TUESDAY, MARCH 24, 1903.

Infinitely more valuable is character than gold. Wisdom is above the price of stocks and bonds. Justice is more enduring than the granite of the Rockies. Philanthropy is the crown of life. —Rev. Joseph E. Collier in Denver Post.

### PATRONIZE HOME ENTERPRISE.

Pendleton is conceded by all to be one of the best cities in Oregon but there are some things in which improvements can be made, which will tend greatly to its upbuilding. Spend your money at home for everything it is possible to buy. Don't send it away to help build up business that will bring no returns to the city. Leave it with the home merchants and they will in turn put it in circulation here, and the result will be that all the citizens will derive benefit from it and you will in turn get your portion back. The upbuilding of Pendleton should be first in the minds of all true, loyal citizens. Boost for Pendleton; always say a good word for the city, spend your money here and you will see it continue to grow.

Our merchants are a class of people of whom we can feel proud. Their stores contain the best of everything and comparison of prices show that they are satisfied with a smaller margin of profit than dealers in surrounding places, because they do a larger bulk of business. Compare the appearance of the places of business and the enterprise of the merchants here with those cities of this size anywhere and you will find we are in the lead. Let your watchword be: "I'm a Pendletonian and am for Pendleton." Back up this thought by spending your money at home.

### HANNA VS. JOHNSON.

Of all the municipal elections to come off next month, that at Cleveland is the most interesting. For this there are several reasons. It is partly because of the issues, which, although local in application are of national importance, centering as they do, about the traction problem. It is partly because of the recent legislative construction of the city government, which divides the responsibility of administration by making all the principal offices elective, the only important administrative officer that was elective under the previous system having been the mayor. And it is doubtless due in no minor degree to the fact that the contest is between Senator Hanna, representing the local street car interests and as republican leader in both the city of Cleveland and the state of Ohio and Tom L. Johnson, representing the movement for three-cent fares with municipal ownership as soon as an enabling act can be secured, and as democratic leader in both the city and the state.

### THE GLAD HAND.

Nearly every day strangers are seen on our streets, some times only a few and some times there are many. These visitors as a general thing, are people from the East who have come to the golden West seeking opportunities to invest or are following the advice of Horace Greely, "Go West, young man, and grow up with the country."

The coming and going of these strangers offers a splendid opportunity to advertise Pendleton. If you are approached by these strangers, and asked for information, give it readily. Give them a hearty welcome. Meet them with a cheerful look. Tell them about the good points of our city. When you leave them, give them the glad hand and tell them you hope to see them again. Make them feel that they are wanted here.

Pendleton is a good city and has many good points to talk about, so make the best of the opportunity. If strangers are made to feel welcome while here, if they do not remain, they have a pleasant impression of

Pendleton on their minds and it may bring them back to locate in this vicinity.

This policy, if followed out, will at least cause the visitors to say a good word for our city. Good words passed along the line is good advertising, so do your part whenever the chance is offered.

### A PERIOD OF TRANSITION.

The time is not far distant when Eastern Oregon will be raising as good stock as she can buy elsewhere. Such ranches as C. B. Wade's, at Hot Lake, Ore.; Oscar Minor's, at Baker City; Charles Cunningham's, at Pilot Rock; J. E. Smith's at Barnhart; Jack Edwards and Van Houten's, at Hay Creek; and Allen & La Follet, at Prineville and others are doing a great deal for the livestock of the state. They are preaching the gospel of better stock. The man who has been raising scrub stock for years cannot look at the splendid thoroughbreds raised by these gentlemen without desiring to emulate their example.

Conditions have radically changed during the last 12 or 15 years. Up to the late eighties or early nineties government grass was plenty; the tide of immigration had not set so strongly westward as it has during the past few years. To own a spring or a water hole controlled the country for some distance around, but this condition no longer holds good. Restricted ranges mean private ownership; private ownership of the land means fewer animals, but better ones at better prices. Take Cunningham's or Smith's thoroughbred Rambouillet or Delaines, a large carcass and a fleece weighing from 15 to 25 pounds. They are maintained just as cheaply as the scrub stock sheep and are many times more valuable.

