HOLBROOK DITCH WILL IRRIGATE TEN THOUSAND ACRES.

Twenty-Five Miles of New Ditch Surveyed Which Will be Constructed Within Two Years—Land Buyers Now Swarming at Old Umatilla.

Sid Taylor, the Umatilla barber, is in the city today. Mr. Taylor expresses the opinion which he says all the people of Umatilla and vicinity share, that the various irrigation schemes now being put into operation around Umatilla, including the government work, and the completion of the Cello portage, will work great things for Umatilla's future.

Ten miles of this ditch will be operated the coming season, while 25 miles are laid out and will be operated within the next two or three years, probably. Water will be turned into the completed portion within a month, and there are 10,000 acres of land within its reach.

The land is all adapted to vegetables, alfalfa and fruit, and the claim is made that in a general way the season in that vicinity is from two to

CONTRACT IS MADE HELLO Central Give Me BLACK 133 Land For Sale

T. R. YERGER WILL BUILD NEW COLD STORAGE PLANT.

Building to Be Ready for Machinery by April 7—Cost to Be \$10,000—Brick May Be Purchased in Portland.

The contract for the erection of the Ross Cold Storage buildings in this place has been let to T. R. Yerger, for a round sum of \$10,000. Mr. Yerger will have charge of all the construction work from the laying of the foundation to the absolute completion of the plant, except the putting in place of the machinery contracted for from the Oakland Iron works.

The contract with the latter company includes putting the machinery in place, ready for firing up. The contract with Mr. Yeager calls for the completion of the building ready for the machinery by the 7th of April. Ground will be broken immediately upon the passing of the present snowfall. There will positively be no delay for which natural causes are not responsible, and the building will be ready for occupancy by the 7th of April, according to the terms of the contract.

The rock in the foundation will be quarried at this point. It is not yet determined where the brick of which the building will be built will come from. If the local made brick cannot be secured in time for the filling of the contract, it is probable, or at least likely, that Portland brick will be used.

Mr. Yerger was the builder of the new hotel at Hot Lake, and has the contract for putting in the new bath house at that resort. Preliminary to settling upon the plans for the new bath house, Mr. Yerger and G. W. Tape visited several of the most famous medical springs resorts in the country to get the latest designs of construction of the kind. The trip extended as far as Hot Springs, Ark.
