INVINCIBLES WON

UMATILLA INDIANS OUT-PLAYED BY PENDLETON BOYS

Clean and Snappy Ball Game Sunday Afternoon on Alta Street Grounds—Score 9 to 4.

An amateur baseball team, made up of clerks and boys about town, calling themselves the Invincibles, Sunday afternoon crossed bats with the Umatilla Indians from the reservation, with the result that they now carry the later's scalps dangling from their belts. It was a clean, swift game from start to finish and not a comedy of errors or a wrangling match between the players and umpire, as is generally the rule with most local amateur games. The players on both teams played gilt-edged ball, the local boys having a shade the best of it both at bat and in the field, as they only made two errors during the entire game. Not a very large crowd was in attendance, although no admission was charged. Score, 9 to 4.

The line-up was as follows:
Indians—Charley, c; Billy, p; Andrew, captain, 2b; Frank, 1b; Johnson, 3b; Mathew, ss; Roberts, lf; Montannie, cf; James, rf.
Invincibles—G. Bryson, c; J. Bryson, p; Mays, 2b; Ross, Damon, 1b; Downey, 3b; Drake, captain, ss; J. Bryson, lf; Castle, Heathman, cf; Renn, rf.
Umpire—Clark Nelson.
Scorers—J. Peters and H. Gerlich.

MANGE IN DOMESTIC ANIMALS.

Veterinarian Christie Says the Disease is Unusually Active This Spring.

There is an epidemic of mange among the rats according to Dr. Christie the veterinarian, which accounts for their almost sudden disappearance. The rats have not all disappeared, but there are very few of them compared with previous years.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're ill or will be. Keep your bowels open, and be well. Pure, in the shape of "10 cent physic or pill poison, is dangerous. The smoothest, easiest, most perfect way of keeping the bowels clear and clean is to take

Pleasant, Palatable, Potent, Taste Good, Do Good, Never Sicken, Weaken or Grippe, 10c, and 25c per box. Write for free sample, and booklet of health. Address: STERLING REMEDY COMPANY, CHICAGO or NEW YORK.
KEEP YOUR BLOOD CLEAN

Dr. Christie further claims that the mange has been communicated to many cats in this place, and that unless the diseased animals are killed and securely buried, or else cured, that a further spread of the disease may be expected, and that the dogs are pretty sure to come next on the list.

He also notes that more than the usual number of horses are afflicted with a parasitic louse which is found beneath the "scales" which are found on the hide of poorly conditioned animals. This parasite is a burrower and lives and produces beneath the scales. The mange is infectious and the scale louse is a disease that is spread by association and contact just as the itch with which humanity is sometimes afflicted, and which is not essentially different in character. Measures should be taken to stop the spread of both.

ATE DISEASED BEEF.

Baker City Butchers Sell Lumpy Jaw Meat to Customers.

Baker City, April 6.—A number of cases of lumpy jaw have developed in this city and county recently. It is not often that men and women are afflicted with this dread disease, which can only be contracted by eating diseased beef, but it is a fact that several people have died from lumpy jaw during the last eight or 10 months. There are two cases which have been diagnosed as lumpy jaw at the hospital in this city at the present time.

There is no known cure for the malady, once it is thoroughly developed. The patient always dies as in a case of malignant cancer.

It is certain that with a little effort the source of the disease can be traced in each case. Lumpy-jawed cattle cannot be mistaken. It is claimed that diseased animals have been killed and the meat disposed of. The authorities will institute a rigid examination in every case where it is alleged that diseased animals have been slaughtered, and the guilty parties will doubtless have a chance to explain.

AL G. FIELD'S MINSTRELS.

Accompanied by Highest Salaried Tenor in the United States.

The love of music is one of the greatest gifts of the Creator. The Al G. Field Greater Minstrels owes much of their popularity to the sweet singers, whose names are inseparably connected with this great company.

Among the many familiar voices which will be heard with the great international singing congress, with the Al G. Field Greater Minstrels this season, is that of Reese Prosser, the romance Welsh tenor, who is accredited with being the best minstrel ball singer of the times. He is the highest salaried minstrel tenor in America, and his successful songs are sung everywhere. At the Frazer Wednesday, April 8.

The court of Toronto, Canada, has been asked to wind up the affairs of the Colonial Construction company, as it is unable to pay creditors. The company's capital is \$100,000.