One cannot fail to be struck with the changing conditions in driving throughout the country. Fences are going up better stock are to be seen in the fields than formerly. Within the past day or two the writer has visited several fine stock farms, among the number C. B. Wade's fine stock farm near Hot Lake. Starting a few years ago with less than a dozen head, he has increased his herd to 199 thoroughbreds. His original herd consisted of three Hereford cows and two bulls, and six Shorthorn cows and three bulls. Probably there are no better examples of thoroughbred beef breeds to be found in Eastern Oregon than are to be seen there. The young stuff is especially fine. Under the skillful management of his herdsman, Jim Hendry, a splendid herd has been built up. In addition to what he has raised, he has recently bought some splendid animals. "Elgitha" is one of his recent purchases. She comes from the Shorthorn herd of Charles Ladd and cost Mr. Wade \$1000.

The state owes much to the public spirited men who are willing to invest large sums in importing high-priced, pure thoroughbred stock to grade up our herds. In addition to the registered stock at Hot Lake, Mr. Wade has 450 grade cattle at his Dixie ranch on Camas Prairie.

### THE AMERICAN CIRCUS.

W. R. Andrews, of Grand Rapids, Mich., at a recent toast, got off the following appeal to the Filipinos: "You Filipinos don't know what you are missing by not wanting to become citizens of this grand country of ours. There isn't anything like it under the sun. You ought to send a delegation over to see us—the land of the free—land of fine churches and 40,000 licensed saloons; bibles, forts and guns, houses of prostitution; millionaires and paupers; theologians and poverty; Christians and chain gangs; schools and scoundrels; trusts and tramps; money and misery; homes and hunger; virtue and vice; a land where you can get a good bible for 15 cents and a bad drink of whiskey for five cents."

"Where we have a man in congress with three wives and a lot in the penitentiary for having two wives; where some men make sausage out of their wives and some want to eat them raw; where we make hogens out of dogs, canned beef out of horses and sick cows, and corpses out of the people who eat it; where we put a man in jail for not having the means of support and on the rock pile for asking for a job of work; where we license the bawdy houses

and fine men for preaching Christ on the street corners; where we have a congress of 400 men who make laws, and a supreme court of nine who set them aside; where good whisky makes bad men and bad men make good whisky; where newspapers are paid for suppressing the truth and made rich for teaching a lie; where professors draw their convictions from the same place they do their salaries."

"Where preachers are paid \$25,000 a year to dodge the devil and tickle the ears of the wealthy; where business consists of getting hold of property in any way that won't land you in the penitentiary; where trusts 'hold up' and poverty 'holds down'; where men vote for what they do not want for fear they won't get what they do want by voting for it; where 'niggers' can vote and women can't; where a girl who goes wrong is made an outcast and her male partner flourishes as a gentleman; where women wear false hair and men 'dock' their horses' tails; where the political wire-puller has displaced the patriotic statesman; where men vote for a thing one day and cuss it 364 days; where we have prayers on the floor of our national capitol and whisky in the cellar; where we spend \$500 to bury a statesman who is rich and \$10 to put away a workman who is poor."

"Where to be virtuous is to be lonesome and to be honest is to be a crank; where we sit on the safety valve of energy and pull wide open the throttle of conscience; where gold is substance—the one thing sought for; we pay \$15,000 for a dog and 15 cents a dozen to a poor woman for making shirts; where we teach the untutored Indian eternal life from the bible and kill him off with bad whisky; where we put a man in jail for stealing a loaf of bread and in congress for stealing a railroad; where the check book talks, sin walks in broad daylight, justice is asleep, crime runs amok, corruption permeates our whole social and political fabric, and the devil laughs from every street corner."

"Come to us Filipinos! We've got the greatest aggregation of good things and bad things, hot things and cold things, all sizes, varieties and colors, ever exhibited under one tent."

### CANNOT UNITE.

It may be that a politico-social club, composed of conservatives and radicals of gold democrats and free silver democrats, of protection democrats and free trade democrats, of pro-trust democrats and anti-trust democrats, and of imperialist democrats and anti-imperialist democrats, as Judge Tuiley in the opening speech at the banquet described the Iroquois club to be—it is possible, we say, that a social club so constituted may flourish.

But similarly constituted, the democratic party cannot flourish and ought not to flourish. While these diverse elements may live in peace and harmony within the precincts of the Iroquois club, they cannot unite within a political party to direct the legislation of the country. Republicans in sentiment belong with the republican party, not with the democratic party, no matter what social club they may choose to join.—The Public.

### WARSHIPS TO LUZON.

The navy department has decided to send to St. Louis for the World's fair dedication ceremonies April 30 two war vessels, the Isla de Luzon and the monitor Arkansas.

