

What the Press Says of the Philharmonic Quartet

ENTHUSIASTICALLY RECEIVED

Large numbers of people were turned away, unable to secure seats to hear the Philharmonic Ladies' Quartet last night, on their second appearance here. Should the company ever visit Provo again they can easily fill the Tabernacle to the doors.—The Provo Daily Enquirer.

GUARANTEE TO THE LADIES' AID SOCIETY—It is hereby agreed that should the Philharmonic Lady Quartet not be considered by the audience the strongest attraction of this nature ever heard in Oregon, the Quartet will forfeit the entire amount of the written contract to the Ladies' Aid Society. (Signed)
E. I. SMITH, Mgr. Philharmonic Quartet.

ONE NIGHT ONLY

THURSDAY, APRIL 9

At Christian Church

Admission - 50 Cents

See the Fisherman in Our Show Window,

And remember that I have a full line of High Grade Tackle. I bought all of my Tackle direct from the factory and have the kind that will suit every fisherman. I have in stock fly hooks from 25c to \$1.50 per doz., leaders from 5c to 75c, fish baskets, straps, bait boxes, leader boxes, reels, from 20c to \$5.50, jointed poles from \$1 to \$10, all kinds of artificial bait, spinner hooks, "Chubb's pole varnish," mist colored gut and other fisherman's supplies, too numerous to mention.

T. C. TAYLOR THE HARDWARE MAN

741 Main Street

ON SOLDIER'S FARE

ROOSEVELT WILL "ROUGH IT" IN MONTANA.

Will Tramp Through Snow Drifts—To Sleep in Huts of Soldier Guards and Will Eat Bacon and Beans.

Fort Yellowstone, National Park, April 7.—Two weeks tramping through the snowdrifts, living on hunter's fare and passing the nights in the little cabins of the soldiers is the program mapped out for the chief executive of the nation. The presidential train is scheduled to reach this vicinity tomorrow and the two weeks of rest and recreation anticipated by President Roosevelt will begin at once.

Accompanied only by Dr. Rixey, the surgeon-general of the navy, and John Burroughs, the famous naturalist and poet, the president will enter the park and during the two weeks of his stay will visit all the chief points of interest. To do this he will go part of the way on horseback and trails will be broken for him through the snow for that purpose, but there are long stretches, miles in length, where he can go only on snowshoes.

A very limited number of soldiers, two or three, will accompany the party as orderlies and messengers. Through men and through relays at the various patrol stations, the president will be kept in daily communication with the rest of his party. A telegraph line will be stretched into the presidential train, where an executive office, directed by Secretary Loeb, will be established.

The presidential party will fare exactly as do the soldiers who patrol the reserves. The president will get no better shelter than the little cabins erected for the shelter of the patrolling troopers. Each little cabin contains a bunk, a stove, a supply of fuel, some bacon, beans, coffee, tea and a few other necessities.

EDUCATIONAL CONVENTION.

Congregational Colleges Hold an Interesting Union Meeting.

Grinnel, Iowa, April 7.—A convention of representatives of all the Congregational colleges and seminaries of the interior began here today and will continue through tomorrow. The purpose of the convention is to consider the common interests of the colleges as affected on the one hand by the universities and on the other by the development of the secondary schools. The question of how best to manage these institutions, maintain discipline, look after athletics and promote religious life among those scheduled for consideration.

Prominent among the participants at the conference are President W. H. Sallmon, of Carleton college; President C. A. Blanchard, of Wheaton college; President H. T. Fuller, of Drury college; President J. H. Morley, of Fargo; President D. B. Perry, of Doans; Dean E. G. Smith, of Be-

litt; President W. F. Slocum, of Colorado college; President W. E. Sperry, of Olivet college; President A. T. Perry, of Marietta college, and President H. C. Kling, of Oberlin.

Dinner to Canadian-Born M. P's. London, April 6.—Mr. Ian Malcolm, M. P., gave a dinner in the house of commons this evening to all the Canadian-born members of that body. Prominent among the invited guests were Colonial Secretary Chamberlain Lord Strathcona, the Canadian High

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. Please to remember, the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In

order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.

Commissioner; the Duke of Argyll and the Duke of Aberdeen, former governor-general of Canada. Mr. Malcolm, who married Miss Jeanne Langtry last year, was born in Quebec.

Fear Trickery in Baltimore. Baltimore, Md., April 6.—Politics in Baltimore is at fever heat in anticipation of tomorrow's primary, which will be the first held under the new law, which is the same as that governing regular elections. It is suspected that an attempt will be made

to so manipulate the count that not but the regular organization, or machine, candidates of either party will win.

The highest point to which a man has ever climbed is 23,080 feet, to the summit of the Andean peak, Aconcagua. The feat was accomplished by two men sent out by the Royal Geographical society.

