IS UNIONISM A MENACE TO AMERICAN LIBERTY?

President of the National Manufacturers Association Thinks Organized Labor Will Bring the Country to Socialism.

ATTACKS MAYOR HARRISON OF CHICAGO, WHOM HE DECLARES IS AN IGNORANT FOOL.

Indianapolis, April 4.—President Harry, of the National Manufacturers' Association, has completed his address which he will deliver at New Orleans April 14. Two-thirds of it is devoted to an attack upon union labor and discusses the eight-hour bill and anti-injunction bill defeated in the recent congress. He declares the manufacturers deserve great credit for killing these measures. He says: "The newspapers and public men are subservient and apologetic. If these bills had been passed, similar bills would have been urged until the country would be under the rule of socialism, the contest for which has only begun."

Organized labor doesn't place any reliance on reason or justice, but is in all essentials nothing but mob power knowing no master but their own will. "Unionism is a menace to free government. It is despotism in the midst of luxury-loving people. Its history is stained with blood and ruin. The wrongs committed by it cry unto heaven. Its demands of congress are for privileges violating the law. It extends its tactics to coercion and intimidation everywhere, dictating to the press and to the politicians and strangling independence of thought and American manhood." "It holds a bludgeon over the head of every employer and denies to the individual the right of being his own judge as to the length of time he shall work or what he shall do in the time prescribed."

ACCUSED OF CRUELTY.

Professor Hawes, of Athena, Being Tried Today for Whipping a Son of Sam Purdy. The case is being tried today at Athena of the state against Professor J. D. Hawes, accused of cruelty and unmercifully and unjustly punishing James, the 16-year-old son of Samuel Purdy of that place. County Attorney Hailey has charge of the prosecution, and Balleray & McCourt of the defense. It is claimed by the prosecution that Professor Hawes whipped the boy for throwing snowballs against a private house, the same being somewhat in the nature of disorderly conduct, though no damage resulted. The Purdy boy denied the charge, and it appears that his companions at play also deny that he threw any snowball, while it is stated that the wife of Professor Hawes testifies with great explicitness that he was the offender. The prosecution will also claim that the punishment was excessive and irrational and the motive largely because the Purdy boy disputed Mrs. Hawes. The defense will probably take the reverse of the position assumed by the prosecution.

Gallaher, who has under ditch 160 acres of land, mostly alfalfa, though he has in considerable orchard. The record of Mr. Gallaher's experiences during the 13 years he has been on his present farm is the old story of early doubts, fears, experiments and mistakes, crowned at last with a continuous record of immense crops.
