#### LAND OFFICE FIGHT.

J. W. Knowles and E. W. Bartlett Visit Senator Fulton at Baker City.

Baker City, April 3 .-- John W. Knowles, whose appointment as reg-ister of the La Grande land office was not confirmed at the last hour, arriv-ed in this city last night to interview Senator Fulton on the subject of his appointment.

E .W. Bartlett, the present register was already in the city, and has held several confidential meetings with Fulton.

The friction between the two fac tions at La Grande is responsible for the present muddle in the land office fight.

It is President Roosevelt's avowed intention to make no change in offic-ials unless the service can be improved thereby and when it became known that Knowles was to succeed Bartlett, a storm of messages was showered upon the president, declaring that his appointment would be no improvement in the service.

Knowles is city attorney at La Grande and has been elected by the sambling element. Prominent republicans openly declare that his appointment is the result of political bargains and they are

OUR MEAT NOT SHUT OUT.

Germany's New Inspection Law Does Not Reduce American Shipments.

Berlin, April 3.-The last provisions of the meat inspection law of June 3 1900, went into effect quietly yester-day at the ports and throughout the empire. This most far-reaching and sumptuary measure was put in operacton piecemeal by occasional decrees because of the ministry of the inte-rior having to create the inspection machinery. The exporters will endeavor to cure beef with borax and thus comply with the German law, which as it now appears, by no mean<sup>®</sup> destroys the American meat trade here, and it is not improbable that here, and it is not improbable that the total American meat imports this year will equal those of 1901, when the total valuation was about \$8,000. Owing to high prices and insufficient home supplies, more than three-fourths of the imports of Ameri than can meats are preserved.
