## MAY NOT ACCEPT

JUDGE LOWELL HESITATES TO ACT AS COMMISSIONER.

Fair Appropriation Bill Allows No Salaries to Board—Only a Rich Man Can Afford to Lose the Time—Board Will Not Organize Until in May.

Judge Stephen A. Lowell hesitates seriously about accepting the appointment of commissioner for Eastern Oregon for the Lewis and Clark Expedition. Judge Lowell regrets that his means do not warrant the expenditure of time and energy which the law imposes upon the commissioners, who will receive no salary. The appropriation allows them only their hotel bills and railroad fare—does not remunerate them in the least for their outlay of time, which will be very considerable if they even attempt to execute the amount of work which the law requires of them.

Mr. Lowell declares that no man who is not independently rich can afford to undertake the duties of exposition commissioner. Of the 11 members of the commission, 10 live west of the Cascade mountains. What he thinks is obviously an error in the enactment of the commission bill into law prevents the organization of the commission before May 23, which will help embarrass the members by crowding their labors into too short period of time.

Mr. Lowell did not go to Portland to meet with the other commissioners and the other officials of the exposition board, on account of the overland train upon which he expected to go being so late arriving here he could not get through to Portland in time.

### TO INVESTIGATE ROCK CRUSHER

Baker Citizens Now in Portland on City Council Business.

Councilmen H. S. Bowen, R. D. Carter and L. Crabb, of Baker City, passed through yesterday evening on their way to Portland for the purpose of witnessing experiments with the rock crusher, which has been taken under advisement by the city council of Pendleton.

The Baker City council has been considering the purchase of a crusher and this committee was sent to personally investigate the merits of the machine and the work it is capable of doing.

While in Portland this committee will also investigate the management of the Portland sewer system with a view to improving the system at Baker during the coming summer. Baker also expects to pave or use crushed rock on all of her principal streets within the next year.

### Largest Timber Shipment.

The largest single contract for Oregon timber that has yet been recorded is that of the Oregon Short Line Railroad company with a Portland sawmill firm for 2000 cars of piling. This shipment of piling has been passing over the O. R. & N. for the last 10 months, as fast as the millers loaded it.

The piling is of Oregon fir, ranging in length from 50 to 70 feet and one length of piles is loaded on two flat cars.

This timber is being used on a piece of new track, which crosses a portion of Salt Lake, where for 22 miles the road will rest on piling. From four to 10 cars of the giant sticks pass through Pendleton each day.

### Used to Cramped Quarters.

Husband (inspecting house and lot, with a view to purchase)—The lot is absurdly small, my dear; scarcely big enough for a flower bed.

Wife (fresh from flat)—Er—couldn't we have a tiding flower bed?—Smart Set.

The county court of Linn county awarded Mrs. Harriet Riley, of Portland, the sum of \$2,000 for damages sustained in a bridge accident on a county road last summer. A span of a bridge over Owl Creek gave way precipitating a carriage in which Mrs. Riley was riding, into the mud and water, injuring her permanently.

### WARD'S MINSTRELS.

This Aggregation of Artists to Appear in This City Next Monday.

"It's the man behind the gun who does the work" is a saying that has gained circulation recently from the fact that Dewey, Schley, Sampson and all the great commanders are receiving great public praise, and the men that actually did the work are only recognized collectively. The fact remains that the sturdy sons of American fathers and mothers stood behind the smoking cannon stripped to the waist, begrimed with powder, in danger every minute of a shell or small shot tearing through their ranks, and sending them to instant deaths and still they stood loading and firing, and the favorite song of the brave men behind the gun was, "What the H— Do We Care?"

It is said that while one of these heroes lay dying on the deck while the surgeon was endeavoring by his ministrations to soothe his terrible pains, a comrade knelt by his side and asked if there was any word he desired to be sent to the loved ones at home. The soldier raised himself on his elbow with a supreme effort, and drawing a little package from his pocket handed it to his friend, and said, "Give this to my brother; it contains two tickets to Ward's minstrels, and I don't want him to miss it," and he died with a beautiful smile on his face. The date of this attraction will be Monday, February 16, at the Frazer.
