A Good Tooth Brush

Something everybody should have. A tooth brush that is made of poor bristles is but little better than none at all.

KOEPPEN'S PENETRATIVE BRUSH
is made to our order in France. It is a four-row bleached bristle, put together in a workmanlike manner, guaranteed to scrub your teeth 271 times without losing a bristle. In other words, it is guaranteed three months, which allows you to use it three times a day—use it after each meal, no matter how late you eat.

Twenty-five Cents
The best brush we ever saw for that price. It's a 35 cent brush, but buying in large lots and direct allows us to sell it at 25c. Look at it even if you don't want to buy now.

SAW THEM TURN OVER.

F. M. Oliver Observes Some Strange Things Through His Field Glass.
Sunday last F. M. Oliver, for a passing amusement, picked up a field glass and stepped to the door of his residence, which is on the north side of the river. Without the slightest idea that he might see anything unusual, he leveled the glass upon the hills south of town, just in time to see a curious accident. A carriage in which was a gentleman and lady was coming down the hill in the southern edge of town, the carriage drawn by one horse. The rig had scarcely attracted his attention when the buggy struck a sliding place and turned over, dragging the horse over with it. The lady, at the first turn the buggy made, was thrown completely free of the vehicle and instantly regained her feet. The man held to the reins and turned over with the buggy and horse. Both the vehicle and the animal turned together completely over, and then righted themselves, the horse regaining his feet with scarcely an effort. The driver was on his feet as quickly as the horse, which was perfectly quiet and docile. The man and lady examined the horse, harness and buggy, all of which were apparently entirely unharmed, as they in a few moments climbed into the buggy and resumed their journey. Mr. Oliver states that when the buggy and horse went over the bank both rolled completely over, the horse lying for an instant on his back with his feet in the air. Mr. Oliver has not the slightest idea who the parties were.

BACK FROM FRANKLIN.

J. D. Lamb Says Land Is Soaring But Little Work is Being Done—Ground Frozen.
John D. Lamb, of the real estate firm of Worth & Lamb, returned yesterday from a four days' drive through Franklin county and reports times in the new county fairly on the boom, says the Walla Walla Statesman.
"Farmers are doing little work in the way of putting in crops," he said. "The ground is still frozen, which is putting back seeding considerably. A general thaw is expected soon, however, and then the delayed work will be commenced and rushed through as fast as possible."
"The way land is being held beats anything I ever saw for a new and untried country. Land that has not yet produced a crop is held in some localities as high as \$25 an acre and \$15 to \$20 an acre land is common. Values are inflated way beyond reason in anticipation of a heavy immigration this spring. To make things boom and look like a bonafide increase, several real estate agents are around among the farmers contracting for this season's crop at 60 cents a bushel. There are not many contracts being made on this basis, however, as in many instances strings are attached to the contract that cause farmers to hesitate about tying themselves up."
"The country seems all right and from present appearances the entire county should harvest a big crop of wheat this season. But values are too high, considering that the land is untried."
