## WATER THE DESERT

ANOTHER IRRIGATION COMPANY FORMED.

Articles Filed Today Incorporating the Milton, Freewater & Hudson Bay Company.

Articles of incorporation were filed with the county clerk, W. D. Chamberlain, today for one of the most important enterprises that has been launched in Umatilla county for some time.

The Milton, Freewater & Hudson Bay Irrigation Company, with a capital stock of \$5000, divided into 50 shares at \$100 each, has been organized and incorporated by William C. Gallagher, William T. Shaw and James C. Hodgson, all well known pioneers of Umatilla county. The principal office of the new company will be at Freewater, and its business is to construct and maintain every conceivable appearance of an irrigation system.

It is specified in the articles of incorporation that the object of the company will be to direct waters from the Walla Walla and Tumalum Rivers in Umatilla county, for irrigation purposes, with the right to sell, lease and rent water privileges.

The new irrigation company will furnish water for a large portion of that tract of land lying between Freewater and Hudson, and its organization is a long step toward the early reclamation of that land.

### WHEAT LOCALLY.

Milling Concerns Paying 67½ Cents to Fill Their Demands.

The extraordinary price for wheat in this market last evening maintains at this hour, though it is down two cents in Chicago. The close relation between this price and the milling industry is illustrated by the fact that the top for wheat yesterday and today in the Palouse country was and is but 63 cents. Only in the immediate neighborhood of the exporting mills was the extraordinary figure of 67½ cents or even approximately that figure reached.

The foundation causes for the raise are said to be found in the fact that the heavy exporters, to meet the foreign demands, had purchased everything in sight and forced the large milling concerns to put up the prices locally to fill their own demands. Of course should there possibly occur

### FLURRY IN WHEAT.

About 60,000 Bushels Stored at Different Places Was Purchased at 52½c Per Bushel.

Telegraphic advices received here at 4 o'clock yesterday afternoon were responsible for the biggest flurry in wheat experienced on the Pendleton market in many years.

T. G. Montgomery, to whom the news came, at once closed options he held on wheat aggregating about 60,000 bushels, stored at different points along the W. & C. R. railway, paying therefore 67½ cents per bushel, which was virtually an advance of 2½ cents within half a day.

The heaviest holdings represented in Mr. Montgomery's purchases were from the following individuals, who were holding 45,000 bushels among them: W. H. Reeder, John Schroeder, George Schroeder, George Munn, William Kuppens and E. J. Melners. Fifteen thousand bushels were bought in addition to the above, in Athena and Helix.

### Preparing for Shoot.

Today the tents are being erected out at the shooting range. One tent will be 10x12 feet in size, another 12x14, and the tent from which refreshments will be sold is 20x30 feet in size. The finishing touches to the arrangements for the tournament are being given today. Ropes are being stretched, walks laid and the building of the trap houses is nearly completed. The 40,000 clay birds, purchased by the association are here. The work at the grounds has been done under the general direction of Horace Stillman.

### Goals to Seattle.

## IN CIRCUIT COURT

**JOHN WEIDERT GETS ONE HUNDRED DOLLARS DAMAGE**

Fred Stine and Ida Jones Sue Umatilla County for \$250 Damages—A Parallel Case With That of Weidert's.

After occupying the time of the circuit court for two days, the case of John Weidert against Umatilla county was disposed of this morning, when the jury awarded Mr. Weidert \$100 damages.

The viewers of damages appointed by the county awarded Mr. Weidert \$75, when the road in question was located, which he refused to accept. He then sued for \$492 and is awarded \$100, after the costly seige of a suit at law.

Another case almost exactly parallel to the Weidert case is now being tried.

Fred Stine and Ida Jones, of Athena, have sued Umatilla county for \$250 damages, sustained by the location of county road No. 517, which passes through their property adjoining Weidert's.

The law points involved in the case are exactly like those of the Weidert case, and witnesses are being examined today.

### First Ditch in Umatilla.

O. D. Teel, of Echo, and some eight or ten other farmers, are using what is believed to be the first irrigation ditch dug in Umatilla county. During the '60's, and certainly prior to 1869, a man named Thomas Lowe dug an irrigation ditch about a mile long from the Umatilla River, near Echo, and with his neighbors, used it probably continuously until about 1878, when it was abandoned and it was not repaired for several years.

In 1882 Mr. Teel began the repair of the ditch and made some use of it for irrigation purposes, but it was not until 1887 that it was again used systematically. Since then Mr. Teel and others have made continuous use of it.
