TO BENEFIT OREGON

FUNDS FOR ECHO WILL BE FORTHCOMING.

Of the Ten Millions in Irrigation Fund for the West, Three Millions Are Available for Immediate Use.

Washington, March 16.—The announcement today that Secretary Hitchcock has decided to begin the construction of national irrigation works in Wyoming, Montana, Nevada, Arizona and Colorado does not prejudice the project which is to be carried out on Butter creek, Oregon.

The five projects referred to are those that have been under investigation by the geological survey anywhere from three to 12 years, and are the ones on which the most detailed examinations have been made.

But in no case have the examinations been completed nor are plans ready for advertisement. Today's announcement means that the department will immediately turn its attention toward acquiring full title to the reservoir sites and rights of way of canals by purchase or condemnation, wherever private ownership conflicts with the proposed work, and if in any instance the title cannot be obtained the project will be abandoned. The geological survey, as a result of former study of these several localities, now has rough plans for reservoirs and canals, and final plans will be hastened and contracts let.

As heretofore stated, the geological survey has two experts now making surveys and examinations on Butter creek, and a third will soon join them. These examinations will be final, and when their report is made and a project roughly outlined, provided no unforeseen obstacles arise to show the project impracticable, this work will be added to the approved list and steps taken looking to construction.

Hydrographer Newell roughly estimates that it will cost \$7,000,000 to construct the five projects designated by the secretary, while the reclamation fund at this time aggregates about \$10,000,000, thus leaving \$3,000,000 available for other projects that may be approved later. Furthermore, the fund is constantly growing so there will be no lack of funds with which to commence work on Butter creek, when the plans are finally formulated.

Part of the funds to be used in other states are those derived from sales of Oregon lands, but a major portion of the Oregon fund for the past 2 1/2 years remains to its credit, and is more than enough to build the favored irrigation system in that state.

The report of the Oregon irrigation committee recently forwarded to the secretary of agriculture finally found its way to Mr. Newell, and has by him been referred to the field officers in Oregon. He was somewhat surprised that the committee made no recommendation, and has therefore asked the field officers to examine all the projects named, as they can conveniently reach them.

The field force will be augmented by new men from time to time, and examinations and surveys will be continued throughout the summer, although the first work will be the completion of investigations on Butter creek.

OREGON PRISON MATRON.

Many are Seeking and None May be Called.

Mrs. Jessie L. Walker, Mrs. James Matthews, Mrs. Alvina Northcutt, Mrs. S. S. Knighton, Mrs. J. N. Fitch, Mrs. Brown and Mrs. Mary V. Charlton are applicants for the position of matron at the state prison, created by the last legislature. The salary provided is also quite an attraction, to say nothing of the honor of holding the office. There may be none of them appointed, and the matter may be left to the superintendent. In many state prisons the warden's wife acts in this capacity. There is no suitable quarters at the Oregon prison for a matron.—Salem Journal.

ILLINOIS LAUNDRYMEN.

Open Their Annual Convention at Rock Island—The Present Officers.

Rock Island, Ill., March 16.—The Laundrymen's Association of Illinois opened its annual convention today in this city. More than 50 proprietors of laundries throughout the state are in attendance. The opening session was devoted to routine business, including the appointment of necessary committees and the report of the president. This evening the convention will begin the discussion of various matters affecting the interests of the laundrymen and these discussions will be continued through tomorrow, the session concluding with the annual election of officers. The present officers of the organization are: H. B. Leaman, Canton, president; F. G. McClelland, Macomb, first vice-president; W. H. White, Joliet, second vice-president; W. E. Fitch, La Salle, secretary and treasurer.

BIG AUTO SHOW.

Boston Exhibition Attracts Many New and Late Machines.

Boston, Mass., March 16.—Though not so large in the number of exhibits as the New York and Chicago exhibitions held recently, the Boston automobile show in Symphony hall this week is none the less interesting to lovers of the motor vehicle and those engaged in its manufacture. The exhibition has attracted entries from all the leading manufacturers in the country and the latest models displayed are the latest models. Some of these were completed too late for exhibition at the New York and Chicago shows and are now displayed to the public for the first time. One of these is a big gasoline touring car and another is the first electric tonneau to be shown in this country, the latter resembling in a general way the great machines of France and Germany.

READ ALL OF THIS.

You Never Know the Moment When This Information May Prove of Infinite Value.

It is worth considerable to any reader to know the value of and use of a medicine, for if there is no occasion to employ it in the meantime, frail humanity is subject to many influences and unforeseen contingencies that the wisest are totally unable to gauge the future. Know, then, that Doan's Ointment will cure any case of Hemorrhoids, commonly known as piles, or any disease of the cuticle or skin, generally termed eczema. One application convinces—continuation cures. Read the proof:

T. H. Thomas, attorney, of 500 East Bennett avenue, Cripple Creek, says: "I just as emphatically endorse Doan's Ointment today as I did in the month of June, 1899. At that time I went to the drug store for a box which I used for itching hemorrhoids. A few applications gave wonderful relief, and a short continuation of the treatment cured me. There have been symptoms of a recurrence since, but a few applications of the remedy never fails to bring positive relief. My opinion of Doan's Ointment, then expressed, is the same today as it was when it was first brought to my notice." For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—DOAN'S—and take no substitute.
