- Owl High Grade Baking Powder per pound, 30c
- Six Bars Owl Soap, 25c

Farmers will find it to their interest to buy their Harvest Dishes now—Right Now.

OWL TEA HOUSE

CORBETT M'GOVERN

WILL SETTLE QUESTIONS OF THE CHAMPIONSHIP.

Both Contestants in Pink of Condition—Training Has Been Carried on in a Most Satisfactory Manner—McGovern May Have Slight Advantage.

San Francisco, Cal., March 31.—"Young Corbett," featherweight champion of the world, and Terry McGovern, who has hopes of recovering the title he lost in the memorable fight at Hartford a year ago last November, will meet tonight in the arena of the Hayes Valley Athletic Club to settle the question of supremacy. The men are matched to box 20 rounds.

If present arrangements are carried out the boxers will face one another about 9 p. m. According to reports from their respective training quarters, McGovern and "Young Corbett" are both in first-class physical condition. Both completed their regular training yesterday and are doing just enough work today to keep their weight at the right figure until called upon to enter the ring. The articles of agreement stipulate that they are to weigh in at 127 pounds at 4 o'clock this afternoon. Neither anticipates any difficulty in tipping the scales at the right figure.

The fact that the betting is in favor of McGovern does not prove conclusively, however, that there are not ring critics and quite a number of them, who are of the opinion that when the two little fighters face in the squared circle tonight "Young Corbett" will repeat the dose he administered to "Terrible Terry" at the Hartford meeting.

These persons base their belief on the idea that the Denverite is the one fighter who is thoroughly acquainted with McGovern's style of fighting and capable of getting in the knock-out blow at the first opportunity. They argue further that a fighter once defeated is always at a disadvantage when he faces his conqueror a second time. The champion, full of the knowledge that he had defeated his opponent before, gains courage in the belief that he can do the trick a second time, while the vanquished is more than apt to lose confidence in himself when he faces the man who has once defeated him.

To compare the tactics of the two fighters is an easy matter. It may be said that their style of fighting is much the same. McGovern may have a slight advantage over his opponent when it comes to the scientific points of the game, but on the other hand the champion is considered less likely to lose his head when things get lively. As to hard hitting and gameness the two little fighters are about as evenly matched as ever were two antagonists in the ring. In whichever corner of the ring the bird of victory alights the fight is certain to be a lively contest from gong to gong. The general opinion in sporting circles is that the battle will not go half the limit.

SYRUP OF FIGS

Acts Gently;
Acts Pleasantly;
Acts Beneficially;
Acts truly as a Laxative.

Syrup of Figs appeals to the cultured and the well-informed and to the healthy, because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal virtues of Syrup of Figs are obtained from an excellent combination of plants known to be medicinally laxative and to act most beneficially. To get its beneficial effects—buy the genuine—manufactured by the

FUNERAL OF GEN. J. H. STEVENS

Laid to Rest in La Grande, After Busy Life of 97 Years.

La Grande, March 31.—The funeral of General J. H. Stevens was held in this city today, under the auspices of the Masonic fraternity, of which he had been a member for 50 years.

General Stevens was born in Jamaica, Windham county, Vermont, March 26, 1806. After an academic education, he became a school teacher and later a merchant in Boston. In the civil war he was a brigadier-general of the Michigan state troops. He crossed the plains to Oregon in 1852, and two years later went back via the Isthmus of Panama. Return-

ing with his family to Oregon, he conducted a hotel at Champoeg and later at La Grande, where he was land office receiver during President Grant's term. He was a member of the last territorial legislature, and in 1856 he was chief packer under General Stevens, in the Yakima Indian war.

For 15 years General Stevens lived on the old Ladd Hill emigrant road, 16 miles east of La Grande. His farm was known all over the West to freighters and travellers as the "Sixteen Mile House," and for many years it was the only habitation in a large scope of range country lying at the head of Clover Creek.

General Stevens and family were

noted for their great hospitality. The "Sixteen Mile House" was one of the bright spots in the long and arduous emigrant train.

He was a member of the Episcopal church and has led the ideal life of a Christian gentleman through all trying phases of frontier settlement. The funeral was one of the best ever held in this city.

For Sale.
11-room house and lot, 2 from Main street, suitable for a boarding house. Would rent for \$3500. N. T. Conklin.

