

GRAIN-O

THE PURE GRAIN COFFEE

In comparing Grain-O and coffee remember that while the taste is the same Grain-O gives health and strength while coffee shatters the nervous system and breeds disease of the digestive organs. Thinking people prefer Grain-O and its benefits.

Save Money and Your Eyesight

By Using the
Perfected Match Lighter Gasoline Lamp

The PERFECTED can readily be lighted with a parlor match.

It gives 10 times the light of a common kerosene lamp at half the expense and care.

It has a Nickel-Silver generator which does not scale from the action of heat, and clog the tip, as brass does.

We have Match Lighting Lamps from \$2.75 up.

Write for circulars and prices.

Bright's Disease and Diabetes Positively Curable.

They are curing Bright's Disease and Diabetes in California. The percentage of efficiency (recoveries) in these hitherto incurable diseases average as high as 87 per cent. The details of the investigation and demonstration of the new compounds are so conclusive that we at once sent for a bundle of the reports and for the new treatment for urgent cases in this city. Call or send for one of the reports.

THE IRRIGATION LAW

(Concluded.)

ment, such lands are not required for the purposes of this act; and the secretary of the interior is hereby authorized, at or immediately prior to the time of beginning the surveys for any contemplated irrigation works, to withdraw from entry, except under the homestead laws, any public lands believed to be susceptible of irrigation from said works: Provided, That all lands entered and entries made under the homestead laws within areas so withdrawn during such withdrawal shall be subject to all the provisions, limitations, charges, terms, and conditions of this act; that said surveys shall be prosecuted diligently to completion, and upon the completion thereof, and of the necessary maps, plans, and estimates of cost, the secretary of the interior shall determine whether or not said project is practicable and advisable, and if determined to be impracticable or unadvisable he shall thereupon restore said lands to entry, that public lands which it is proposed to irrigate by means of any contemplated works shall be subject to entry only under the provisions of the homestead laws in tracts of not less than 40 nor more than 160 acres, and shall be subject to the limitations, charges, terms and conditions herein provided: Provided, That the commutation provisions of the homestead laws shall not apply to entries made under this act.

Section 4.—That upon the determination by the secretary of the interior that any irrigation project is practicable, he may cause to be let contracts for the construction of the same, in such portions or sections as it may be practicable to construct and complete as parts of the whole project, providing the necessary funds for such portions or sections as are available in the reclamation fund, and thereupon he shall give public notice of the lands irrigable under such project, and limit of area per entry, which limit shall represent the acreage which, in the opinion of the secretary, may be reasonably required for the support of a family upon the lands in question; also of the charges which shall be made per acre upon the said entries, and upon lands in private ownership which may be irrigated by the waters of the said irrigation project, and the number of the annual installments, not exceeding 10 in which such charges shall be paid and the time when such payments shall commence. The said charges shall be determined with a view of returning to the reclamation fund an estimated cost of construction of the project; and shall be apportioned equitably: Provided, That in all construction work eight hours shall constitute a day's work, and no Mongolian labor shall be employed thereon.

Section 5.—That the entryman upon lands to be irrigated by such works shall, in addition to compliance with the homestead laws, reclaim at least one-half of the total irrigable area of his entry for agricultural purposes, and before receiving patent for the lands covered by his entry shall pay to the government the charges apportioned against such tract, as provided in section four. No right to the use of water for land in private ownership shall be sold for a tract exceeding 160 acres to any one landowner, and no such sale shall be made to any landowner unless he be an actual bona fide resident on such land, or occupant thereof residing in the neighborhood of said land, and no such right shall permanently attach until all payments therefor are made. The annual installments shall be paid to the receiver of the local land office of the district in which the land is situated, and a failure to make any two payments when due shall render the entry subject to cancellation, with the forfeiture of all rights under this act, as well as of any money already paid thereon. All moneys received from the above sources shall be paid into the reclamation fund. Registers and receivers shall be allowed the usual commissions on all moneys paid for lands entered under this act.

