OFFICE ABOLISHED

O. R. & N. BRIDGE AND BUILDING DEPARTMENT CHANGED.

C. A. Cameron, for Nine Years Superintendent of This Department, is Affected by the New Rules—W. A. Storie Will Have Charge of the Work Hereafter.

The office of superintendent of bridges and building on the O. R. & N. has been abolished and C. A. Cameron, of this city, who has held this position for the past nine years is at present without an office.

The headquarters of this important department are located in this city and under the rules of the Harriman lines, which abolishes the office of superintendent, the offices and headquarters will remain here in charge of W. A. Storie, who has been connected with the O. R. & N. in this department since the road was completed into Eastern Oregon.

Mr. Cameron's many friends in this city and on the entire system will regret to learn of the change which effects him. Being an old and active employe of the company, Mr. Cameron will probably be assigned to another position of trust in the near future.

Mr. Storie, who assumed charge of the department of bridge and building began work in the department as a bridge carpenter, was afterward foreman of a bridge gang for several years, and later took the position of general foreman in Mr. Cameron's office, which position he occupied at the time of the change. Robert Fletcher retains his position in the office.

The object of the rule which abolishes the office is to economize in expenses by the removal of heads of different departments and the concentration of the business in the general offices.

PRIVATE LIGHT PLANTS.

Several Stockmen in Umatilla County to Utilize Water Power For Lighting Their Homes.

Eugene Hascall, who lives eight miles south of Pilot Rock, is putting in a private electric light plant. With it he will light his residence and barns. Mr. Hascall regards the enterprise as somewhat in the nature of an experiment, but appreciates the full value of electricity as an illuminant, and has figured the cost to a nicety. There is little likelihood of the experiment being a failure, as the motive power is Blue creek through the medium of an inexpensive water motor of only one horse power.

If Mr. Hascall demonstrates the entire practicability of private electric lighting from isolated plants it is the intention of nearly all the stockmen of the southern part of the county to follow suit. Sam Warner and others will install plants of their own immediately upon the demonstration of the success of Mr. Hascall's plant.

WILL BUILD ADDITION.

Jacob Betz to Put Up a Second Story to His Business Block Here.

Jacob Betz, the millionaire brewer of Walla Walla, was in the city yesterday. Mr. Betz is building extensively in Walla Walla this year, and will follow it up by putting a second story onto his business houses in this place, or at least a portion of them. Mr. Betz owns the 125 feet first north of the Odd Fellow hall, occupied by The Office, the Demott Grocery Co., The Louvre, Badley & Zahner, Privett and Swearingen Bros. It is as solid and substantial a brick row as there is in the city. The second story which Mr. Betz proposes to build upon this row next year will cost not less than \$7500, and there is not in the city a more choice location.

Was Sold by C. B. Wade.

Oddfellow, 116,709, the Hereford bull sold to a Hawaiian stockman last spring, was bred by Thomas Clark, of Beecher, Ill., and was sold by C. B. Wade, of this city, instead of W. T. Rigby as stated in Tuesday's East Oregonian. A letter from the purchaser says the animal is now the finest on the island. When shipped, a year ago, he weighed 1,800 pounds and sold for \$500. His dam was Clover Clark, 70750, and his sire Premier, 71781.

Oratorical Contest.

The general public is invited to turn out en masse to the oratorical contest at the high school assembly hall tonight. The affairs, will probably be one of the most entertaining of its class that ever took place in Pendleton. A large attendance will be a great encouragement not merely to the participants, but to all the students, being accepted as evidence that the people are interested in them.

Hay is Scarce.

Sam Warner, who lives nine miles south of Pilot Rock, reports that sheep are looking finely and cattle also in spite of the uncommon long season of forage to which they have been subjected. Hay is beginning to be very scarce though, only a few stockmen having enough left to carry their stock through another snow and cold spell.

Where Are the Fiddlers?

