COUNCIL MEETING

RESOLUTION PASSED AGAINST THE CHANGE IN CHARTER.

Councilman Hartman Resigns as Chairman of the Health and Police Committees—F. X. Shemp Granted Liquor License—Estimate the Cost of Six and One-half Miles of Sewer at \$33,000.

The city council at its meeting last night: Ordered the storage house painted. Granted liquor license to F. X. Shemp for six months. Adopted resolution providing for grading of Main street between Jackson and Wilson, and for new sidewalk on both sides of Main, between Jackson and Washington. Asked the legislature to vote against charter change, making offices of recorder and marshal elective. Estimated cost of six and one-half miles of sewers at \$33,000.

At the council meeting last night there were present Mayor Halley, Recorder Fitz Gerald, Attorney Carter and Councilmen Hartman, Somerville, Switzer, Johnson, Clopton, and Dickson.

The question coming up in informal discussion as to the prospects of selling the old engine, it was agreed that it should be cleaned, and that some minor repairs were needed upon it. T. J. Millon, the engineer at the pump house, was finally authorized to clean it and put in such repairs as are necessary, use his own judgment as to details, and afterward send in his bill.

The bill of C. E. Roosevelt for \$10 for floral decorations used by the committee when the Tongue funeral train went through was read but passed up, no action being taken upon it. Before adjournment \$3.50 was raised among the city officials present, and the remainder will be raised by private subscription to defray the bill.

What Shall We Have for Dessert?

This question arises in the family every day. Let us answer it to-day. Try

Jell-O,

a delicious and healthful dessert. Prepared in two minutes. No boiling! no baking! add boiling water and set to cool. Flavors:—Lemon, Orange, Raspberry and Strawberry. Get a package at your grocers to-day. 10 cts.

Pendleton Planing Mill and Lumber Yard.
ROBERT FORSTER, Proprietor

The council ordered the painting of the storage house, the expense of which, the building being 20x48 feet in size, is estimated at \$20.

The application of F. X. Shemp for a license to sell liquor for six months from the first of February, was granted.

There was an informal discussion of the subject of there being two bars in the Golden Rule hotel, run under one license, and the question was raised whether the bartender for the basement is running it for himself or for the house. The point was raised that as the law requires the posting of the license in a conspicuous place behind the bar, it could not be done in this instance, because there are two bars, on different floors. The inquiry was also made as to whether the proprietor holds more than one government license.

A resolution was unanimously passed providing for the grading of Main street between Jackson and Wilson streets and for laying sidewalks on both sides of Main between Jackson and Washington.

The council unanimously passed a resolution endorsing the bill now before the legislature appropriating \$500,000 for the Lewis and Clark exposition.

The resolution printed below in full, was read and passed with one dissenting voice—that of Mr. Hartman:

Resolved, That the mayor and common council of the city of Pendleton, having learned that a petition is being circulated asking the legislature now in session to amend the charter of this city, making the offices of recorder and marshal elective instead of appointive; and recognizing the fact that it is inimical to the interest of good government to the city to have said change made, for the reason that it is a step backward rather than forward in the march of civilization, that the election of these officers in the past (before the charter was changed making them appointive) in a number of instances, made officers who were not in accord with the mayor or common council in conducting the affairs of the city, even going so far as to openly defy them, and that several of these elected officers made exceedingly bad records, and that all the experience of the past leads the mayor and common council to believe that no change should be made at this time, that the present law has not been long enough in existence to fully prove its great value, and further that the mayor and common council before they can rightly be held responsible for the conduct of the government of the city, must be left with control of the various officers who are to put the laws into effect; would therefore urge the senators and representatives from Umatilla county to use their best endeavors to defeat the passage of such an amendment to the charter.

That the recorder be directed to at once send a certified copy of these resolutions to each of our senators and representatives from this county.

As soon as the vote on the resolution was recorded, Councilman Hartman, who voted no, asked to be relieved from the chairmanship of the health and police committee.

The recorder was instructed to prepare copies of both resolutions and forward them to the representatives and senators from this county.

An informal discussion of the sewer question developed the opinion that not over six and a half or seven miles of sewer will be needed to carry out the proposed plans. If the system costs the same per mile as the Baker City system, which seems to be the nearest to the Pendleton system as to general conditions surrounding the work, the seven miles of sewer here will cost approximately \$33,000.

The problem of putting the two Babcock fire extinguishers beyond the influence of extremely cold weather was discussed. The matter was finally referred to Fire Chief Withee.

A resolution was unanimously adopted ordering a plank sidewalk on the east side of Cosbie street, between Alta and Court streets. The district does not have many residents but it seemed to be the consensus of belief that the walk ought to be laid, and so the resolution passed.

The opinion developed that perhaps the city had put its foot in a hole by ordering the improvement of the east end of Court street, but no proposition to reconsider the action of a week ago was even proposed. A general discussion of the subject was indulged in. It was agreed that however necessary the improvement is that nevertheless the situation has its unfortunate phases.

One is the fact that the cost of the grading and rocking will exceed the value of some of the lots, which are unimproved, and their value will undoubtedly be eaten up by the expense which is estimated to be at least \$250 per lot.

The Sisters of St. Francis own three blocks and 60 feet of ground abutting the lane, and the hardship the improvement will impose upon the order was deeply regretted, especially when the value—commercial, social and educational—of the society to the community, is considered. The prospect of the O. R. & N. defraying a portion of the expense does not seem to be altogether hopeless.

City Attorney Carter is in receipt of a letter from the company which implies that the company may bear a

portion of the expense, but the communication does not really commit the company to do so. The policy of the company in this county heretofore in relation to grades and bridges was referred to as being quite liberal and the hope was expressed that the company will conclude to bear a portion of this expense. It will be remembered that the railroad right of way abuts the entire north side of the lane.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.
The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a

parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in borrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpelde, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and cures baldness. Sold by F. W. Schmidt & Co. Send 10c in stamps for sample to The Herpelde Co., Detroit, Mich.
