## PIONEER INVENTOR

W. K. ALLEN, PATENTEE  
OF FRUIT DRYER, TALKS.

Has Established 150 Evaporating Plants in Northwest—Operates Dryers in All Leading Fruit Raising Localities in Oregon, Washington and Idaho.

W. K. Allen, of Newberg, Or., who is largely interested in the Allen & Cobb fruit dryer near the O. R. & N. depot, is in Walla Walla for a few days, studying conditions and looking into the future prospects of the prune business in the valley, says the Statesman. Mr. Allen can safely lay claim to the title of being the pioneer fruit dryer in the Northwest. He is interested in 50 or more dryers in Oregon, Washington and Idaho and has, since embarking in the business, been instrumental in establishing more than 150 dryers, principally in the Willamette valley.

He is the patentee of the Allen fruit dryer, with which nearly every plant he has established, is equipped.

"My trip to Walla Walla at this time is to study conditions," Mr. Allen said to a reporter for the Statesman this morning. "Our plant here did not do as well last season as the company would have wished, principally for the reason that we could not get the green fruit. Commission men outbid us a trifle and consequently secured about all the prunes that were raised. Our plant here has a capacity of 10 cars of dried fruit, but as it was our output last season was only two cars, a condition highly unsatisfactory.

"Of course we like to see growers find a market for their green fruit, but at the same time we would like to be able to buy enough to work the plant to its fullest capacity."

Mr. Allen established two plants in the Boise valley in Idaho last year, one at Beatty and the other at Meridan. "Our Boise plants have opened up a new industry in that section," he said. "Last year was the first year we operated the plants, but we distributed \$18,000 among growers during the season. We bought 18 tons of green fruit paying \$10 a ton, the same price as we paid here in Walla Walla."

Mr. Allen says he has no trouble in finding a market for his output. Of last year's output he has only two carloads of French prunes on hand.

### Applicants for Pardon.

Salem, March 4.—Attorney McGowan was before Governor Chamberlain today in behalf of James Weaver, of Eastern Oregon, who is convicted of murder in the second degree. In the Humphreys case, under sentence for warehouse shortage, there is an extensively signed petition on file. Governor Chamberlain has received a letter from the trial judge and is awaiting one from the district attorney. All the jurors have asked the pardon. There are a dozen applications for pardon pending before Governor Chamberlain, who has yet his first pardon to grant.

Senator John P. Jones, of Nevada, about to close 30 years of service in the United States senate, is one of five members of the upper house not a native of this country.

### LADIES, TAKE NOTICE

Attention now, ladies, all happy and gay! Just see my last offer! But Two Bits to pay for a beautiful photo, full cabinet size. That would make your best fellow just open his eyes.

Just east the E. O. at Danner's old stand. You will see our exhibit—so beautiful and grand. We will there try to please you, the best we know how.

With that same pleasant smile and an artistic bow.

It will be worth your time and trouble if you visit our store FRIDAY and SATURDAY.

## "THE FAIR."

THE STORE THAT

SAVES YOU MONEY.

### ANOTHER GOLCONDA STRIKE.

Richest Vein in the History of the Sumpter Mines.

The entire upper camp was thrown into a fever of excitement by the authenticated report today of another rich strike in the Golconda mine which promises to exceed anything yet opened in that property in the way of gold bearing quartz, says the Morning Democrat of Monday. A telephone message was received from the mine early in the day by Secretary Howard. A little later a courier arrived at the secretary's office with a bag of samples of the new ore which fairly dazzled the eyes of those permitted to see them.

The strike was made on the 300-foot level and was in a shoot run into what was known as the "pure gold streak" discovered three years ago and which had never been found since. The quartz is literally filled with natural gold and will run above \$10,000 to the ton. If the streak continues for any distance there is no telling the amount of wealth that will be taken out.

As soon as the strike was discovered the men working in that shoot were transferred to another part of the mine and old and tried employees put in their places.

### LOCATING WATER RIGHTS.

John Day Streams Are Much Sought These Days.

John Day's numerous branches seem to be assured several water power plants for generating electricity, says the Sumpter American. President Costello, of the Advance, says it is the purpose of the management to acquire all possible rights on the stream flowing by the Storm King, which will be for use by the property, and also if there appears to be a market in Sumpter, to generate electrical energy for the public.

The John Day, rising on the divide immediately opposite the drainage system flowing by Sumpter, is the nearest source of electrical energy generated by water power to be had beyond the Powder basin. Several locations have been made on the headwaters of the John Day already, and several more are assured this spring. Water power is coveted by the man who peers intently into the future, for the time is assured when fuel will be costly and mining on many of the low grade propositions will be prohibitive unless a cheap energy is available.

### HORTICULTURAL REPORT.

Seventh Biennial Report of the State Board of Horticulture issued.

The seventh biennial report of the state board of horticulture is now being distributed.

The report is a neatly printed and well illustrated book of 270 pages, and contains all the data concerning this great industry of Oregon, that it is possible to gather in that space.

The illustrations in the volume are superb, the scientific and historical data arranged in a convenient form, and from both the mechanical and literary standpoint it is one of the most interesting reports issued from the state printing office.

Copies can be had by addressing George H. Lamberson, secretary board of horticulture, Portland, Or.

## Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb.

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

## WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

**The Best  
IS ALWAYS  
THE CHEAPEST**

D. M. Ferry's Garden Seeds are unquestionably the best. They are fresh and sure to grow. They are they most select varieties and adapted to this soil and climate.
