Crops and Fruits. If the weather is favorable, most of the farmers will finish seeding this week. This isn't wheat that has

been frozen out, but ground that could not be seeded last fall. Hig Harris and John Frazier say that not more than three per cent of the grain sown last fall is injured and if conditions are favorable from now on until harvest, this end of the county will see the largest crop of wheat and oats in its history. They also report that there were some fears of the fruit crop being killed last Monday and Tuesday night, but on close examination it is all right and we need not fear anything now only scale and not that if properly attended to.
