent \$5,000,000 in the United States in the purchase of horses, independent of the many millions she spent for mules. Last year not less than 75,000 horses were shipped from this country to England.

Until 1825 the exportation of horses from the United States was not an important item, but since then it has grown into something enormous and Great Britain is only one of the many foreign countries whose recognition of the superiority of American horseflesh is attested by large purchases. During the last six years American shipments of horses to other countries have been as follows: South Africa, 37,465; Canada, 8,438; Cuba, 4,435; British Columbia, 1,578; China, 2,317; Philippines, 1,573; Japan, 1,585; British West Indies, 190, and others scattering.

Germany, France, Russia and Austria are likewise included among the number of foreign purchasers of American horseflesh, but they have just begun to make purchases and have only invested up to this time in trotters.—New York Times.

### PACIFIC COAST POSSIBILITIES.

Senator Mitchell in Favor of Free Trade With the Philippines.

Senator Mitchell's declaration in favor of free trade with the Philippines is suggestive of several things, one of which is the growing interest, especially on the Pacific coast, in the commerce of the Pacific ocean, and another is the growing demand for the downward revision of the tariff. Senator Mitchell, of Oregon, is a republican and a protectionist, but he does not believe that any American industry would be endangered by the free admission of Philippine products. Tobacco and sugar are the only two that might fear Philippine competition, and the discussions that have already taken place regarding Cuban reciprocity have shown pretty clearly that these interests are in little need of protection. On the other hand, there are very large possibilities in the expansion of American commerce

with the islands if the duties are repealed or materially reduced. The Philippines must have a revenue, and it might be difficult to provide enough if none of it were collected from imports, but low duties would open the way for an extensive exportation of manufactured goods from the United States. At any rate, the people on the Pacific coast are determined to get the trade of the Orient, and with it the trade of the islands which are under our flag.—New York Journal of Commerce.

### OREGON AND SOUTH AFRICA.

Nearly \$1,000,000 Worth of Products Sent Out of Oregon to African Ports in One Month.

Portland, Ore., Dec. 3.—Over 400,000 bushels of wheat were shipped to South African ports during the past month, while another vessel is at present being loaded with flour and wheat for that country. In all there were 4,741 barrels of flour and 199,498 bushels of wheat dispatched to these points during the month of November.

It is stated by leading shippers that trade with the Dark continent is increasing annually. Not so very many years ago there was practically no trade with either that continent or the Orient, while at present the business between Portland and South Africa and the Orient is very large.

The total shipments for the past month were as follows:

Dest'n	Flour	Barley	Wheat	Total
bu.	bu.	bu.	Value.	
Africa	48,741	199,498	\$298,355	
Europe	125,207	444,316	\$63,893

### Fight With Wild Cat.

Gus Stumbaugh, of Bingham Springs, killed a large specimen of wild cat on Rhine Creek, Friday. The dogs found the cat in the brush, but it made a hard fight and whipped all the dogs in the party. It then ran up a small tree, and when Mr. Stumbaugh went near to get a shot at it, the cat sprang at him, but did not reach him with its claws. The dogs then sprang upon it and after a fierce struggle succeeded in killing it. The hide measures four feet in length.

### Posting Election Notices.

The election notices for the called election to vote on the sewerage question are being posted today. Four of these notices are to be posted in public places in each ward at least ten days prior to the date of election, which is to be held the 18th.

### Lots of Snow.

George Peebler is in town from his home on Upper McKay Creek. Mr. Peebler says there is now three feet of snow at his home and only a few miles farther back into the hills will be found five feet. He said that although the snow was three feet deep at his home, it was not very cold.

### Parish Aid.
