CLUB NOTES.
Parliamentary Club to Select Delegates at State Meeting.
Local club notes this week consist largely of special votes of thanks to the citizens of Pendleton generally, and the press in particular for the most generous support they have given the club women and the public school during the art exhibit.
The Thursday Afternoon Club will hold its regular meeting Thursday of next week at the home of Mrs. F. G. Halley.
The Parliamentary Club will meet at the Commercial Association parlors Tuesday, the 10th at 2:30. Notice has been received from the secretary of the State Federation of the annual meeting of the federation at Astoria in June, and asking that delegates be elected and the names sent to her not later than the last week in March.
Pendleton clubs are entitled to seven delegates. There are also in Pendleton two chairmen of state committees and the state president, so the "hub of Eastern Oregon" should have a strong delegation at the state convention.

ORDER OF EAGLES.

conduct the meeting. It is possible that Del Cary Smith, of Spokane, who is at the head of the order in the United States, will be present. When in town several weeks ago he expressed the intention of being present when the order was organized here if he could possibly get here. After the organization ceremonies and initiation, a banquet will be served. A visiting team of 16 members will attend from Astoria.

NEW SCHOOL BUILDING.
Citizens Will Vote March 26 Upon Proposition for Another One.
March 26 the citizens of Pendleton will vote upon a proposition to bond the district for the erection of a two-story, eight-room school building to be erected on the present site of the old academy building. It is claimed that the present facilities for the city schools are inadequate as regards room. The present bonded indebtedness of the district is \$13,000, and it is claimed that \$25,000 more can be added without the burden being too irksome, and that it should be added under the circumstances. At any rate that the indebtedness necessarily incurred for the new building will not in fact be proportioned to the great inconvenience now experienced by the lack of room. At the same time not all the business men are a unit in the support of the bond proposition.

MAPS OF OLD DITCH COMPANY.
Judge Hartman Has Secured Documents Which May Assist Government Engineers.
The executive committee of the Columbia Valley Irrigation Association met yesterday afternoon. Judge G. A. Hartman stated to the committee that he has secured the maps and charts of the old Umatilla Valley Irrigation surveys, which will be at once turned over to the government officials having the government surveys in charge in the Butter Creek country. The officials will make such use of them as they may see fit to assist them in the surveys they are now making, which it must be understood are experimental or in the nature of examination merely.

INDIANS HELD FOR TRIAL.
Towish and Kaslarkin Must Answer Charge of Horse Stealing.
As a result of the preliminary examination held yesterday Commissioner Halley held Towish and Kaslarkin for trial in the United States court on the charge of horse stealing. Immotanic was discharged, as a quite sufficient alibi was proven for him. The day the horse was stolen Immotanic was released from the Athena city jail, where he had been serving a sentence for a misdemeanor, and it was clearly proven that he could not have had a hand in the theft, even if by any chance he had had an inkling that it was planned.

The Buyers' View.
F. E. Judd, manager for the scouring mills and Edward J. Burke, who represents H. C. Judd & Root, of Hartford, Connecticut, take a very moderate view of the wool market, so far as prospects for the coming clip are concerned. In substance their opinion is as follows: "If the prospects of a month ago had continued unimpaired the coming clip might have brought an advance of a cent over last year's prices. Present indications, based upon the extreme Eastern market, which is persistently weak, do not seem to justify an expectation of more than one-fourth to one-half of a cent advance. It is possible, further, that if the present conditions are too long drawn out, that there may be no advance at all over last year's prices."

Mutton for San Francisco.
There are being loaded at this point today 2,100 mutton sheep purchased for William Taffe & Co., of San Francisco by E. Harrington, who last week shipped 2,600 head to the same firm from here. He has other deals on foot, which will conclude in other purchases and shipments. The loading today is being done by Frank McGriff and Richard Abell. One thousand of these animals are yearling wethers bought of Ruge Bros., 500 are lambs bought of A. Perrard of Pilot Rock, and 600 are ewes bought of the J. E. Smith Livestock Company. Mr. Harrington states that they are as fine a lot of mutton animals as were ever seen anywhere.

Notice to Taxpayers.
Notice is hereby given that all taxes for the year 1902 are now due and payable at the sheriff's office. Taxes unpaid become delinquent on April 1. No rebate after March 15. By order of county court.
T. D. TAYLOR, Sheriff.

W. W. Wolfe went to Echo this morning. Mr. Wolfe owns considerable land in that neighborhood and is undecided whether to dispose of it for present offerings or hold it in hopes of further advances. Mr. Wolfe will go to Seattle in a few days.

Wool Contracted.
The scouring mill has contracted for 450,000 pounds of wool now on the backs of sheep. This wool will be furnished by seven sheepmen who regularly sell a certain proportion of their clip in advance to this mill. The contracts were made about February 1. The wool to bring from 9 1/4 to 9 1/2 cents on delivery. The scouring mill will open this year between the first and tenth of May. Its average yearly consumption is between 3,500,000 and 4,000,000 pounds.

Preaching from the House Tops
On the merits of our fine laundry work wouldn't have half the effect that one of our exquisitely laundered shirt fronts, collars or cuffs on the wearer has upon his friends. We make more customers from our fine specimens of finish, color and artistic laundry work on the wearer than a lecture on the subject would give us. "Seeing is believing" and our card is on all the fastidious dressers in Pendleton.

THE BEST MANUFACTURING COMPANY
STEAM AND HORSE POWER
COMBINED HARVESTERS
As McCormick was the original inventor of the reaper and header, so was "Best" the original inventor of the first successful Combined Harvester.
We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.
THE MACHINE is the strongest and most durable made.
IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire
RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.
HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.
THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with its speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.
AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.
We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.
