**GUARANTEE TO THE LADIES' AID SOCIETY**—It is hereby agreed that should the Philharmonic Lady Quartet not be considered by the audience the strongest attraction of this nature ever heard in Oregon, the Quartet will forfeit the entire amount of the written contract to the Ladies' Aid Society. ### WIDTH AND LENGTH OF VEIN

The vein is traceable the entire length of the claims, thirty-five hundred (3500) feet, and the ore shoots are known to be of immense length, and the values in the same evenly distributed throughout.

The width of the vein varies from ten (10) to forty (40) feet, and has a northeasterly and southwesterly strike of course; the permanency of which has been demonstrated by the development of the other mines on the now famous MOTHER LODE of the Sumpter District.

The vein on this property has been explored thoroughly on the surface by means of shafts, tunnels and open cuts, and is known to carry commercial values the entire length of the claims.
