### IN POLICE COURT.

#### James Fitz Patterick Will Serve Five Days for Assault.

James Fitz Patterick was given five days in jail this morning by City Recorder Fitz Gerald for assault and battery on the person of John Albers. Fitz Patterick had been working in Hohbach's bakery. He had had some trouble with Albers, who was also employed in the bakery. Sunday Fitz became drunk and was fined \$5. When released by the police Monday he went to the bakery and assaulted Albers. A warrant was sworn out for Fitz's arrest and this morning he was given a trial and the sentence.

Ike Carney was also before Judge Fitz Gerald on the charge of being drunk and disorderly. He was given three days in the city jail in default of the customary \$5 for such offenses.

#### JUDGE LOWELL IN BAKER.

Would Venture No Opinion on Senatorial Situation—Is Not a Candidate.

Hon. Stephen A. Lowell, of Pendleton, was in the city a few hours last evening on his way home from Canyon City, where he was engaged in the trial of John Christman for murder, says the Baker City Democrat.

Judge Lowell was asked whom he thought would be the next United States senator from Oregon, but he would venture no opinion. He admitted that Eastern Oregon was entitled to name the successor to Senator Simon, but said under no consideration was he a candidate himself.

## A HEAVY SNOWFALL

REPORTED FROM ALL PARTS OF EASTERN OREGON

**Pendleton the Only Town to Escape—Deepest Snow in the Hills Ever Seen by Whites—12 Feet at South Pole Mine.**

Reports from all over the eastern part of Oregon are to the effect that there is more snow on the ground now than was ever known at this time of the year and many declare that there is more in the hills now than was ever before seen at any time of year. Especially is this the case in the hills about the head of McKay Creek. Men from that part report that five feet is about the average there, which is a depth not reached before since the country has been settled by whites.

The deepest snow reported is from the summit of the South Pole hill, seven miles from Sumpter. Word received from there yesterday by Thomas Gahagan, the mining broker, states that from 10 to 12 feet of snow is now on the ground at the South Pole mine.

At the Golconda mine there is four feet of snow, three in the city of Sumpter, two at Baker City and one foot at La Grande.

Pendleton seems to be the only place to escape several inches of snow fall. Saturday and Sunday nights a little snow fell here, but it was so light that the next day's sun took it all off and left the hills bare. Everywhere else in the eastern part of the state the snow storm has been raging incessantly for the past five or six days. Even at Athena, a few miles east of here, there has been several inches and sleighing has been indulged in freely.

Strand is only slightly known here. He was first fireman on the Progresso and it was being changed to an oil burner at the iron works on the third inst. when it suddenly, without warning, blew into atoms and four men were killed. The ship was to have made her trial trip on the day following and would have sailed for New York a week later had not the accident happened.

### LOCAL WHEAT MARKET.

A Few Sales Were Made Saturday at 62 Cents.

Locally, there is little doing in the wheat market. Last Saturday a few sales were made at 62 cents a bushel but today local dealers say that it is down to 61 cents a bushel. None is selling at this figure and dealers are not apparently anxious to buy.

It is estimated by the local dealers that there is 350,000 bushels of wheat yet left in the county for sale, but they do not look for much of this to change hands until after the holidays. Then there will be a slight increase movement unless the bottom drops out of prices.