SITUATION

The properties of the HIGHLAND GOLD MINES COMPANY, consisting of twelve claims, (240 acres), and known locally as the KNAPP GROUP OF MINES, are situated on the famous MOTHER LODE system of the Sumpter district, in Baker county, state of Oregon, and on the great Elkhorn divide at the head waters of Rock Creek flowing to the east and Cracker Creek flowing to the west, through that renowned Cracker Creek district of Eastern Oregon, where are situated upon the MOTHER LODE system the North Pole, E. & E., Columbia, and Goleonda mines, known the world over as the "Big 4" of Eastern Oregon.

MEMORANDA OF SAMPLES TAKEN FOR THE PAST THREE YEARS.

BY COL. M. L. LOHMIRE

1899—Glasgow drift west side creek, heavy sulphides, ore from rich streak	\$330.00
From crosscut east side of creek on Eldorado, 16 feet wide, taken in 5-foot sections, north wall	5.78
Six feet in center vein, large sample	2.59
Five feet south side, large sample	5.28
The Bannock Burn tunnel, 7 feet on foot wall large sample	8.25
Bannock Burn tunnel, 10 feet, 6 inches width large sample	7.70
Back 8 feet from face and 2 feet next to hanging wall, large sample	15.90
Same body 14 feet back from face, 4 feet of ore	22.32

From Glasgow drift west of creek, from ore on dump in boxes	398.33
From same point in Glasgow drift, 11 inches wide, 20 feet back from face, 9 inches wide, same drift	491.88
East side of creek, in crosscut next to shaft on Eldorado, 15 feet wide	430.00
Float in and around open cuts half way up the mountain from east end of Bannock Burn tunnel, general sample	4.70
At open cuts near west line, values obtained ranged from	\$28.00 to \$29.00
Small streak in open cut near west end line of Bannock Burn	360.00
Sample from surface near creek east side, 8 feet wide	2.43

JULY—1900.

Bannock Burn tunnel face, 6 feet in width, tunnel having been driven ahead a few feet	4.10
General sample, 6 feet of ore 8 feet back from face of Bannock Burn tunnel	10.82
General sample of 4 feet of ore, 30 feet back from face of Bannock Burn tunnel	5.70
General sample, 8 feet of ore in open cut 250 feet west, further up the mountain from Bannock Burn tunnel	5.53
General sample next to foot of wall, same place.	2.56
General sample 2 feet in width, hanging wall 250 feet west of Bannock Burn tunnel	2.25
Bannock Burn claim near west end line 2 1/2 feet ore	9.64

Bannock Burn claim, general sample, from large boulders of ore half way up the mountain,	16.01
Sample from 14 inches in face of Glasgow	27.10
Sample of lot of float 1000 feet west of Bannock Burn tunnel	4.30
Sample of sulphide ores from Glasgow drift, west of creek	219.00
General sample, open cut 700 feet west of Bannock Burn tunnel	13.22
Memoranda of sampling and results for the fall of 1901 misplaced or lost, but results were good.	
Sampling this fall from the Eldorado tunnel in the face, general sample ran from	\$.376 to \$15.76 per ton.
Sample of 18-inch gouge or selvidge	4.58

WIDTH AND LENGTH OF VEIN

The vein is traceable the entire length of the claims, thirty-five hundred (3500) feet, and the ore shoots are known to be of immense length, and the values in the same evenly distributed throughout.

The width of the vein varies from ten (10) to forty (40) feet, and has a northeasterly and southwesterly strike of course; the permanency of which has been demonstrated by the development of the other mines on the now famous MOTHER LODE of the Sumpter District.

The vein on this property has been explored thoroughly on the surface by means of shafts, tunnels and open cuts, and is known to carry commercial values the entire length of the claims.

FREE TRIP TO THE HIGHLAND MINE

If you seriously consider an investment in the Stock of the HIGHLAND GOLD MINES CO., and wish to make a personal examination of the MINE, and personally learn the facts, you may do so without cost to yourself. We will pay your expenses from your home to the

MINE and return; and if you find the facts as represented, all we ask in return is a fair and reasonable investment, but if you find that the facts have been misrepresented, we will not ask you for an investment, and forever hold you harmless from all necessary expenses on account of your visit and examination.
