## WAGON BED FACTORY

ALLEN, OF STRATFORD, ONTARIO, ENLISTING CAPITAL

undertake to Establish a Factory here for Manufacture of Patent Wagon Beds—Pendleton to Be the Distributing Point for the West Empire.

Best for the manufacture of a combination wagon bed is a factory for Pendleton. Benjamin Allen, of Stratford, Ontario, Canada, the city for the purpose of engaging capital in such a project. He claims to have established a factory for the manufacture of this kind of wagon bed in Fargo, N. D., Winnipeg, Minn., Fredericton, N. B., and Port Huron, Ontario. He considers this the most suitable place, geographically, on account of the abundance of necessary timber in the rough for manufacture of the wagon bed, as ascertained that every kind of lumber necessary grows in abundance in this locality. He also puts value upon the water power and other natural advantages. Mr. Allen claims to have letters of introduction from members of the Canadian parliament and prominent Canadian business men to Senator-elect, of Washington, to the prime minister of British Columbia to the Chamber of Commerce and Boards of trade and business men general.

The article to be manufactured is a combination wagon bed—at once a double bed, a livestock rack, vegetable, coal, wood, hay rack and header box. A full size machine will be on exhibition at the Golden Rule hotel, everybody will there have a chance to observe its workings and for themselves of its merits. The potent reason for the establishment of the plant at this point is here, so centrally located, controlled the market for Washington and Oregon, charges being practically the same from this point to points of a long distance away, in the West.
