IRRIGATION COMMITTEE HAS A MEASURE.

Would Restrict the Privileges of Inrigation Companies-Amendment to Give Bona Fide Settlers Chance to Acquire Homes.

Samuel White of Baker City, chairman of the legislative committee of the State Irrigation Association, will present through Eastern Oregon Repesentatives, some important change in the Arid Land act, having for their purposes the restriction of the privileges of the reclamation companies, working under contract with the

The first amendment will apply to section 3288 of the Bellinger and Cotton code, which gives to reclamtion companies the exclusive right to the possession and use of the lands covored by the contracts from the date of the contracts until the liens are paid off. Mr. White thinks that the companies should not have the pos-session and use of the land all this time, to the exclusion of all other persons, at the same time that they are holding liens which draw six per cent interest and he proposes to have this privilege limited to such occupancy as is necessary for the construction of trrigation ditches and canals.

Section 3292 of the code provides that any settler desiring to purchase any unsold quarter section of desert land on which there is a lien for the cost of reclamation shall pay to the holder thereof such proportion of the amount of the entire lien as the true value of the tract bears to the true value of the whole tract, which amount is determined by the state land board.

Upon payment of the lien to the holder thereof, the purchaser is entitled to a deed from the state land heard. Mr. White thinks this section. gives the reclamation companies an opportunity to get the title to the best of the lands gettine "days the best of the lands gettine "days the best of the lands gettine "days the best young artist is days the talented by the lands gettine "days the best young artist is days the talented by the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the best young artist is days the lands gettine "days the best young artist is days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the lands gettine "days the best young artist is days the best young artist is days the best young artist is days the best young artist the lands gettine "days the best young artist is days the best young ar the lands getting "dummies" to of the lands getting "dummies" to Shay, the famous criminal lawyer of ease has again broken out in Pendle-make the purchases and then transfer Cincinnati. This he thinks will make it possi-

for a larger number of bona fide settlers and homeseekers to secure land and assist in reclaiming it. He would make the purchase price payable in 10 annual installments, reserv-ing to the llenholders the right to foreclose at any time when the purchaser had become two years delinquent in his payments.

The comedy is based upon a series of mistakes that grow out of the con-signment of an 18-year-old girl to the care of her father's old friend, who has a bachelor nephew, an artist. Through an error the explanatory letter preceding the malden is sent to this young man, and its phrasing leads him to believe that its subject is an