The contemplated concert and "old fiddlers" contest to be held under the auspices of the Walla Walla Poultry Association is still an uncertainty, there being only two entries so far from old-time fiddlers, though several others are expected shortly. —Walla Walla Statesman.

Declamatory Contests.

Two declamatory contests between members of the high school are planned to take place during the next few weeks. The first, on or about the 27th of the present month. One will be between girls, the other between boys.

Saw Mill Started.

Ed Warner has started his saw mill and planer 12 miles south of Pilot Rock. The season has been so favorable for logging that work begins much earlier than usual in the most of the mills.

ARRIVED AT MANILA.

Colonel William Parsons, Wife and Daughter Now in the Orient.

Letters received by Mrs. House,

convey the news that her parents, Colonel and Mrs. William Parsons, and her sister, Miss Ethel, who left Pendleton in December for the Orient have safely arrived at Manila.

The son, W. O. Parsons, who is in the government service as inspector of constabulary in the Philippines, was not married as was reported, when they reached the islands.

On the way they stopped at Shanghai, China, where they met Mrs. Lillian P. Fredericks, daughter of Mr. and Mrs. G. W. Proebstel, of Weston. Mrs. Fredericks is a missionary at Shanghai under the work of the Protestant Episcopal church.

At Manila they met William Crozier, formerly of this city.

Mrs. House is the only remaining member of the family in the United States. Cards mailed at Hong Kong, have been received from the party by a number of friends in this city.

BUYS STEAM ROLLER.

Dalles City Council Will Experiment in Street Making.

The new steam roller arrived last night and is now side-tracked at the foot of Laughlin street awaiting the arrival of the expert who is to unload it and set it at work on our streets, says the Dalles Chronicle. This morning Mayor Gunning received a letter from the Buffalo Pitts company saying the ground in Portland was covered with snow and as they suppose like inclement weather prevailed here, which would prevent its being used at present, they would wait until word was received from him before sending their man up. Mr. Gunning telephoned and assured them we are enjoying delightful weather and to send their man along.

Class in Physical Culture.

Professor Lucien M. Christol is in the city with the intention of organizing classes in boxing, wrestling, fencing, club swinging and dumb bells. At some date and place to be announced, Mr. Christol will give a public and free exhibition of his skill in all these departments of physical culture. He bears recommendations as to skill and character from directors of gymnasiums and from newspaper men all over the country.

GIVE HIM AIR.

Irishman Tells of Railroad Accident in His Own Words.

Thomas Barry, a Boston lawyer, was recently examining an Irish witness in a suit growing out of a street railroad accident. Here is the result of Lawyer Barry's suggestion that the witness should tell the story in his own words:

"Well, the man fell in th' street as the car passed; thin th' car stopped, an' we all run out. The crowd gathered a-round th' man and shouted: 'He's kilt! He's kilt!' Then Oi jumped in, pulled a dozen of the spalpeens out uv th' way, and yells at 'em: 'Yes thick heads, yez! If th' man's kilt, why in hivin's name don't yez stand to wan side an' let him have a breath of air?'" —Brooklyn Eagle.

THE BEST MANUFACTURING COMPANY

STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and so was "Best" the original inventor of the first successful combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season we are still in the lead in the way of improvements, in our machinery, and which our farmer friends have rightfully named "KING OF THE FIELD." After watching its work in the past sixteen years, and for the season of 1903 it will be still as we have made a number of valuable improvements.

THE MACHINE is the strongest and most durable made. **IMPROVED DRIVE WHEELS**—5 feet 4 inches high, 22 inch main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain and arator, and is arranged with a clutch for throwing in and out when turning corners.

THE SEPARATOR—We wish to call your attention to the separating qualities of our machine. We claim that a combined harvester on the market can in any way compare for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and closing the shoe and carrying the grain over in its straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every one of our machines before placing your orders. Every machine is guaranteed to do all we claim for it and to be first-class in every respect.
