RABBIT CANNERY

AMERICAN HARE & COLD STORAGE CO. INCORPORATED

Echo People Making Arrangements to Engage Systematically in the Propagation of Jack Rabbits.

The jack rabbit canning industry of Echo has been incorporated, under the name of the American Hare & Cold Storage Co. The incorporators are H. C. Willis, W. H. Boyd and E. Ripper, and the capital stock is placed at \$50,000.

Under the authority given the institution by the incorporation it will, as its business opportunities develop, engage in the canning and other preparation of other meat products for the markets and engage in a general cold storage business. The company is making preparations to engage systematically in the propagation of the jack rabbit, which is hereafter to be officially and unofficially known and recorded as the American hare.

A tract of land is being fenced and leveled and will be divided into sub-fields for the growing of alfalfa and segregation of different classes of the rabbits, so the company will not have to depend upon the natural or wild supply of the animals.

The settling up of the Echo country, and the wholesale destruction of the jack rabbits will lead in a few years to such a decimation of the indigenous animal that not enough will be left for the food supply of the cats and hounds in that country. This fact the company recognizes, and from now on the animal will be systematically bred in enclosures.

One of the first results of this system will be the rapid improvement of the meat—a result that is sure to come by systematically feeding and watering the rabbits and freeing them from the annoyance of being hunted by wolves and dogs and from the deteriorating influence of semi-starvation, which they are subjected to a portion of the time every year.

WOMEN'S SYMPATHY

Is Proverbial—Pendleton Women No Exception.

How much we owe to the sympathetic side of womankind! When others suffer they cheerfully lend a helping hand. They tell you the means which brought relief to them that they may profit by their experience. Read the testimony given here by a Pendleton woman.

Mrs. L. Hodson, of 717 Aura street, says: "While my kidneys have never caused me any trouble which made itself apparent in the kidneys themselves nor in the secretions, I have been bothered more or less by an aching across the small of my back, then down and through my kidneys. When I caught cold it hurt me across my loins and made me feel lame and sore. I got a box of Doan's Kidney Pills at the Brock & McComas Co. drug store and used them. While I did not take them according to directions, being a poor hand to dose myself with medicines at all, they benefited me in every way, making my back stronger, and toning up my whole system."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take no other.

Notice to Contractors.

Sealed proposals will be received at the office of T. F. Howard, architect, up to 12 o'clock noon of April 13th, 1903, for the erection and completion of a two-story frame residence, with stone basement for Dr. C. J. Smith, according to plans prepared for the same by T. F. Howard, architect. Separate bids will be received for the stone work of the basement. The right is reserved to reject any and all bids for the work. April 1st, 1903.

Canned Hare.

Canned American hare is now on the bill of fare at the French Restaurant, in Pendleton, and is unqualifiedly endorsed by the proprietor, Gus La Fontaine, and likewise by the patrons of the restaurant as one of the delicacies. From the first serving of it it has been no longer an experiment, but takes its place in line with the best brands of canned meats of any kind, and is regarded at the French as a staple already.

The receipts of the month just ended at the New York general postoffice and branches were \$1,210,004, as against \$1,103,845 for March, 1902. The receipts for the three months just ended were \$3,386,040. For the corresponding period last year they were \$3,015,198.

Composition on Birds. The annual competition conducted by the John Burroughs Society for the best composition written by a pupil of the Elementary schools of Oregon on the subject of birds is now on. All compositions must be in by June 1. Two prizes will be awarded by Mrs. Rosa Burrell. Any subject based upon personal observation of the native birds of this state will be acceptable. Compositions must be handed in to the corresponding secretary, Miss Gertrude Metcalf, 634 Williams avenue, Portland.

The Great Mellmann.

Where, oh where, is Herr Heinrich Mellmann? He promised faithfully that he would be in Walla Walla in March and start the construction of his projected trolley line from Lewiston to Pendleton via Walla Walla. He did not come, but the city does not worry, for it still has his two thousand dollars forfeit money.—Walla Walla Statesman.

OWL TEA HOUSE

THE BEST MANUFACTURING COMPANY STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and header, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire. RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with it for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.
