NEWS OF TUTUILLA

PIONEER OF TUTUILLA DIED LAST MONDAY.

Mrs. Cheney Seriously Ill—Chris Nelson Has Retired From Farm—Chain Carrier of Riverside, California, Speaks of Irrigation.

Tutuilla, March 18.—Mrs. Cheney is seriously ill.

Road Supervisor Hudson has a gang of men doing road work at Tutuilla today.

Thomas Lonogon and James Anderson have commenced plowing summer fallow.

Harry Cord, who has 75 head of cattle wintering at Tutuilla with straw nearly all gone and pasture scarce, is developing quite a longing to see bare ground and green grass in the mountains.

Chris Nelson, who has rented out his ranch and retired from active farming, is spending a day or two in Pendleton.

D. C. Brownell located five settlers on irrigation claims and came up from Echo this evening. That burg is waking from the Rip Van Winkle sleep which it has enjoyed for several years.

Hauna Bros. stockraisers and farmers of Upper McKay, passed Tutuilla yesterday.

William Yohanka is up from Nolin today. He has 300 acres of summer fallow already plowed and about 18 hundred yet to plow.

W. P. York, the John Day horse-raiser, whose horses enjoy John Day bunch grass in summer and Juniper straw stacks in winter, with a peep at the landscape between the two places spring and fall, was over from Juniper, where his horses are wintering today.

John Doe, who was chain carrier for the surveyors surveying the Riverside irrigation ditch in California in 1870, is a Tutuilla visitor today. At that time the Riverside country was a sandy wilderness, covered with sunflowers, mustard and briars, with land offered at \$1.20 an acre and no takers. Colonel North, the man who proposed the reclamation scheme, was hooted and laughed at as a visionary and dreamer.

"The man is thought a knave or fool or biggot plotting crime. Who in the advancement of his kind is wise before his time."

But the colonel went ahead with his plans and today the Riverside country is a delight to the eye of the visitor and the land is worth \$1,000 per acre.

Alonzo Brown, one of the pioneers of the Tutuilla settlement, died at St. Anthony's hospital on Monday and was buried at Olney cemetery today. Mr. Brown purchased a quarter section of reservation land at the sale 10 years ago and has been living at Tutuilla, farming and stockraising since that time. He leaves a mother, brother and sister living at Tutuilla, and was followed to his last resting place today by a procession of friends and neighbors with whom he leaves a reputation for patient, persistent laborious effort, as one who tried and not without success, to leave the portion of God's footstool which fell to his lot, better than he found it.

"Say can the world one soothing thought bestow To friendship weeping at the couch of woe No, but a brighter cheers the last adieu, Souls of impassioned 'tis hopes that speak to you; Weep not," she says, 'at nature's transient pain; Congenial spirits part to meet again."

Meeting of Sanitariums.

Harrisburg, Pa., March 18.—The tenth annual meeting of the Associated Health Authorities and Sanitariums of Pennsylvania began at the state house today and will continue through tomorrow. Tuberculosis, smallpox and legislation in the interest of the public health are the principal subjects to be discussed. The annual address will be delivered by Dr. Lawrence F. Flick, medical director of the Henry Phipps Institute, who has chosen as his subject, "The Duty of Boards of Health in the Prevention of Tuberculosis."

The School for Scandal.

"Look at the crowd of women going into Mrs. Gabbie's house. What's the attraction?"

Andrew Arms, of Woodburn, has disappeared from his home and no trace of him can be found. He was becoming demented and friends think he feared confinement in the asylum and rather than be sent there, quietly left the state.

"THE DARKEST HOUR."

Stirring Melodrama With Excellent Scenic Display, One Night.

Those who like a stirring melodrama should go to the Frazer next Saturday, November 21, when Lincoln J. Carter's superb scenic spectacle, "The Darkest Hour," will be shown in this city, for the first time. Like all of its kind, it tells an intensely interesting story in an emphatic and artistic manner. The plot has been well conceived and cleverly constructed, the brightest lines of comedy being deftly intermingled with emotional scenes that cannot fail to reach straight to the heart. Mr. Carter is noted the world over for his ingenuity in inventing intricate mechanical effects, but in this he has succeeded in surpassing all of his former effects and a series of real stage pictures is promised.

HERPICIDE NOT A FAKE.

Unsolicited Testimonials Tell of Its Superiority.

Mr. R. Kelly, residing at 2195 Devisadero street, San Francisco, Cal., writes the following:

"When I first purchased Herpicide, I thought, like the majority of hair preparations, it would prove a fake. I am happy to state that on the contrary, it is all, and even more than you claim for it. Quite a number of barbers throughout the section in which I travel have called attention to the new hair sprouting out on my scalp, and inquired of me what I have been using. I tell them 'Herpicide,' also give them your name and address." Sold by F. W. Schmidt & Co. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

AN EXPERIMENT

Is sometimes a costly experience for the man who makes experiment for the person, animal or object upon. Some experiments are necessary for the advancement of civilization; and though frequently money is lost by the experimenter, the ultimate benefits often result in great good to humanity and this has been the case with the many successful experiments in

IRRIGATION

In the Columbia and Snake River Valleys. Farming under irrigation anywhere in this region has passed the experimental stage to grand success, has stood the tests of the Western Farming Public, a most critical judge, is growing in favor every day and has fully substantiated the claims of the Expert Irrigator "that the application of water to our desert lands would render them equal in value to

ANY IRRIGATED LANDS ON EARTH"

The lands under our system of irrigation canals are earlier springs, later falls, better transportation facilities, access to markets and are capable of a wider range of production than any other lands in the great Columbia and Snake River Valleys.