Section 6.—That the secretary of the interior is hereby authorized and directed to use the reclamation fund for the operation and maintenance of all reservoirs and irrigation works constructed under the provisions of this act: Provided, That when the payments required by this act are made for the major portion of the lands irrigated from the waters of any of the works herein provided for, then the management and operation of such irrigation works shall pass to the owners of the lands irrigated thereby, to be maintained at their expense under such form of organization and under such rules and regulations as may be acceptable to the secretary of the interior: Provided, That the title to and the management and operation of the reservoirs and the works necessary for their protection and operation shall remain in the government, until otherwise provided by congress.

Section 7.—That when carrying out the provisions of this act it becomes necessary to acquire any rights or property, the secretary of the interior is hereby authorized to acquire the same for the United States by purchase or by condemnation under judicial process, and to pay from the reclamation fund the sums which may

GOING OUT OF BUSINESS!

Most Extraordinary Bargains Ever offered in Eastern Oregon

be needed for that purpose, and it shall be the duty of the attorney-general of the United States upon every application of the secretary of the interior, under this act, to cause proceedings to be commenced for condemnation within 30 days from the receipt of the application at the department of justice.

Section 8.—That nothing in this act shall be construed as affecting or intended to affect or to in any way interfere with the laws of any state or territory relating to the control, appropriation, use or distribution of water used in irrigation or any vested right acquired thereunder, and the secretary of the interior, in carrying out the provisions of this act, shall proceed in conformity with such laws and nothing herein shall in any way affect any right of any state or of the federal government or of any landowner, appropriator, or user of water in, to, or from any interstate stream or the waters thereof: Provided, That the right to the use of the water acquired under the provisions of this act shall be appurtenant to the land irrigated, and beneficial use shall be the basis, the measure, and the limit of the right.

Section 9.—That it is hereby declared to be the duty of the secretary of the interior, in carrying out the provisions of this act, so far as the same may be practicable and subject to the existence of feasible irrigation projects, to expend the major portion of the funds arising from the sale of public lands within each state and territory hereinbefore named for the benefit of arid and semi-arid lands within the limits of such state or territory: Provided, That the secretary may temporarily use such portion of said funds for the benefit of arid or semi-arid lands in any particular state or territory hereinbefore named as he may deem advisable, but when so used the excess shall be restored to the fund as soon as practicable, to the end that ultimately, and in any event, within each 10-year period after the passage of this act, the expenditures for the benefit of the said states and territories shall be equalized according to the proportions and subject to the conditions as to practicability and feasibility aforesaid.

Section 10.—That the secretary of the interior is hereby authorized to perform and all acts and to make such rules and regulations as may be necessary and proper for the pur-

pose of carrying the provisions of this act into full force and effect. Approved, June 17, 1902.

Democratic Leaders to be Guests.
Omaha, Neb., Jan. 8.—The Jacksonian Club of Omaha has made great preparations for the banquet to be given under its auspices tonight in observance of the birthday of the hero of the battle of New Orleans and the patron saint of democracy. Though the well laid plan to have Richard Olney, of Boston, speak at the banquet in the interest of the harmony movement was sidetracked by Mr. Olney's declination to attend, there promises to be no dearth of prominent party leaders present. J. Hamilton Lewis, of Washington, Mayor Tom L. Johnson, of Cleveland, and former Attorney General C. J.

Smythe, of Nebraska, are among the men of note who have been invited and who are expected to be present.

Use for Cottonseed Hulls.
Buffalo, N. Y., Jan. 8.—Three grades of paper of fine quality have been made in a paper plant at Niagara Falls from material obtained from cottonseed hulls and flax fiber. The cottonseed paper is a bleached product, soft and tough. It is thought that writing paper can be made from the hulls. The flax fiber makes a paper much like linen, and it is believed that the material has a great future. The experiments indicate the South and West have a new source of revenue in their cottonseed hulls and their flax straw, which up to this time have been practically worthless.
