THE DEVIL COMING.

Lewis Morrison to Appear in "Faust" Next Wednesday Night.

Lewis Morrison's revised version of "Faust" appears at the Fraser Wednesday, April 1. What the dramatist calls heart interest has been the cause of the longevity of many plays when injected in sufficient quantities. Goethe's immortal poem of Faust is credited with many years of phenomenal prosperity in its dramatized form, greatly owing to Lewis Morrison's version, having carefully preserved the struggle between the good and evil of Faust and Marguerite, though sorely tempted and dominated by passionate love—otherwise one phase of heart interest.

The temptation of Faust, Faust's rejuvenation and passionate desire to possess the lovely Marguerite, the hapless fate and final apotheosis of Marguerite, the revelation of the nether depths of the inferno, with Satan as a visible entity, possesses a revelation that is evident whenever Lewis Morrison's production of Faust is presented.

NEWS FROM ECHO

BEEF SHIPPING RECORD OF BUTTER CREEK DISTRICT.

One Firm Has Spent \$75,000 for Cattle Since December—The Shipments for the Season Will Aggregate 100 Carloads.

Echo, March 30.—J. R. Greer, of Shoshone county, Idaho, is looking over the field here. He is accompanied by J. B. Collins and H. M. Pendy, of Johnson, Wash. G. T. Johnson stopped over here last night on his way to Salem, where he goes to assume his duties as assistant warden of the penitentiary.

G. W. Ray, an attorney of Heppner, has been confined to his room at the Arlington Hotel here for two or three days with a severe attack of la grip. He is reported as much improved this morning.

Dick Jones, the liveryman, is putting in a new rig every few days to accommodate the homeseekers that are constantly pouring in.

Owen Horton, city engineer of Colfax, came in this morning as advance agent for a number of Colfax people.

T. C. Benson bought two carloads of fat steers of Ben McCullough and is loading them here today. He is also shipping a mixed car of hogs and cattle. He says in all his experience of buying cattle, he has never seen a region of country that grows nicer cattle than Butter Creek. This makes 57 carloads of fat steers that he has bought since December of last year, and loaded at the little town of Echo.

The average price is about \$1,300 per car. This means that one firm alone has contributed to the wealth of this vicinity in the short period of three months, the sum of nearly \$75,000,000. He says before this season is over his firm will have purchased at least 75 carloads or about \$100,000 worth.

John Shaw is also loading two carloads of cattle here today. The price paid is 4 1/2 cents for cattle and 6 1/2 cents for hogs.

THE BEST MANUFACTURING COMPANY STEAM AND HORSE POWER COMBINED HARVESTER

As McCormick was the original inventor of the reaper and harrow, so was "Best" the original inventor of the first successful combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Slide-Hill Combined Harvester the coming season, we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named "KING OF THE FIELD." After watching its work in the field for past sixteen years, and for the season of 1903 it will be still better as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch diameter.

RUNAWAYS—are a rare thing with us. There is a brake main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of the harrow, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with our speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harrow may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.