SITUATION

The properties of the HIGHLAND GOLD MINES COMPANY, consisting of twelve claims, (240 acres), and known locally as the KNAPP GROUP OF MINES, are situated on the famous MOTHER LODE system of the Sumpter district, in Baker county, state of Oregon, and on the great Elkhorn divide at the head waters of Rock Creek flowing to the east and Cracker Creek flowing to the west, through that renowned Cracker Creek district of Eastern Oregon, where are situated upon the MOTHER LODE system the North Pole, E. & E., Columbia, and Golconda mines, known the world over as the "Big 4" of Eastern Oregon.

MEMORANDA OF SAMPLES TAKEN FOR THE PAST THREE YEARS.

BY COL. M. L. LOHMIRE

1899—Glasgow drift west side creek, heavy sulphides, ore from rich streak	\$330.00
From crosscut east side of creek on Eldorado, 16 feet wide, taken in 5-foot sections, north wall	5.78
Six feet in center vein, large sample	2.58
Five feet south side, large sample	5.28
The Bannock Burn tunnel, 7 feet on foot wall large sample	8.25
Bannock Burn tunnel, 10 feet, 6 inches width large sample	7.70
Back 8 feet from face and 2 feet next to hanging wall, large sample	15.90
Same body 14 feet back from face, 4 feet of ore	22.32

From Glasgow drift west of creek, from ore on dump in boxes	398.33
From same point in Glasgow drift, 11 inches wide, 20 feet back from face, 9 inches wide, same drift	491.88
East side of creek, in crosscut next to shaft on Eldorado, 15 feet wide	4.70
Float in and around open cuts half way up the mountain from east end of Bannock Burn tunnel, general sample	27.00
At open cuts near west line, values obtained ranged from	\$28.00 to \$29.00
Small streak in open cut near west end line of Bannock Burn	360.00
Sample from surface near creek east side, 8 feet wide	2.43

JULY—1900.

Bannock Burn tunnel face, 6 feet in width, tunnel having been driven ahead a few feet	4.10
General sample, 6 feet of ore 8 feet back from face of Bannock Burn tunnel	10.82
General sample of 4 feet of ore, 30 feet back from face of Bannock Burn tunnel	5.70
General sample, 8 feet of ore in open cut 250 feet west, further up the mountain from Bannock Burn tunnel	5.53
General sample next to foot of wall, same place, General sample 2 feet in width, hanging wall 250 feet west of Bannock Burn tunnel	2.56
Bannock Burn claim near west end line 2 1/2 feet ore	2.25
	9.64

Bannock Burn claim, general sample, from large boulders of ore half way up the mountain,	16.01
Sample from 14 inches in face of Glasgow	27.10
Sample of lot of float 1000 feet west of Bannock Burn tunnel	4.39
Sample of sulphide ores from Glasgow drift, west of creek	219.00
General sample, open cut 700 feet west of Bannock Burn tunnel	13.22
Memoranda of sampling and results for the fall of 1901 misplaced or lost, but results were good.	
Sampling this fall from the Eldorado tunnel in the face, general sample ran from	\$.3.76 to \$15.76 per ton.
Sample of 18-inch gouge or selvage	4.58

WIDTH AND LENGTH OF VEIN

The vein is traceable the entire length of the claims, thirty-five hundred (3500) feet, and the ore shoots are known to be of immense length, and the values in the same evenly distributed throughout.

The width of the vein varies from ten (10) to forty (40) feet, and has a northeasterly and southwesterly strike of course; the permanency of which has been demonstrated by the development of the other mines on the now famous MOTHER LODE of the Sumpter District.

The vein on this property has been explored thoroughly on the surface by means of shafts, tunnels and open cuts, and is known to carry commercial values the entire length of the claims.

FREE TRIP TO THE HIGHLAND MINE

If you seriously consider an investment in the Stock of the HIGHLAND GOLD MINES CO., and wish to make a personal examination of the MINE, and personally learn the facts, you may do so without cost to yourself. We will pay your expenses from your home to the

MINE and return; and if you find the facts as represented, all we ask in return is a fair and reasonable investment, but if you find that the facts have been misrepresented, we will not ask you for an investment, and forever hold you harmless from all necessary expenses on account of your visit and examination.
