In a head-on collision at Gold Hill, between two freights Thursday, a car loaded with dynamite was split in two and the dynamite scattered about the track. The escape from a tremendous explosion is considered miraculous.

ELECTRIC RAILWAYS.

A Big System Will be Put in Between Central West Virginia and Pittsburgh.

Morgantown, W. Va., March 28.—With the beginning of the construction here last week of the new Morgantown electric railway a start was made on what will be one of the biggest electric railway systems in the United States, a line between Central West Virginia and Pittsburgh. The Morgantown street car line will be a link in the gigantic system that will extend from Buckhannon, W. Va., a town high up in the mountains of Upshur county, through the valleys to the great industrial center of Western Pennsylvania. The road will be upward of 200 miles long and a considerable part of it has been already completed or is in an advanced stage of construction. The aggregate capital of the roads to be welded into one continuous line between the points indicated is over \$100,000,000.

A Rare Opportunity.

To get 186 acres of fine land in the Grande Ronde valley. Good improvements; house, barns, etc., and there are hot springs on the property that are easily worth the price of the whole proposition. Address Box 208, City.

OREGON MODEL LAW

BILL RECENTLY PASSED BY STATE LEGISLATURE.

An Act to Protect the Birds of the State From Destruction—Persons Convicted Liable to \$100 Fine.

The bill recently passed by the Oregon legislature is what is known as the "Model Law," being recommended by the national bird associations, and is printed in full below:

Section 1. No person shall, within the state of Oregon, kill or catch, or have in his or her possession, living or dead, any wild bird, other than a game bird, or purchase, offer, or expose for sale, transport, or ship within or without the state, any such wild bird after it has been killed or caught except as permitted in this act. No part of the plumage, skin or body of any bird protected by this section shall be sold or had in possession for sale. For the purposes of this act the following only shall be considered game birds: The anatidae, commonly known as swans, geese, brant, and river and sea ducks; the Falidae, commonly known as ralls, coots, mud hens, and gallinules; the Limicolae, commonly known as shore birds, plovers, surf birds, snipe, woodcock, sandpipers, tattlers and curlews; the Gallinae, commonly known as wild turkeys, grouse, prairie chickens, pheasants, partridges and quails.

Sec. 2. No person shall, within the state of Oregon, take or needlessly destroy the nest or the eggs of any wild bird, other than a game bird, or have such nest or eggs in his or her possession, except as permitted by this act.

Sec. 3. Every person convicted of a violation of any of the provisions of this act shall be punished by a fine of not less than \$5.00 and not more than \$100, and in default of the payment of the fine imposed shall be imprisoned in the county jail in the county where the offense was committed at the rate of \$1.00 for each day of the fine imposed.

Sec. 4. Sections 1, 2 and 3. of this act shall not apply to any person holding a certificate giving the right to take birds, their nests, or eggs for scientific purposes, as provided for in section 5 of this act.

Sec. 5. Certificates shall be granted by the president of the state agricultural college of Oregon and the president of the University of Oregon to any properly accredited persons of the age of 15 years or upward, permitting the holder thereof to collect birds, their nests or eggs, for strictly scientific purposes only. In order to obtain such certificate the applicant for the same must present to the person or persons having the power to grant said certificate written testimonials from two well-known scientific men, certifying to the good character and fitness of said applicant to be intrusted with such privilege; must pay to the said game warden one dollar to defray the expenses attending the granting of such certificate; and must file with said game warden a properly executed bond, in the sum of \$200, signed by two responsible citizens of the state as sureties. On proof that the holder of such certificate has killed any bird, or taken the nest or eggs of any bird, for other than scientific purposes, this bond shall be forfeited to the state, and he shall be further subject for each offense to the penalties provided therefor in section 3 of this act.

Sec. 6. The certificates authorized by this act shall be in force for one year only from date of issue, and shall not be transferable.

Sec. 7. The English or European house sparrow (passer domesticus) is not included among the birds protected by this act.

Sec. 8. All acts or parts of acts heretofore passed inconsistent with or contrary to the provisions of this act are hereby repealed.

Sec. 9. Inasmuch as certain wild birds of this state are in need of immediate protection, an emergency is hereby declared to exist, and this act shall be in force from and after its approval by the governor.

Consumer—See here! My family was out of town all last month except three days, and yet my electric light bill is higher than for the month before.

Clerk (severely)—Well, sir, do you suppose we can keep track of the comings and goings of all our customers? This office doesn't run a society department.—Kansas City Journal.

MARS IN OPPOSITION.

Most Notable Astronomical Event of Year Occurs Tonight.

Washington, D. C., March 28.—The most notable event of the year is the opposition of Mars, which occurs tonight. On April 1 the distance of Mars will be a minimum, being then 59,000,000 miles.

The opposition is so circumstanced, however, that astronomers will have some favorable conditions for studying Martian problems. The northern polar cap will be visible, and doubtless many observations will be made of it by numerous observers.

The satellites of Mars, discovered by Professor Hall at the Naval Observatory, probably will be beyond the reach of that telescope in the present position of the planet, but they may be visible to the more powerful telescopes of the Lick Observatory. Many problems are now studied by astronomers with large telescopes, of which the measurement of satellites is one.

Other lines of study relate to the diameter of the planet by night and by daylight, and drawings of the numerous markings noted upon the surface of the sister planet.

MILTON NOTES.

Moving Picture Concert Good Thing for Local W. O. W.—Many Bite at Getting Picture for 15 Cents.

Milton, March 27.—Marion Dorothy was a Pendleton visitor Thursday.

Mrs. Bennie Osborne is quite sick with neuralgia and grip.

A runaway team of A. M. Elam's disconnected the Hudson Bay telephone wire last Wednesday evening. It took quite a while for the boys to find the break.

The exercises at the Bowlin school house Wednesday evening was a success and all speak in the highest terms of Miss O'Hara as a teacher.

The moving picture concert, which was held in the opera house last Wednesday and Thursday evenings, under the auspices of the Woodmen of the World, was about as good a show as ever struck this town. On the first evening about 200 tickets were sold, and nearly 500 the second. It is quite a boom for the W. O. W. financially.

The new implement house that was mentioned in these notes some time ago, as going to be established in North Milton, will be under the management of John Smith, of Walla Walla, a well-known implement man of that town.

A lady has been going from house to house here in Milton, selling a large picture and promising to put your name in one of the directories of the United States that goes to every publishing house in America, all for 15 cents. It is needless to say that she did a wholesale business here for a couple of days, and all the "get something for nothing" ones will wait until the next wily one comes around before they bite again.

Mrs. Eva Edmonson, of Topeka, Kan., a niece of Lewis Bowlin, arrived in this city Wednesday evening. They contemplate locating here if they like it. They report a hard winter in Kansas and are looking for a more suitable climate.

Lewis Morrison's "Faust" Coming.

Lewis Morrison's "Faust," with the beautiful garden, Brocken and apothecosis scenes newly painted by famous artists, a newly written prologue and a wealth of gorgeous electrical effects and costumes, will be presented at the Frazer on Wednesday, April 1. Tickets now on sale at Frazer's book store.

Beer production in Austria declined last year by 482,111 barrels.
