### REPORTS UNTRUE

#### SHEEPMEN INTERVIEWED ON SUBJECT OF DISEASE.

With the Exception of Very Small Number in One Isolated Band, Umatilla County is Entirely Free From Scab—Stock Inspector Has One Small Band Quarantined.

There is very little confirmation of the report that the epidemic of scab is on the increase in the county. The East Oregonian reporter today interviewed Charles Cunningham, Gus La Fontaine and Rugg Bros. on the subject, and none of the parties named know of any cases in the county whatever. Mr. Cunningham was particularly surprised when told of the existence of such a rumor, declaring that his band of over 20,000 is entirely free from the disease, whereas one report had it that all his sheep had been quarantined. Sheep Inspector Bean, when interviewed at noon on the subject, reluctantly admitted that there is some sheep scab in the county; in fact that there is one band of 2,000 quarantined now, but declined to tell to whom they belong or in what portion of the county the animals are. He insisted that the isolation is perfect, and the means being used to eradicate it modern and thorough, and declares that six weeks more—the disease has existed but two or three weeks—is all that is needed to completely get rid of it. The peculiar part of it is that the disease was introduced by a small flock of imported sheep. Until this episode there has not been a case of scab in the county for two years and four months, the native stock being entirely free from it for that length of time. The significance of this fact is most important when it is remembered that Umatilla county has 240,000 head of sheep. So the scare which is developing on the subject is because one sheep in 120 of the entire stock of the county is quarantined and only a few in that band of 2,000 now quarantined actually have the disease.

Mary Slocum Palmer, wife of Hon. P. P. Palmer, of Eugene, died at her home Sunday morning. She came to Oregon in 1853 from Kentucky.

### HOBOS ARE SCARCE.

#### One Jail Sentence is Sufficient to Keep Them Moving.

Judge Fitz Gerald, speaking of the scarcity of the regular hobo, in Pendleton, today said:  
"One short sentence in Pendleton's city jail is sufficient to start the hobo to more congenial climes. There are no luxuries to speak of in the jail, and the disappointed specimen who feels that it would be a happy diversion to sit by a warm fire and eat three meals a day, even in jail, during the winter months, makes haste to get out of town after a very brief sojourn there. The second jail sentence is scarcely ever necessary to persuade the hobo to leave town."  
"Pendleton is more free from professional beggars or hobos this winter than for several years."  
"The police court might be compared," said the judge, "to the outlet of a sewer system. All the moral filth of the city is poured into the court, like a sewer pipe dumps its burden into the river."  
"In the stories that are told there is heard all the private quarrels and scandals of the town."  
"If there is a family jar that is particularly distasteful, it is poured into the ears of the court, in all its nasty details."  
"It is a moving picture of the world of petty crime."

#### Sewer Contractor.

G. N. Miller, of Seattle, is in the city counseling with the council committee on the sewer question. Mr. Miller is the man who estimated the cost of the seven and a half miles of sewer in this place to be approximately \$30,000. He is the man who planned the sewer system of Walla Walla, where 26 miles of sewer cost \$100,150, practically the same per mile that is proposed extension in Pendleton would cost. Mr. Miller put in the sewer system at New Whatcom and Port Townsend, and was once assistant city engineer of St. Paul.

#### City Rock Crusher.

George W. Evans, of Portland, representing the Buffalo Pitts Company, is in the city and will meet tomorrow night with the city council. Mr. Evans will endeavor to induce the council to invest in a steam road roller and rock crusher. He states that a 16-ton roller will cost from \$3,500 to \$4,000. He hopes that a committee will be appointed to go to Portland to examine such a roller as he thinks the city needs, and also examine its work.

#### Monthly Medal Shoot.

The regular monthly medal shoot by the Gun Club, was a 25-target event, as usual, distance and other conditions being regulation. There was a stiff and cold wind prevailing. The result was as follows: Waite and Stillman, 20 each; Thompson, 17; Ayres, 16; Sewell, Boettcher and Ferguson, 12 each. In the shoot-off, between Waite and Stillman, the former got nine birds out of 10 and the latter eight.

### MRS. WADE AT THE DALLES.

#### Meets With the Women's Club of That City and is Enthusiastic Over Result of Work at Salem.

Members of The Dalles Sorosis were delighted with the opportunity afforded them by their president, Mrs. F. F. Spaulding, Saturday afternoon, to meet the president of the State Federation of Women's Clubs, Mrs. C. B. Wade. That lady being a member of the legislative committee, appointed to look after the bills which through their influence were introduced in the legislature, has been to Salem and was on her return to her home in Pendleton, when she stopped to make an official visit to the local Sorosis. In an informal talk she gave the ladies a splendid idea of the excellent work which is being accomplished by the clubs throughout the state, among other things citing the interest they have taken in civic improvement. Among the bills for which they are responsible is one to amend the library bill, which passed the last legislature, allowing a one-fifth mill tax to be made in cities of the state for the maintenance of free libraries. The idea now is to have the limit of the amount of taxation removed. Another bill is to provide for having trained attendants accompany insane persons to the asylum, and still another to provide for a home for feeble minded children. All of these are bills which should pass and bid fair to become laws. She spoke on many other very interesting subjects, which will help the ladies with their work. At the close of her talk, the hostess served refreshments, which added much to the pleasure of the afternoon.—Dalles Chronicle.

#### Buying Beef Cattle and Mutton.

John Shaw, of Heppner, is in the city and from here will go to outside points in the county to purchase beef cattle and mutton sheep for the Sound and Portland markets. Mr. Shaw insists that the Hereford is by all odds the best beef stock that has been developed, and the Shropshires the best mutton stock. He declares that the Shorthorns have to be given too much odds in the way of shelter and selected feed while fattening to be anywhere near as profitable a market animal, or to make as good beef after it is fattened, as the Hereford.

#### Levee in Safe Condition.

Street Commissioner Fee declares that investigation shows that the levee for the entire length and all the rip-rapping as well is in good repair and that as a matter of fact there is no need in sight now for repairs. A recent alarm to the effect that the levee was in bad shape at one certain point had its origin in the displacement of some false work or facing to the rip-rap in one place; but the rip-rap and levee are and were unimpaired.
