SOCIAL EVENTS OF THE WEEK

Concerning the People of Pendleton and Vicinity • Notes Personal and Otherwise • By Our Regular Correspondent

Club Notes.

Letters from Astoria say that preparations for the annual meeting of the state federation at that place in June are being made by the club and the business men. Only three years have passed since Pendleton clubs entertained the federation convention and all visiting club women, and the ways and means committee had money left over. It tells something of the growth of the state work when it takes a combination of one of the largest clubs in the state and the business men of the city to take care of the convention now. There is also a suggestion that Pendleton is not the only town in Oregon where the clubs are backed by the public sentiment.

A Boston paper copies this sentiment and credits it to the Oregon Daily Journal:

"The women's club movement has advanced the average member to a position ahead of the average business man in mental culture. It is rapidly making the American woman the equal of the American man in practical affairs."

It is a pleasure to notice this clipping because it shows that Oregon is getting on in the world a little. Not so long ago the state was almost unknown as far East as Boston, and in '94 one of our club women visiting in the Middle West, was asked if Oregon clubs had many Indian members, and was also asked to "tell the story of the club of Indian women." This club of Indian women, by the way, is a New England club, and does not, as was supposed, hail from the wild West.

The Oregon Chautauqua Association was so much pleased with the work done by the club women last year at Gladstone Park, that they have offered them all the time they will use on this year's program, and their choice of a place on the grounds to hold "symposiums." The assembly comes very soon after the federation convention, and if the club women can plan to take in the Chautauqua season they will be amply repaid. The programs are excellent; it is an ideal summer outing place; accommodations for camping can be procured at reasonable rates, and it is likely that the restaurant will be in charge of the Domestic Science School of Portland. There will be club headquarters again this year, and it is a good opportunity for promoting club interests.

The state federation will be invited this year, to co-operate with the state board of education in its work.

The Thursday Afternoon Club had an especially good "Book Program" at the home of Mrs. T. G. Halley this week. Roll call quotations were from recent books. A good review of "The

Woolgrowers Meet.

Douglas Belts Makes His Annual Address—Executive Committee Considers Many Important Questions.

The Umatilla County Woolgrowers' Association was called to order at 2 o'clock this afternoon by Douglas Belts, the president, who is making his annual address.

In part, the address is a resume of the work and efforts of the National Livestock Association and of its annual convention in Kansas City, which Mr. Belts attended. In Mr. Belts' address he referred to the great benefit the National Association has been to stockgrowers all over the United States, mentioning particularly the act of congress, secured through its efforts, making one inspection of livestock—at the point of shipment—sufficient for the entire transit. He also referred to the great fight the national association is making on the merger of the packing houses. While at the national convention he personally guaranteed a subscription by the Oregon State Association of \$150 to carry on the work of the national association.

Those Attending.

There are attending the session today the following: J. H. Garrison, Pendleton; J. L. Waldron, Vinson; A. A. Cole, Vinson; Douglas Belts, Pilot Rock; Sam Warner, Pilot Rock; J. T. Gwynn, Pendleton; H. S. Scates, Pendleton; A. B. Chapman, Pendleton; P. C. Sperry, Pendleton; M. McCracken, Combs Canyon; W. J. Fahrenwald, Ridge; G. W. A. W. and E. A. Rugg, Pendleton; H. Boylen, Birch Creek; Lon Knotts, Birch Creek; Charles Johnson, Pilot Rock; M. M. Hoffman, Pilot Rock; D. L. Johnson, Juniper.

Executive Committee.

The members of the state executive committee present are George Young, of Antelope; Douglas Belts, of Pilot Rock, and J. H. Gwynn, of Pendleton. All hold proxies and the entire state committee is represented. The special work of the committee, which will be done in executive session after the adjournment of the county convention, will be the consideration of the question of prices and transportation for the trailloads of salt which will be brought into the sheep country this spring. Also the question of where it will be purchased. The executive committee will also set the dates for the sales days for wool this year.

Notice of Mass Meeting.

Notice is hereby given that a public meeting of voters, taxpayers and citizens of Pendleton school district No. 16, will be held at the court-house on Saturday evening, March 14, 1903, at 8 p. m., at which the \$25,000 bond issue will be discussed.

A Suitable Match.

A pseudo big chief of the Sioux sued hard for the hand of sweet Sue; He carried the day, And the marriage, they say, Of Sue and the Sioux will ensue.

—Smart Set.

"Pit" was given, and several selections from "Mrs. Wiggs." A number of guests were present.

The Current Literature Club met at the home of Mrs. Bryson. The year's study is Oregon history, and the members find it vastly interesting. Yesterday's program was one of the best, and among other good things was "The Battle of the Cascades," "Sheridan's Ride," and over the coffee each member gave a quotation from some Oregon writer, and one of the members remarked that "Oregon writers have said some wonderfully good things." Nearly every member was present at the meeting and several guests enjoyed the hospitality of the club.

The meeting of the club at the Commercial Club parlors has already been reported. The ladies were much interested in the talks given by Mr. Pierce and Dr. Smith, of the school board. By vote of the club, its name has been shortened by omitting the word "parliamentary," so that the name now stands "The Woman's Club." Eight new members were elected.

The clubs will elect delegates to the Astoria convention at their next meetings.

Birthday Party.

Mrs. C. E. Roosevelt last Monday night entertained a party of 30 friends at the Hotel Pendleton in honor of her husband's birthday. The guests present were C. S. Jackson and wife, Frank Frazier and wife, Mr. and Mrs. Fred Judd, Mr. and Mrs. Leon Cohen, Mr. and Mrs. H. C. Guernsey, Mr. and Mrs. R. Alexander, Mr. and Mrs. Frank Clopton, Dr. and Mrs. Vincent, Dr. and Mrs. House, of Weston, Mr. and Mrs. E. P. Marshall, Mrs. M. J. Lane and daughter, Miss Neva Lane, Miss Mary Roberts, E. H. Clarke, Mrs. A. J. Borie, Mr. and Mrs. F. F. Wamsley, Mr. and Mrs. T. C. Taylor. The dining room and parlors were nicely decorated. The evening closed with dancing.

To Hold Family Reunion.

Tomorrow, at the home of A. P. Newquist, nine miles from the city, on Birch Creek, will be held a family reunion, the occasion being Mr. Newquist's 59th birthday. In one sense, the reunion will also be a housewarming to celebrate the completion and occupancy of Mr. Newquist's large new residence, which will afford an abundance of room and to spare for the festivities, which the 20 or more people will engage in. The number mentioned includes the invited guests of the family. The Misses Ethel and Hulda Newquist and their brother, O. F. Newquist, will attend from town.

THE BEST MANUFACTURING COMPANY

STEAM AND HORSE POWER COMBINED HARVESTER

As McCormick was the original inventor of the reaper and harvester, so was "Best" the original inventor of the first successful combined harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season we are still in the lead in the way of improvements, in harvester machinery, and which our farmer friends have rightfully named "KING OF THE FIELD." After watching its work in the field for the past sixteen years, and for the season of 1903 it will be still as we have made a number of valuable improvements.

THE MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch RUNAWAYS—are a rare thing with us. There is a main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel, and is arranged with a clutch for throwing in and out when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that a combined harvester on the market can in any way compare for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every one of our machines before placing your orders. Every machine sold to do all we claim for it and to be first-class in every respect.