Have your shoes repaired by Teutsch's.

Be Deliberate, Be Thoughtful Yet Act Promptly.

Upon your prompt and early action often depends the Price at which you may secure a good investment. The second allotment of stock of the

HIGHLAND GOLD MINES COMPANY

\$30.00 WILL BUY 500 SHARES;

\$60.00 WILL BUY 1,000 SHARES;

\$300 WILL BUY 5,000 SHARES.

SITUATION

The properties of the HIGHLAND GOLD MINES COMPANY, consisting of twelve claims, (240 acres), and known locally as the KNAPP GROUP OF MINES, are situated on the famous MOTHER LODE system of the Sumpter district, in Baker county, state of Oregon, and on the great Elkhorn divide at the head waters of Rock Creek flowing to the east and Cracker Creek flowing to the west, through that renowned Cracker Creek district of Eastern Oregon, where are situated upon the MOTHER LODE system the North Pole, E. & E., Columbia, and Golconda mines, known the world over as the "Big 4" of Eastern Oregon.

MEMORANDA OF SAMPLES TAKEN FOR THE PAST THREE YEARS.

BY COL. M. L. LOHMIRE

1899—Glasgow drift west side creek, heavy sulphides, ore from rich streak	\$330.00
From crosscut east side of creek on Eldorado, 16 feet wide, taken in 5-foot sections, north wall	5.78
Six feet in center vein, large sample	2.59
Five feet south side, large sample	5.28
The Bannock Burn tunnel, 7 feet on foot wall, large sample	8.25
Bannock Burn tunnel, 10 feet, 6 inches width, large sample	7.70
Back 8 feet from face and 2 feet next to hanging wall, large sample	15.90
Same body 14 feet back from face, 4 feet of ore ..	22.32

From Glasgow drift west of creek, from ore on dump in boxes	398.33
From same point in Glasgow drift, 11 inches wide, 20 feet back from face, 9 inches wide, same drift	430.00
East side of creek, in crosscut next to shaft on Eldorado, 15 feet wide	4.70
Float in and around open cuts half way up the mountain from east end of Bannock Burn tunnel, general sample	27.00
At open cuts near west line, values obtained ranged from	\$28.00 to \$29.00
Small streak in open cut near west end line of Bannock Burn	360.00
Sample from surface near creek east side, 8 feet wide	2.43

JULY—1900.

Bannock Burn tunnel face, 6 feet in width, tunnel having been driven ahead a few feet	4.10
General sample, 6 feet of ore 8 feet back from face of Bannock Burn tunnel	10.82
General sample of 4 feet of ore, 30 feet back from face of Bannock Burn tunnel	5.70
General sample, 8 feet of ore in open cut 250 feet west, further up the mountain from Bannock Burn tunnel	5.53
General sample next to foot of wall, same place, General sample 2 feet in width, hanging wall 250 feet west of Bannock Burn tunnel	2.25
Bannock Burn claim near west end line 2 1/2 feet ore	9.64

Bannock Burn claim, general sample, from large boulders of ore half way up the mountain, 16.01	16.01
Sample from 14 inches in face of Glasgow	27.10
Sample of lot of float 1000 feet west of Bannock Burn tunnel	4.39
Sample of sulphide ores from Glasgow drift, west of creek	219.00
General sample, open cut 700 feet west of Bannock Burn tunnel	13.22
Memoranda of sampling and results for the fall of 1901 misplaced or lost, but results were good.	
Sampling this fall from the Eldorado tunnel in the face, general sample ran from ..	\$3.76 to \$15.76 per ton.
Sample of 18-inch gouge or selvedge	4.58

WIDTH AND LENGTH OF VEIN

The vein is traceable the entire length of the claims, thirty-five hundred (3500) feet, and the ore shoots are known to be of immense length, and the values in the same evenly distributed throughout.

The width of the vein varies from ten (10) to forty (40) feet, and has a northeasterly and southwesterly strike of course; the permanency of which has been demonstrated by the development of the other mines on the now famous MOTHER LODE of the Sumpter District.

The vein on this property has been explored thoroughly on the surface by means of shafts, tunnels and open cuts, and is known to carry commercial values the entire length of the claims.

FREE TRIP TO THE HIGHLAND MINE

If you seriously consider an investment in the Stock of the HIGHLAND GOLD MINES CO., and wish to make a personal examination of the MINE, and personally learn the facts, you may do so without cost to yourself. We will pay your expenses from your home to the

MINE and return; and if you find the facts as represented, all we ask in return is a fair and reasonable investment, but if you find that the facts have been misrepresented, we will not ask you for an investment, and forever hold you harmless from all necessary expenses on account of your visit and examination.

Address all communications, and make your checks, drafts and money orders payable to
