including shingles, door, windows, moulding, screen doors and windows—in fact, everything that is found in a first-class lumber yard.

## THE STEEL TRUST

ALREADY CONTROLS STEEL AND NAILS.

The United States Corporation is a Practical Monopoly—Forge Iron Weak.

Cleveland, O., Dec. 20.—The Iron Trade Review, in its issue this week, says: "The official announcement of the absorption of the new Union Steel Company, with its Dora and Sharon plants, by the United States Steel Corporation, is the most important piece of consolidation news since the corporation itself was formed. Their acquisition strengthens the steel corporation in its hold upon the lighter lines of production and in the wire and nail field gives it a practical monopoly, apart from the Alabama and Colorado concerns which are largely sectional in their domestic competition, while both look to the export trade for a partial outlet. Five blast furnaces, of which four are under construction, are thus added to the corporation's 77, the five capable of producing 800,000 tons a year. The corporation also adds to its outfit 24 open-hearth furnaces, with a capacity of 750,000 tons a year.

With the quiet that has come upon the iron trade in this closing month of the year, there is a declining tendency in pig iron which encourages buyers to hold over their contracts until January, at least. The inability of railroads to haul iron from furnaces accounts largely for the increase in pig iron stocks shown by the statistics for December 1, the gain being about 23,000 tons over the 71,000 tons shown November 1. Producing capacity advanced from 337,559 tons a week on November 1, to 345,550 tons a week on December 1, but the snows of the past 10 days have given fresh trouble to the blast furnaces in short coke supply. A number of Central Western furnaces have again been banked.

Pig iron for early delivery shows a further decline and is now close to the basis for the first half of 1903, which is also somewhat lower. Some Southern sellers asked for \$20 for No. 2 foundry at furnace for sheet iron, while others quote \$19 for early delivery or within the next three months, \$18.50 for second quarter of 1903, and \$18 for second half. The increasing amount of iron offered for early delivery leads consumers to hold off on later needs. While the Central West and the West are not likely to require much if any more foreign iron, unless serious railroad troubles should cut down the domestic supply in a way not probable, there is still a demand in the East for British and German irons for foundry purposes, and in the Pittsburgh district considerable import iron was bought in the past week for prompt delivery, prices ranging from \$21 to \$21.50.

Forge iron is weaker, and a lot of 5000 tons, Alabama forge, was sold in the past week to a large buyer at \$14 at furnace. January and February deliveries. It is reported that No. 2 foundry has been offered at \$16. Birmingham for the first quarter of next year. There is evidence here and there of some overbuying by consumers of foundry iron, occasional offerings from such sources being reported. The steel market shows more firmness, \$27 at the seaboard being now the minimum on imports, while domestic bessener steel is quoted at \$23.50 to \$30 Pittsburgh.

Let me say I have used Ely's Cream Balm for catarrh and can thoroughly recommend it for what it claims. Very truly, (Rev.) H. W. Hathaway, Elizabeth, N. J.

I tried Ely's Cream Balm and to all appearances am cured of catarrh. The terrible headaches from which I long suffered are gone.—W. J. Hitchcock, late Major, U. S. Vol. and A. A. Gen., Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by all druggists at 50 cents, or mailed by Ely Brothers, 56 Warren street, New York.

A merchant in one of the Northern cities lately put an advertisement in a paper headed: "Boy Wanted." The next morning he found a hand-box on his doorstep, with this inscription on the top: "How will this one answer?" On opening it he found a nice fat, chubby-looking specimen of the article he wanted, warmly done up in fannel.
