## MARRIAGE RECORD

FEWER LICENSES ISSUED THAN FOR PREVIOUS YEARS.

Divorces Have Also Fallen Short of the Number Recorded Last Year—156 Marriages Recorded so Far This Year.

Almost one-third as many divorce decrees have been issued in Umatilla county courts during the year ending with today as marriage licenses granted.

The number of both marriages and divorces have fallen short of the number recorded last year but this is not attributed to a scarcity of marriageable young people or the closer divorce laws.

Last year just 162 marriages were recorded in the county while up to last night only 156 had been issued this year. This is a falling short of six compared with the number last year, but it is expected that this shortage will almost be made up before the close of business this evening.

The divorces during the year closing at midnight tonight are 47, compared with 55 for last year. In fact, fewer divorces have been granted this year than during either of the two years just passed. In 1901, 55 were granted and in 1900 the number of divorces reached 63.

A rather peculiar coincidence and one that was noticed also last year, in the issuing of marriage licenses is the fact that seldom one license to wed was granted in a day. It was nothing unusual for two weeks to elapse without anyone appearing to secure a license, but just as sure as one came, Clerk Chamberlain and Deputy Hall began to prepare for the second. There is hardly an instance on record where one license was granted in the day. Many times men had to wait their turn for the clerk, just as sure as one man appeared at the office for a marriage license, another and sometimes two would follow in the same day. Not always were they acquainted, but frequently they would come from different parts of the county, but fate threw them together.

The largest record of any one day during the year was six licenses granted. Frequently there were four recorded in the same day, but seldom one.

The record of licenses above does not represent the total of marriages of young people of the county. It is a well known fact that 15 or 20 couples go from the east end of Umatilla county to Walla Walla county to be married each year. This would swell the number of marriages in the county to at least 175 for this year and nearly 200 last year.

### SUES FOR DIVORCE

Wife Declares That Her Husband Was Cruel and Jealous.

After having been wedded for eight years, Ida Stanull now asks the court to grant her a divorce from Chris Stanull.

The cause alleged is cruel and inhuman treatment on the part of the defendant. Plaintiff claims that recently he has become insanely jealous of her and applied loathsome and cruel epithets to her and at one time picked up a bottle and threatened to knock her brains out. He also threatened to kick her and in other ways threatened her bodily harm. All this, plaintiff alleges was without cause or provocation, but was simply done to humiliate her.

She says that defendant is insanely jealous and accuses her of being untrue, which is all without foundation, and she is afraid that he will do her bodily harm or take her life some time in a passion if she remains with him and unless the court restrains him from molesting her.

She asks \$150 attorneys' fees, \$50 to defray other expenses of the suit, and such other relief as the court sees meet. There are no children. Carter & Raley are attorneys for plaintiff.

"Do you mean to tell me that you were paid for voting as you did?"  
"Well," answered Senator Sorghum, "I had to have some motive, didn't I? A man who would vote that way without any excuse at all would be an example of total depravity."
