GENERAL NEWS.

Giuseppe Creatore, the famous leader of Ellery's Royal Italian band, has gone crazy and is in an asylum near Cincinnati.

The Illinois house Wednesday passed the bill appropriating \$9000 for the placing of a statue of Frances E. Willard in Statuary Hall, in Washington.

Miss Frieda Pink, an 18-year-old high school pupil of Indianapolis, is at the point of death as the result of injuries received in a basket-ball game lately.

Lieutenant-Governor Anderson, of California, was entertained at luncheon by Joseph Steinhart, at the Astor House in New York. Mayor Low was also a guest.

Mrs. Jacob H. Vanderbilt's woman's smoking parlors have called forth much protest from the Y. M. C. A. and other religious people. Mrs. Vanderbilt is very much grieved.

Half a dozen passengers were injured Wednesday at Fulton, N. Y., in a collision between trains of the New York, Ontario & Western and the New York Central railroads.

Fire Wednesday in the engineers' barracks at Fort Leavenworth, Kan., for a time threatened the entire barracks, which, with munitions, is valued at \$400,000. The fire was extinguished with \$5000 loss.

Arthur Horstley, 16 years of age, was burned to death and Arthur Youm fatally burned Wednesday by a fire in a Blackwell, Okla., restaurant, started by the latter pouring coal oil into the cook stove.

In the second round of the scheduled 10-round go between two negroes, Harry White and Henry Taylor, at Butte Wednesday night, the latter was knocked out and is in the hospital in a dying condition.

John Mullins, of Elkhorn, Ky., was killed by officers who were trying to arrest him for disorderly conduct. Two officers were killed during the fight. Mullins barely escaped with his life at Pond Gag, Ky., where his father, mother and all of his brothers and sisters were killed in a fight.

PACIFIC NORTHWEST NEWS.

The British bark Drumbarton has arrived at Portland from Japan, with an entire cargo of sulphur.

A general strike of building trades is now threatened in Portland. The bricklayers refuse to work on buildings with non-union painters.

Senator Jones, of Nevada, who has owned the Gold Bug mine at Grant's Pass for several years, has sold the property to New York capitalists.

John Bryant, an Oregon pioneer, died at Albany of pneumonia, Thursday, after a lingering illness. He was 75 years old and a native of Virginia.

Roy Hurlburt is under arrest at Eugene for horse stealing. He was implicated with Elliott Lyons in the scrape that led to the murder of Sheriff Withers.

S. G. Lyman, wanted in Portland for highway robbery, jumped from a moving train and escaped as he was being brought from Astoria to Portland Thursday.

There is a quiet campaign now being waged to defeat G. Y. Harry for the presidency of the State Federation of Labor at the coming meeting at La Grande in May.

A band of cattle broke down the Main street bridge over Catherine Creek, in Union, Thursday morning. It was a wooden structure and has been used for 10 years.

E. A. Smith, who won the state oratorical contest on a stolen oration, now accuses President Boardman, of McMinnville College, of assisting him in preparing the oration.

J. D. Arthurs, a pioneer of Oregon, died at Brownville, Thursday, of paralysis. He crossed the plains in 1864 from Missouri to California and came to Oregon in the same year.

COUNCIL MEETING

IMPROVEMENT OF BYER'S LANE STILL A PROBLEM.

Attendance of Full Council at First Regular Meeting Each Month Is Made Compulsory—Dogs Will Be Killed if Unlicensed.

The better improvement of Byer's lane is yet a problem with the city council. It is conceded that Mr. Wells is doing a fine job of grading but the peculiar character of the soil and other conditions along the lane make it certain that no system of grading can be of permanent benefit.

The proposition to gravel the road was discussed at the council meeting last night, and the interest of the O. R. & N. has in the matter from the fact that its right of way abuts the lane for practically its entire length, was referred to, and it was decided that the company should be asked to bear one-half the expense of a good, thorough graveling of the road. It is estimated that such an improvement will cost in the neighborhood of \$700. F. B. Clifton, Leon Cohen and F. W. Vincent were appointed a committee to negotiate with the company in relation to the matter.

