DEATH IN TYPHOON

ADDITIONAL NEWS OF DISASTER IN SOUTH SEAS.

Island of Hao, Morakau and Hiquera Virtually Washed Away—600 Islanders Perished.

San Francisco, Cal., March 18.—The steam Mariposa which arrived from Australia lately brought additional news of the typhoon and tidal wave at Pearl Island group in the middle of January. The French government investigated the disaster and found that about 600 islanders perished during the storm. The property loss is half a million dollars.

After the wind had subsided and the waters receded hundreds of drowned natives were found tied to trees about the places. Hiquera, one of the islands visited by the deluge, was best able to understand its force, as its highest place is but 12 feet above the ocean. The residents flocked to the heights and sought safety by binding themselves to rocks and trees. There they remained for three or four days, during which the storm swept over the dreadful scene.

The islands of Hao, Morakau and Hiquera are virtually washed away, as they are present a little above the sea level and are destitute of vegetation. On them a man cannot subsist, as the soil has vanished. The coconut trees are dried up and dead.

On the awful night of January 15, during the darkness and driving down-pour of rain, parents tied their little children to their backs and sought safety. Over their heads rolled a mighty wave, and when the surges retreated the infants and half grown boys and girls succumbed. A father or mother would vainly endeavor to retain the corpses of the dead, but usually at length had to abandon them.

Messrs. Chefield and Allen, elders of the Mormon church, and Mr. and Mrs. Gilbert, of the Latter Day Saints' mission, passed a terrible night in the trees and narrowly escaped death. Out on the surface of the deep the

OVER-DRAWING THE ACCOUNT

Every hour in the day you are using up nerve force, body tissue, blood cells, energy—everything that means health. Always taking away, always borrowing—do you ever pay it back? The thin body and pale blood say no; the reserve force is about gone. There is a general weakness and the body is run down. You have over-drawn your account; you must make up the deficiency, but how?

Scott's Emulsion makes it up with interest. It will clear you of the debt you owe health and give you a working surplus of solid flesh, good blood and healthy tissues.

In Scott's Emulsion the necessary element of fat is plentifully supplied in the most palatable and easily digested form. It enters the system quickly and without effort. There's no tax on the digestive organs—no strain on any part of the body.

sharks were seen to devour many bodies while in the lagoon bodies were floating upon the debris.

The story of fatality in Morakau, where 95 to 100 inhabitants perished, is extremely sad. It is likely that one-fifth of the entire population of the Tuamotu group succumbed. About 1000 survivors were in danger of starvation or perishing from thirst or disease.

It was to the credit of Americans that relief from thirst came in the form of condensed water. With primitive machinery 200 gallons of fresh water was distilled daily for several days.

WE ARE NOW OFFERING THE

SECOND ALLOTMENT OF 100,000 SHARES OF HIGHLAND GOLD STOCK

AT SIX (6) CENTS PER SHARE.

The first allotment of 100,000 Shares was disposed of at six cents per share, mostly by telegram, and in order to allow those whose orders failed to reach us by the 20th of February, on account of delayed mails and blocked trains, an opportunity to secure "HIGHLAND GOLD" stock, at the bedrock price of six cents per share, we have placed the second allotment upon the market at the same price. This is a ground floor offer, and an opportunity to invest your savings in a gold mine with a brilliant future, one which will, without doubt, after a course of systematic development, rank as one of the largest gold producers and dividend payers in the Sumpter gold fields.

LOCATION AND DESCRIPTION

The HIGHLAND GOLD MINES COMPANY owns twelve quartz claims (240 acres) in the heart of the famous SUMPTER DISTRICT OF EASTERN OREGON, and located on the same belt as the world-renowned NORTH POLE, the COLUMBIA, the GOLCONDA, and the E. & E. MINES to the west, and the BALSLEY-ELKHORN and other large producers to the east, the great CHLORIDE mine lying to the north of the HIGHLAND GROUP.

This wonderful belt or zone, after passing through the mines to the west, strikes the HIGHLAND ground and runs through it for a distance of 3500 feet. The vein or ledge has been thoroughly prospected and pay-ore has been uncovered the whole distance—in fact, the longest and most continuous pay-shoot or ore body ever discovered in the district is found in the HIGHLAND ground.

FREE TRIP TO THE MINES

To any who wishes to invest a reasonable sum in the HIGHLAND, we will pay all the traveling expenses to and from the mine for the purpose of his making a personal investigation. We have a good mine and we are not afraid to show it. Mining men and experts of known ability who have visited the HIGHLAND are all unanimous in saying that the HIGHLAND will make a large mine and a good producer.

In inviting you to purchase stock in the HIGHLAND, we do so with the end in view of securing you as a permanent customer and client, believing that by fair and honest treatment only can we retain the confidence of investors.

From our prospectus you can learn all about our enterprise. It is a good one—safe and certain. We recommend it to our most conservative clients.

SECOND ALLOTMENT IS NOW OFFERED AT 6 CENTS PER SHARE \$30.00 will buy 500 shares; \$60.00 will buy 1,000 shares; \$300 will buy 5,000 shares. No discount on large orders.

THIS IS POSITIVELY THE LAST BLOCK OF THIS STOCK THAT WILL BE SOLD AT SUCH AN EXTREMELY LOW FIGURE
