WATERCOMMISSION

DISCUSS THE SUBJECT OF COLLECTING WATER RATES

Bills Were Audited and Allowed—Petition for Water Main Down Garfield—Railroads Want Water Plugs.

There were present yesterday afternoon at the meeting of the water commission W. H. Jones, the chairman, J. T. Brown, the superintendent, Leon Cohen, F. B. Clopton and City Attorney Carter.

The following bills were audited and allowed: Jack McKeown, labor, \$1; J. D. Brummel, labor, \$1; J. T. Brown, cash, \$1.25; W. J. Clarke & Co., raps and merchandise, \$1.85; J. A. Smith, merchandise, \$4.50; East Oregonian, printing, \$1.50; Nolf Store, merchandise, 98 cents; Ramsey & Silkemeier, of St. Louis, 24 one-half corporation connections, \$20.96; 52 pounds sheet lead, \$2.38, one plyers, 68 cents; total, \$34.32; T. J. Millton, salary, \$80; J. T. Brown, salary, \$80; Thomas Fitz Gerald, salary, \$10; freight, \$14. Total, \$230.80.

The problem of a reasonable policy to pursue in the enforcing of the collection of the water rates was discussed generally, without any formal result being arrived at, but the subject was left with the understanding that the superintendent give the users of water to understand that if the rates were not paid by the 10th of each month he should at once proceed with the enforcement of the penalty. Collected Every Dollar.

Superintendent Brown made the statement that during his incumbency he had succeeded in collecting every dollar due the city, and that too, without having to enforce the penalty in any instance, but that it takes most of his time to run around and dun and collect. A general discussion of the subject of whether the penalty is exorbitant ensued. Mr. Cohen made a motion that the penalty be reduced from \$1 to 50 cents, but it did not go to a vote, and the subject was dropped at the point stated.

Judge Fitz Gerald made a strong plea in favor of the reduction of the penalty, but the conclusion reached was that as all the rates had finally been paid in the past that they would probably be paid in the future, and that as the rates were no higher at one time in the month than another, that they might as well be paid one time as another. During the discussion one point was referred to that is often forgotten by property owners, that water rates are a lien on the property until paid.

A petition was presented from H. S. Bixby, J. S. Stockman, J. S. Kees, George Hambien, C. H. Bronson, Alex Adams and Joe Rothlin for a water main down Garfield street from block 1 to Jackson street (north side).

The petition goes on to narrate as follows: "We are all using water out of a one-half inch pipe, which is barely enough for ordinary household purposes. We would also like a fire hydrant to use in case of fire." Mr. Jones was appointed as a committee of one to investigate and report in relation to the matter.

ECHO NEWS ITEMS.

One Hundred and Sixty Cars of Cattle Shipped the Past Year.

Echo, Or., April 2.—T. C. Benson, the Portland cattle buyer, bought four more carloads of Butter Creek cattle and is loading them here today.

One hundred and sixty cars of cattle have already been shipped from here this season.

The shearing season is on now and a number of persons are dropping in here for that purpose. The estimated output this year is 30 carloads. The prevailing price so far is a little stronger than last season, ranging about 18 cents per pound; this means that the present clip will bring about \$135,000.

Echo shipped last season 100,000 bushels of wheat, 50 cars of hay and 10 tons of honey.

C. A. Fox and wife, R. B. Gilbert, P. S. and H. T. Darlington and A. W. Griggs are among the land hunters today. Mr. Griggs is sent by a party of Latah people. He expressed himself as well pleased with the country and says he will return in a short time.

J. G. Camp, who has been conducting the hydrographical survey for the federal government at this place for the past six weeks, went to Pendleton yesterday to confer with Mr. Whistler.

THE BEST MANUFACTURING COMPANY STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and binder, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire.

RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with its speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in its straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.
