CRUSHED TO DEATH

FRANK MARSH KILLED IN A CAVE-IN.

Seven Ton Rock Falls Upon Him While Employed in the Monarch Mine, 18 Miles From Sumpter.

Frank Marsh, son of Mr. and Mrs. George Marsh of this city, was killed by a cave-in Wednesday at the Oregon Monarch mine, 18 miles from Sumpter. He was employed with the tunnel gang, which follows up the miners with timbers to support the roof and walls. While the unfortunate young man was engaged in this work the cave-in occurred, and his life was crushed out beneath a descending mass of earth and rock. A companion, Al Lake, was badly injured.

Frank Marsh was born November 30, 1870, in Hickory county, Missouri, and accompanied his parents to Weston in June, 1875. His boyhood days were spent here, and among his schoolmates and playmates "Slackie," as he became known, was a general favorite. Eight years ago he went to California, remaining there until last fall, when he came home on an extended visit. In April he left for the Sumpter mines, where he had been employed up to the time of his death.

Willis Marsh, of this city, and Charles Marsh, of Pendleton, brothers of the deceased, left as soon as possible for Sumpter to take charge of the remains, which they will escort to Weston for interment.—Weston Leader.

To the above may be added a few facts learned from J. B. Purdy, who was in the neighborhood of the accident when it occurred. He states that the first cave-in caught his cousin across the feet and lower part of the legs, holding him fast. Before he could be extricated a second fall came, breaking his back and causing other injuries that gave rise to the belief that death must have been practically instantaneous. The second fall upon him was a seven-ton rock. Marsh's companion at work, named Al Lake, was seriously, though not fatally hurt by the cave-in. In addition to the relatives mentioned above, by the Leader, there are his cousin, J. B. Purdy, of Pendleton, and his sister, Miss Ida Marsh, who lives at Weston.

COUNTY POOR FARM.

Weston Leader Thinks it a Good Purchase—That it Will Increase in Value.

The purchase of the C. A. Chapman farm on McKay creek, near Pendleton, for \$11,000, is not only a good investment on the part of the county court, but offers a much more practical means than the present inadequate system of caring for the county poor. The aged, sick and penniless unfortunates whom the public is in duty bound to support, will be provided with a pleasant, healthful home, and those of them who are able to labor may become in a measure self-sustaining by tilling the rich soil of the Chapman farm.

The place is well improved with houses and fencing, and well stocked with implements, horses and Jersey cows, which are included in the deal. Forty acres are in alfalfa, yielding five tons per acre, and 120 acres more can be made to produce this crop. At the rate Umatilla county land is increasing in value, the Chapman place will never be worth less than the purchase price, and it can gradually be converted into an ideal poor farm.—Weston Leader.

Parasites Cause All Hair Troubles.

Nine-tenths of the diseases of the scalp and hair are caused by parasite germs. The importance of this discovery, by Professor Unna, of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character, fail to cure dandruff; because they do not and they can not kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales, called scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ, Herpicide is also a delightful hair dressing, making the hair glossy and soft as silk.

COUNTY CHARGES.

Superintendent McDill Has Eleven Men in His Care—Eight Are Over 60 Years Old.

There are but 11 inmates of the county infirmary now, and all are men. Eight of the 11 are men from 60 to 84 years of age, and all these eight were citizens of the county when admitted to the home. One of them—Louie Ragle—has lived in Umatilla county 42 years. Three comparatively young men are all strangers who have lived in the county less than 30 days and so are wards of the state. The three mentioned are ill or diseased, and were admitted because they were unable either to work or move on. There is not a female county charge now. J. B. McDill, the superintendent of the infirmary, took the six who are most able-bodied, out to the new poor farm and tried their efficiency at light labor, such as raking weeds and doing

other chores in preparation for the permanent improvements which will be put upon the farm between now and spring. They are too feeble to accomplish much. Mr. McDill says all the inmates are quite easily governed, and get along quite well with each other. They have been on the farm from a few months to seven or eight years. There have been two deaths within the past year.

HOBOS ARE BOLD

LONELY DISTRICT ON O. R. & N. LINES.

Robberies by Tramps Make it Difficult to Keep Section Men—Wives of Section Foremen Spend the Day in Fear.

Railroad men say that up on the lonely Snake river cutoff of the O. R. & N., between Riparia and Wallula, it is an extremely difficult matter to get section hands to remain any length of time, whether Japs, Chinamen or Europeans. Section bosses do better, because they are usually married. It is not the isolation that drives out the underhanded, but the frequency of the robberies to which they are subjected by the passing hoboes who occasionally are forced to count ties from Riparia to Wallula from some distant siding along the Snake where they have been ditched.

At Page station, 50 miles down the river from Grange City, trappers have stopped ditching hoboes in the hobo season altogether, either through instructions from the superintendent or through the entreaties of the few residents, who complain bitterly that for almost every "hobo" let down at Page, a burglary follows.

This annoyance does not lie in standing the section hands up at the points of guns for they usually have little money, and if they had, money is useless to the cut off hobo. But in the absence of the section men on their beats their section houses are broken into repeatedly, their effects taken, and their humble larder rifled. The repetition of this by desperate tramps starting along the uninhabited canyon, with no farm house within many miles over the breaks, almost invariably drives out the men sent in by the O. R. & N. to work.

About four doses is sufficient for a Jap. A Chinaman will stand it a little more, while the occasional Swede or Italian "lays down" early in the game.

So far the O. R. & N. is unable to cope with this problem, save by sending new men. Some of the fast freight down the cutoff are thick with hoboes. If they are allowed to make the lone desert stretch between Grange and Wallula in peace, the inhabitants of the canyon are saved. If the hobo is ditched it is to look out for property, for he must eat.

SEE THE NEW SPORTSMAN'S SWEATER AND SHOOTING JACKET

The wives of section bosses, who are left alone from early morning until night while their husbands are away miles on their district, have a lonely fearsome time. These women are trained by their husbands with rifle and revolver, and while the passing hobo is usually cordially treated, he is compelled to keep his distance by the well-known propensity of the cutoff housewives to use the real Western prerogative of defense.

Amen.

Senators Pierce and Smith were on the right side of the "clerkship graft" by which every senator is allowed a personal clerk. They were enrolled in the minority vote against it, and will generally be found on the right side of every question during the session.—Weston Leader.

Half soles at Teutsch's.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. Please to remember, the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.
