The Latest Scientific Discovery

HERPICIDE

is based on the principle, "Destroy the cause, you remove the effect."

Herpicide kills the germs that cause dandruff by digging up the scalp as they burrow their pestiferous way to the hair root, where they finally destroy the hair. Without dandruff your hair will grow luxuriantly.

#### Newbro's Herpicide

stops dandruff and falling hair, and starts hair growing within 10 days, One bottle will convince you of this.

Doan's Kidney Pills do one thing

They're for sick kidneys. They cure backache, every kidney

Here is undeniable evidence to prove it: Mrs. A. M. Weaver, of 115 N. A street, Gripple Creek, Colo., whose husband is superintendent of the U. F. R. F. quarries, says: "Doan's Kid-P. R. F. quarries, says: "Doan's Kidney Pills are a remedy in which I have great confidence and I heartily re-endorse what I have before stated about them in our Cripple Creek papers. Some three years ago I gave them to our little girl, who was troubled with a weakness of the kidneys. A few doses checked the annoyance and in a short time after a continuation of the treatment cured her. She has had very little trouble since, with the exception of when she caught a severe cold; then there were symptoms of a recurrence, but a few doses of the pills never fail to ward off an attack. I recommended them to a lady friend of mine some time ago, who used them and was greatly benefited. I keep them constantly in the house so as to have them on hand in case of recurrences. I do not hestiate to advise any mother to use in case of recurrences. I do not hes-state to advise any mother to use them in her family where necessity demands."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, M. Y., sole agents for the United

States.

Remember the name—DOAN'S-and take no substitute.

In all patents for lands hereafter taken up under any of the land laws of the United States, or on entries or claims validated by this act west of the 100th meridian, it shall be expressed that there is reserved from the lands in said patent, described, a right of way thereon for ditches and canals constructed by authority of the United States.'

Additional Legislation.

"On June 17, 1902, the following provisions were added: 'That all moneys received from the sale and disposal of public lands in Arizona. California, Colorado ,Idaho, Kansas, Montana, Nebraska, Nevada, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming, beginning with the fiscal year ending June 30, 1901, including the surplus of fees and commissions in excess of allowances to registers and receivers, and excepting the five per centum of the proceeds of the sales of public lands in the other states set aside by law for educational purposes, shall be and the same are hereby reserved, set aside and appropriated as a special fund in the treasury to be known as the "Reclamation fund," to be used in the examination and survey for the construction and maintenance of irrigation works for the storage, diversion and development of water for the reclamation of arid and semi-arid land in the said states and territories, and for the payment of all other ex penditures provided for in this act.' We surveyed during the forenoon

over a rolling country. "Here is where one must use head work," said Mr. Camp. "Cuts and fills are expensive work. We try to avoid them as much as possible. In places we will be compelled to use flumes. We will use steel in this construction. As the ditch is to be 10 feet deep, 40 feet wide at the bottom and 70 feet wide at the top, the flume will cost from \$20 to \$25 per running foot, hence you can see the necessity for avoiding the use of any more flumes than absolutely neces sary. By putting in a tunnel through that ridge, I can save four miles of ditch. The tunnel will be about 3000 feet long and will come out at the head of Alkali Flat.

"Tunneling such as we will do here, will cost about \$50 per running foot. I think we will strike basalt and it will not require brick work, but merely smoothing up with ce-

ment. "The ditch will have a fall of 10 to 12 inches to the mile and will be

from 25 to 40 miles long. "It is impossible to work here by trying to depend to a needle course. The local attraction is so great as to make the needle too variable. One has to run the course by a solar com pass. I believe," said Mr. Camp, as he pointed to the miles of rabbit brush and sage brush, toward and beyond Little Emigrant Butte, "that in five or 10 years we will see a farm

house on every 80 acres of that land. "This is a splendid climate with an early spring and a late fall. The soil is rich, and with water, you will see what has been called the Great American Desert, become the Great

American Garden Spot."

J. G. Camp is not a visionary nor a mere theorist. Before he became a government engineer he was a practical agriculturist. He has a splendid farm in the Boise country, which was once valueless sage brush land For 20 years he has been in close contact with nature and has absorbed something of the good, wholesome tang of the primal clay. He knows nature and loves the smell of the

smoke from the camp fire. When he had returned from 18 months' campaigning with the Idaho troops in the Philippines, he served

his county in the Idaho legislature. For 10 years Mr. Camp has had charge of construction and irrigation works. Some years ago a tract of 10,000 acres of arid land, 10 miles from Boise was taken up by home-steaders, with a view of irrigation. The capitalists wanted a rate so exhorbitant that the irigation scheme fell through. Finally the farmers decided to go ahead and put in the

canal themselves. Mr. Camp was in charge. It cost \$75,000 and took five years to com-plete. The \$2 or \$3 land increased in value to \$150 to \$200 per acre. The shares which cost \$50 per share are now worth \$225 per share. Mr. Camp's farm last year netted him above all'expenses, \$12.60 per acre. This land can do as well or better. It is easily broken up and will be very fertile.

FRED LOCKLEY, JR.(

## Monroe as a Wrestler,

New York, March 13 .- Jack Munroe, the former miner of Butte, Mont., who beat Jeffries in a four-round bout is to meet Tom Jenkins, the great catch-as-catch-can wrestler, in a wrestling contest tonight in Madison Square Garden. It is a handicap match, the conditions requiring Jenkins to throw Munroe four times in an hour in order to win the decision. Munroe is now training for his coming fight with Sharkey and it is ex-pected a big crowd of fight followers will be on hand at the Garden tonight in order to get a line on the minerpugilist's condition.

Another Cyclist Going Abroad. New York, March i3.—Cyclist George H. Collett, of New Haven, the third rider in the championship table of last season, is the latest American cyclist to be tempted by offers to ride abroad. Collett has signed a contract for five races in Europe and will sall for the other side in a few days. He will ride at the Buffalo track, near Paris, and at Berlin. Copenhagen and Paris, and at Berlin, Copenhagen and Rome, finishing his tour about May

The Canadian Pacific has been try-ing to contract for laborers in Port-land.
