## A TRUE BILL.

Colonel Lynch to Be Tried for High  
Treason in England.London, Dec. 19.—The grand jury,  
which has been called to try Colonel  
Lynch a member-elect of parliament,  
for high treason, was charged this  
morning by Lord Chief Justice. It  
has been 62 years since a similar  
case. The jury was out but a short  
time and returned a true bill against  
Lynch. His trial is fixed for January  
20.The charge against Lynch is that  
he, while fighting with the Boers in  
South Africa against the English, was  
guilty of treason to his native coun-  
try. He declares that at the time he  
was not an Englishman, but a Boer  
and a citizen of the Boer republic.

## SANTA'S BUSY YEAR.

Prosperity Has Enabled Him to Break  
All Records in His Liberality.New York, Dec. 19.—Mail money  
order records have been broken in the  
central postoffice, Wednesday's trans-  
actions amounting to \$1,168,741. This  
included money orders issued, both  
domestic and foreign, the certificates  
of deposit issued to out-of-town post-  
masters, money orders paid and money  
order drafts. European advices brought  
the information that the incoming  
Christmas mail would be much larger  
this year than ever before. The Cym-  
ric, bound for New York, is said to  
have on board 2600 bags of mail. The  
Etruria is also coming with 1805, the  
Kaiser Wilhelm der Grosse with 660  
and the St. Louis with 300, a total of

Indianapolis, Ind., Dec. 19.—The

committee of the United Mineworkers  
are gathering at the headquarters of  
the organization in this city prelimi-  
nary to the holding of the committee  
meeting which precedes the annual  
convention. The convention, which  
will begin its sessions one month  
from today, will be one of the most  
important and most interesting ever  
held by the organization, in view of  
the great struggle through which the  
miners have gone during the past  
year. The officers and members of the  
executive committee will make full re-  
ports to the men as to the inside  
workings of the great strike in the  
anthracite field, and it is to prepare  
these reports that the preliminary  
meeting of the executive committee  
is held.

## Celebrate at Plymouth.

New York, Dec. 19.—The New En-  
gland Society of Brooklyn decided that  
it would be highly appropriate as  
well as productive of patriotic feel-  
ing if the forefathers' day celebration

familiar to the Pilgrim Fathers. Ac-  
cordingly the members of the society  
journeyed by special train today to  
Plymouth, Mass., at which historic  
place the annual banquet is to be  
held this evening. Ex-Secretary of

Two stained glass windows, present-

## RAILROAD TO BURNS WANTED.

Harney County Citizens Appeal to  
Baker City Business Men for Aid.Baker City, Dec. 19.—At the regu-  
lar meeting of the Chamber of Com-  
merce last night the most interesting  
thing to be considered was a letter to  
the chamber from a number of Har-  
ney county citizens asking the co-op-  
eration of the Chamber of Commerce  
in securing the building of a railroad  
from Baker City to the town of Burns  
and through Harney county.

## Oil as Fuel Here to Stay.

New York, Dec. 19.—It is the op-  
inion of those most interested that oil  
as fuel for locomotives has come to  
stay, at least in certain parts of the  
country where its use has been a suc-  
cess in that regard, both in results on  
engines and the economy obtained in  
cost of fuel. Within a short time the  
Southern Pacific will have a complete  
system of stations for supplying the  
fluid to engines, huge tanks having  
been built for the double purpose of  
storage and feeding. They occupy  
points about 100 miles apart on the  
average, except in the desert and  
some other places where circum-  
stances permit of 150 miles.

## \$100,000 on a Beggar.

Toronto, Dec. 19.—Ely Hyman, a  
Jew, who begged for admission to the  
general hospital here on Saturday, is  
dead. An examination of his cloth-  
ing resulted in finding scrip worth  
\$31,000. Other papers showed him to  
be worth probably \$100,000. For 20  
years he has slept in sheds and stables.  
He sold papers and begged. His  
heirs are his wife and daughter, liv-  
ing. It is thought, in San Francisco.Novelist—You rich men should be

Conditions as to Make Her  
Reply Unfavorable.ANSWER OF GREAT  
BRITAIN MOST FAVORABLE.Italy Would Leave the Entire Matter  
in the Hands of Minister Bowen—  
Secretary Hay Will Attempt to Ob-  
tain Castro's Acquiescence.Washington, Dec. 19.—It is an-  
nounced at the state department this  
morning that answers have been re-  
ceived from the triple alliance con-  
cerning the proposal of arbitration  
made by President Castro through  
Minister Bowen. The answers while  
admitting the correctness of the prin-  
ciple of arbitration, are not regarded  
as satisfactory on account of the con-  
ditions imposed.The answer of Great Britain was  
most favorable. Germany interposes  
so many conditions as to make her  
answer anything but a consent to ar-  
bitration. Italy, in as much as she  
is the youngest member of the alli-  
ance, is willing to abide by the dis-  
positions of the other two nations.  
Even Great Britain's answer contains  
a number of stipulations which would  
require time for adjustment before an  
arbitration could be entered into.The character of the objections to  
immediate arbitration interposed by  
Germany and Great Britain is not  
made public, further than that one  
condition is that there must be some  
guarantee that Venezuela will fulfill  
the judgment of the arbitrators. It is  
semi-officially learned that one of  
the conditions laid down by Germany  
is Venezuela's apology for the arrests  
of the German consular officials and  
the sacking of the consulate at Car-  
acas. Secretary Hay immediately took  
the answer of the three powers to a  
cabinet meeting, where it was dis-  
cussed. It was decided to make ef-  
forts to obtain Castro's acquiescence  
in as many of the conditions as possi-  
ble, while at the same time it is diplo-  
matically suggested to Germany and  
Great Britain that they recede from  
the more onerous stipulations.

