IN POLICE COURT.

Chinaman, Indian and Tramp Each Get a Fine—Whirlwind Gets Two Fines.

On the general charge of vagrancy W. D. Bridges was this morning given five days in the city jail by Judge Fitz Gerald.

Charles Whirlwind, an Indian, drunk and disorderly, was fined \$5, which he paid.

John Doe, drunk and disorderly, was fined \$10.

Mr. Whirlwind, anxious perhaps to get rid of his money, or perhaps reckoning on the chance of getting out of town before the officers had another chance at him, went on another "drunk and disorderly" which cost him another \$5.

Jack Chinaman, a Chinaman, drunk and disorderly, paid \$5 for his fun. Jack is probably not more penitent than his American and Indian rivals after liquoring up, and then raising a row, but his natural prudence and sense of economy is sufficient bar usually to his enjoying himself in that way.

SPOKE ON SOCIALISM.

Rev. Jonathan Edwards Addressed a Good Sized Audience at Courthouse Last Night.

A good sized audience was at the courthouse last night to attend the open meeting of the Socialist Club. Rev. Jonathan Edwards, pastor of the Congregational church, made a very able address on the subject of Christian Socialism, proving that the early Christians and the Master himself were socialists.

Rev. Edwards was at one time pastor of a church at Scranton, Pa., and his talk on the conditions of the poor coal miners at that place was especially interesting. In answer to a question asked by a lady in the audience, as to how socialism would benefit the coal miner, the speaker described on the one hand the wretched condition of the miners and their families, and on the other the immense fortunes of the operators.

Before leaving McMinnville she gave a recital which has been widely commented upon by the press of that part of the state and by prominent musicians, who compliment her voice, which is a pure contralto, and her piano playing, which is also said to be high class.

M. J. Logan, of Sprague, Wash., is in the city. He owns land near Combs Canyon, which he is trying to dispose of before returning to Washington. Mr. Logan owns a fine farm near Sprague, and has been greatly prospered since going to Washington. He was formerly a brakeman on the W. & C. R. with a run out of this place.

TRUSTEES OF COLLEGE.

Large Attendance at Meeting of Board—Faculty to Be Chosen.

Walla Walla, Feb. 24.—The board of trustees of Walla Walla College, at College Place, have been in session for the past four or five days discussing the interests of the college, but up to date, so far as has been given out, no important action has been taken. However, today it is expected that the board will select the faculty for the next year.

The following are in attendance from outside points: W. B. White, Helena, Mont.; F. M. Burg, Portland, Or.; S. W. Nellis, Seattle; H. W. Decker, Portland; S. A. Miller, Milton, Or. Resident members of the board are T. L. Ragsdale, C. D. Hobbs, C. P. Lewis and H. J. Breed.

RED BOY SHUTS DOWN.

Valuable Property is Idle While Extensive Improvements Are Being Made.

Bourne, Feb. 23.—The forces of 50 men at the famous Red Boy mine has been cut down to barely enough to watch the property and carry on some extensive repairs and development work now in progress.

The main shaft will be sunk 500 feet deeper which will take until April 1. In carrying on this work it is impossible to operate the hoist in bringing ore from the lower levels. A station tank will be put in at the 200-foot level, the hoist machinery will be thoroughly overhauled and two new pumps of large capacity will be installed.

Work on the extensive electric power plant at the mines will begin about June 1.

COLUMBIA MINE CAVE-IN.

Management Was Prepared and Had Removed All Its Men.

Baker City, Feb. 24.—Fred R. Mellis returned last evening from an extended visit to the Columbia mine. While there as a guest of Manager F. S. Baillie he made an inspection of the shaft which recently caved in. Mr. Mellis says that newspaper reports of the catastrophe were greatly exaggerated; that the damage can be repaired for \$3000 and that the management knew the cave-in was coming and was prepared for it, having withdrawn all men from underground before it occurred.

A STORAGE PLANT

A. D. STILLMAN WILL LET FOR \$13,000 BUILDING.

Will Begin Work on Structure Soon Nas Spring Opens—Latest Improved Methods to be Installed.

A. D. Stillman has returned from San Francisco, where he let the contract for the iron work of the Ross Cold Storage Plant to the Oakland Iron Works for \$13,000. The buildings for the plant will cost between six and eight thousand dollars, and the contract will be let very soon. The ground for the buildings will be broken immediately after the contract is let, and the building put up as fast as the material can be gotten here, so the plant will be installed and in operation by the middle of May, the time set for the first harvest of artificial ice.

The capacity of the ice-making machine will be 15 tons per day. The plant will refrigerate 25,000 cubic feet of goods, besides the ice storage rooms, which will have a capacity of 10,000 feet. The ice storage rooms will have an average temperature of 25 degrees—four degrees below freezing. There will be eight storage rooms, six of which will be kept at the freezing point, and two at 20 degrees, or 12 degrees below freezing.

The two coldest chambers will be used for the storage of fish, butter and other stuff peculiarly sensitive to odors, and which are always kept frozen solid on that account—to render them perfectly impervious to contamination. This plant will be fitted up with strictly the most up-to-date apparatus, and will differ from the largest plants in the United States only in capacity.

In the making of ice will be used the "direct expansion" system, which has been proven to be the best for the combined purposes of refrigeration and congelation. While in San Francisco Mr. Stillman visited the United States battleship New York, which carries an ice making machine with a capacity of 600 tons per day.