The importance of a full attendance of the council at the first regular meeting in the month was discussed, and it was agreed that every member of the council not unavoidably detained elsewhere, should attend that particular meeting, at which all the regular expense accounts are audited and passed upon and usually the heavy incidental expenses of the city are considered. The conclusion of the matter was that Mr. Clifton introduced a resolution which unanimously passed, making the attendance of the full council at the first regular meeting in each month compulsory.

G. A. Hartman resigned as a member of the special sewer committee on account of the pressure of other business. The resignation was accepted.

The claim of M. M. Fix for alleged damages sustained to his buggy on account of the condition of a portion of West Webb street, was rejected. It was for \$20 and has been under consideration for some weeks. It has never been demonstrated to the council that Mr. Fix was really entitled to any damages, as the defective condition of the street at the point mentioned never was shown. Informally, it was decided by the council last night that to protect the city from damage claims in general none would in the future be allowed that were not backed by a court decision to the effect that it should be paid.

The marshal was given authority last night to kill at his discretion all dogs found running at large, the prohibition against animals including females, mad dogs, and other dogs without muzzles and unlicensed.

T. F. Howard was appointed councilman from the fourth ward to succeed T. E. Wells, resigned, and the appointment was confirmed. Mr. Howard will probably succeed Mr. Wells as a member of the committees upon which the latter was serving.

To Purchase Steel Cells.

The council decided to purchase two steel cells from the Pauly Jail Building Company, of St. Louis, as a result of Judge Fitz Gerald's correspondence with the company. The cells will cost considerably less than was at first supposed they would. Each cell will be six and one-half feet long, four and a half feet wide and six and a half feet high. They will cost, delivered on board at Pendleton, \$255. The council authorized a contract for two cells of the dimensions given and at the price stated.

Concerning Sewer System.

The council listened to the expert opinion of G. N. Miller, the sewer engineer, on the question of details for the extension of the system. Mr. Miller favors Alta street for the course of the main sewer to the O. R. & N. right of way in the western part of the city. The main will then follow the right of way to the river, its outlet.

Mr. Miller repeated what he stated some time ago, when he first went over the ground, that the fall is amply sufficient for the very best drainage with the use of a minimum amount of water. Also that perfect drainage can be secured for the basements in the business part of town, and consequently there need be no trouble in also keeping perfectly drained all the cellars in town.

To secure perfect results it will be necessary to lay the main 12 feet deep in the center of town, the depth gradually decreasing as the lower levels to the westward are reached. If Mr. Miller is not mistaken in his premises, the old, old bugbear of flooded basements during high water in the river will be disposed of summarily.

Enjoy Life

Book and Stationery Store

marily upon the completion of the main sewer and its connections. Wells, test holes and the deeper basements and cellars have demonstrated that some system of cribbing must be used while excavating for the sewer in the deeper portions to prevent caving. This will prolong the process of excavating, but it is very essential for the protection of the laborers. The question of at once negotiating the sewer bonds was brought up but nothing was done.

The Illinois house of representatives Wednesday unanimously passed the senate joint resolution favoring a constitutional amendment for election of senators by direct vote of the people.

EASTER OPENING

Saturday April 11

Every lady purchaser at our store will be presented with

CARNATION PINK

ICE CREAM SODA and all the Fancy Drinks so popular with us last year. We hope to soon see all our old customers again calling for their favorite drink at our fountain.

Farmers should buy their harvest wishes now—it will pay them

OWL TEA HOUSE

THE BEST MANUFACTURING COMPANY STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and harrow, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named "KING OF THE FIELD." After watching its work in the field for past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch diameter main drive wheel, which is controlled by the driver.

RUNAWAYS—are a rare thing with us. There is a brake on the main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of the separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with our separator and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harrow may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.