## Italy Ready to Arbitrate.

Rome, Dec. 19.—The foreign office  
officials believe that the proposition  
for arbitration of the Venezuelan dis-  
pute through Bowen will be accepted,  
and say that it will end the matter so  
far as Italy is concerned.

## Minister Bowen as Arbitrator.

ment is trying to induce Germany and  
England to submit to a proposition  
empowering Minister Bowen the sole  
arbitrator of the Venezuelan dispute.

ents and 58 Others in Siberian

others now exiled to Siberia.

## POST CHECK CURRENCY.

Up-to-Date Method of Sending Small  
Accounts Through the Mail.For years the public has been an-  
noyed beyond measure by the slow,  
ancient methods provided by the pos-  
tal department for safe transmission  
of small sums of money by mail.  
Money orders are inconvenient to  
both sender and receiver. The post  
check currency system offers a meth-  
od that is absolutely safe and as con-  
venient of execution as paying a  
nickel for a cigar. Antiquities have  
no place in the modern business world  
and congress should lose no time in  
passing the post check currency bill,  
and give the people all possible bene-  
fits of practicable, 20th century ideas,  
born of experience and good sense,  
and a desire to please and accommo-  
date the public.—Ex.

## Themselves to Blame.

After indulging in ruinous competi-  
tion for some time, the master print-  
ers of several Swiss towns have form-  
ed a trust for the purpose of regulat-  
ing prices. Each member of the com-  
bine has obligated himself to charge  
the rate agreed upon by the trust. The  
Swiss gentlemen have solved the prob-  
lem. Employing printers who are  
continually complaining of the low  
prices they receive for their work  
have only themselves to blame. Good  
work will command good prices.  
Every employer owes it to himself to  
see that the products of his shop are  
the best. If he does this, he will not  
need to worry about the profit side  
of the ledger.—Typographical Jour-  
nal.

## CONDITIONS IN GUATEMALA

SUFFERING INDESCRIBABLE  
AND LOSSES INESTIMABLE.Santa Maria Still Active—Business  
Paralyzed—Price of Necessities so  
High That Few Can Buy Them.Guatemala City, Guatemala, Dec. 19.  
—It is probably due to some govern-  
ment instructions that the papers  
here have not said anything with re-  
ference to the eruption of the Santa  
Maria volcano, which can be consid-  
ered, because of its magnitude, as a  
national calamity. The losses suffer-  
ed by German capital are not less  
than \$6,500,000, consisting of houses  
and machinery destroyed, and the de-  
struction of the present coffee crop.  
If the total destruction of many other  
properties belonging to other foreign-  
ers, as well as to natives, is added to  
this amount, the actual losses ascend  
to a fantastic sum.The volcano is still in activity and  
a new eruption is feared at any time.  
Suffering is indescribable, for, be-  
sides the loss of coffee, which is es-  
timated at about 300,000 quintals, the  
corn and wheat fields are ruined.Owing to the unusually high rate  
of exchange, business is entirely pa-  
ralyzed, for all imported articles have  
reached such prices that very few  
persons can afford to buy them, and  
most of the merchants sell just  
enough to cover their expenses.The worst part of the present bad  
condition is that no one knows how  
or when it will change, and it is al-  
most unendurable just now. Articles  
of first necessity have reached inac-  
cessible prices, and the poor class of  
people is suffering therefrom.

## BILL TO STOP KISSING.

Richmond Girls Must Ask "Got Doc-  
tor's Certificate?"Richmond, Va., Dec. 19.—In the  
house of delegates today, Dr. W. B.  
Ware, a practicing physician, intro-  
duced a bill to make promiscuous  
kissing a misdemeanor. It is the first  
measure he has presented except by  
request. Practically all Dr. Ware will  
say of his bill is that while it ought  
to pass, he has no idea that it will be  
adopted. The act reads as follows:  
"Whereas, kissing has been decid-  
ed by the medical profession to be a  
medium by which contagious and in-  
fectious diseases are transmitted  
from one person to another, and  
whereas the prohibiting of such an  
offense will be a great preventative  
to the spreading of such diseases as  
pulmonary tuberculosis, diphtheria  
and many other dangerous diseases;  
therefore, be it enacted by the gen-  
eral assembly of Virginia:  
"1. That it shall be unlawful for  
any person to kiss another unless he  
can prove by his family physician  
that he has not any contagious or in-  
fectious disease.  
"2. If the physician testifies that  
the defendant has weak lungs he  
shall be found guilty of a misdemeanor,  
and the same penalty shall be im-  
posed as if he had some contagious  
or infective disease.  
"3. Any person violating the pro-  
visions of the first and second sec-  
tions of this act shall be deemed  
guilty of a misdemeanor and fined not  
less than \$1 nor more than \$5 for each  
offense."