The Isla de Luzon is one of the most interesting vessels that Uncle Sam could select to show to the inhabitants of the interior, accessible by way of the Mississippi river. She is one of the ships sunk by Dewey's fleet in Manila Bay May 1, 1898, during the memorable battle that foretold the doom of Spain.

Three of the ships that were sunk by Dewey's guns have been raised by American engineers and added to the United States navy. They are the Isla de Luzon, the Isla de Cuba and the Don Juan de Austria.

The Isla de Luzon, though thorough-

### DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not understand, but he would take no chances. It is different with the average man or woman. They attempt constantly to run by the danger signals of Nature and that attempt costs thousands of lives every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of dullness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is losing the nutrition on which its strength depends.

Such a condition calls for the prompt use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

"Your kindness to me I can never forget," writes Mrs. Josie E. Clark, of Enterprise, Shelby Co., Mo. "I cannot express half my feelings of gratitude to you. I had despaired of ever getting well. I had been in bad health for twelve years. Had aches all through me, numb hands, cold feet, and everything I ate distressed me. Bowels constipated, was very nervous, depressed and despondent. In fact, I can't express half my feelings to you. When I first wrote to you I thought I could never be cured. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasant Pellets. They cure constipation, biliousness and sick headache. They do not produce the "pill habit."

ly repaired and overhauled and put in spick-and-span condition, still bears the marks of the destructive guns of Dewey's fleet, when, on that early Sunday morning nearly five years ago, the most famous naval battle of modern times was fought.

With his ships in battle line the Spanish admiral, Montejó, awaited the coming of the Yankee fleet. Commodore George Dewey in command. In the line was the Isla de Luzon, manned by a Spanish crew and armed with modern guns. Every vessel had steam up and was ready for every emergency except that one that arose—well-aimed shells that put the ships out of action before they were able to do similar damage to the American visitors.

The Isla de Luzon, now flying the American flag, manned by Yankee tars, and armed with American-made guns—the kind that shoot straight—is a snug ship, for which her commander and her men bespeak creditable work in the event of her being called into active service.—Post Dispatch.

### PRECURSOR OF SOCIALISM.

According to the Springfield, Mass. Republican, Mr. J. P. Morgan recently expressed himself thus: "I and others like me are inevitable organizers of the work of the world. Our proceedings will not be pleasant, but they are necessary for the interests of all the people. When the time comes that the people resolve to take their own they will find the systematization ready for them."

"We are instruments of inescapable development; of economy in production, distribution and return. You may call us socialists—for that is the ultimate of all we are doing—the taking over by the people of the material of their life. Some time, sooner or later, they must do it, and therefore I am properly a precursor of socialism to that degree."

### THE LEGAL VS. THE MORAL SIDE.

A man who takes the place of strikers has a lawful right to do so, but from the standpoint of manhood he is not much of a man if he whimpers when he loses.

The "strike-breaker" is employed, not because he is a good workman,

but his services are wanted to break the strike.

He knows that his employers know it; everybody understands why he is employed, and therefore sympathy for the strike-breaker can only be because he finds it necessary to go against his fellows to get a job.

Legally, the strike-breaker has a right to work. We have the right also to buy cheap goods, rendered cheap because a powerful concern is underselling and crushing a small dealer. The moral side is quite another matter.—Denver Post.

### ABOUT EVERYTHING.

An automobile made at Worcester, can carry 10 tons.

The growth of vegetarianism in the United States is gradual but persistent.

Three of the 11 dirigible balloons made in 50 years, have killed their inventors.

Santos-Dumont is now figuring in a divorce case. Possibly the lady thought he was too fly.

A regular professorship of rail-roading is to be created at the Technical high school of Berlin.

St. Louis vegetarians are planning to establish in that city a co-operative vegetarian restaurant.

The grand jury of Cook county (Chicago) reports an alarming increase in the sale of cocaine.

For arranging to have a political sermon in Treguier cathedral, a French priest has been fined \$40.

When stress is applied internally to eggs, they give way at a pressure of 32 to 65 pounds to the square inch.

The habit of talking to oneself results from intense preoccupation. It is the initial symptom of dementia.

Under local option three-fourths of the population of Texas have voted the counties in which they live "dry."

The question, "What shall we do with our ex-governors?" is in a fair way of being settled. Fifteen of them are now in the United States senate.

The so-called "defective classes of society"—the idiotic, feeble-minded, improvident, habitually immoral, inebriate, criminal, insane and other impaired persons—are, as a rule, victims of arrested or otherwise imperfect development of brain, attributed largely to malnutrition both before and after birth.
