SO DIFFERENT.

Lots of Claims Like This But so Different—Local Proof is What Pendleton People Want.

There are a great many of them. Every paper has its share. Statements hard to believe, harder to prove. What people say in Florida. Public expressions from California. Ofttimes good indorsement there. But of little service here at home. Pendleton people want local proof. The sayings of neighbors, friends and citizens.

Home indorsement counts. It disarms the skeptic; is beyond dispute. This is the backing that stands behind every box of Doan's Kidney Pills. Here is a case of it: S. B. Baldwin, retired, of 709 Thompson street, Pendleton Ore., says: "When I saw Doan's Kidney Pills advertised, I desired to try them and got a box at the Brock & McComas Co. drug store. They did me a world of good. My kidneys had bothered me off and on for 35 years, always more severely after I had caught cold. There was not much backache, but I was annoyed with a weakness of the kidneys which disturbed my rest several times each night. I got Doan's Kidney Pills at Brock & McComas' drug store, and used seven boxes in all. They corrected the function of the kidneys and strengthened my back as well."

Fore sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

Notice to Water Consumers.
All water rents must be paid at the water works office on or before the 10th of each and every month or the water will be shut off and a penalty will be collected before the water is turned on again. This means everyone who is delinquent on that date. J. T. BROWN, Superintendent Water Works.

SUPPOSED HIM DEAD.

Traveling Man Who Nine Years Ago Looked After Mr. Robinson at Colorado Springs, Surprised to Find Him Well.

In 1894 there attended the National Irrigation Congress at Denver from Umatilla county, Judge Lowell, Lot Livermore, T. C. Taylor, Judge Ladow and J. F. Robinson.

The latter took the trip hoping that his health would be enough benefited by the stimulus of a temporary change of climate to give him another year's lease on life. He was supposed to be walking in the shadow of one of the last stages of consumption, and to have but a few months of life on this side before him.

After the adjournment of the congress Messrs. Taylor and Lowell took a trip to Manitou, going a day or so in advance of Mr. Robinson, and to arrange for his special accommodation when he should arrive. They rented apartments for Mr. Robinson and described his personal appearance to a hack and transfer man who was charged with giving special attention to "the poor fellow." Immediately upon Mr. Robinson's arrival at Manitou.

When the latter stepped from the train at Manitou the transfer man accosted him, stating his business and mentioned that friends of Mr. Robinson had delegated him to "look after him" by taking charge of his baggage and showing him to a nice, quiet, boarding house where he would find the most considerate and home-like treatment.

Mr. Robinson bore every appearance of being what is called in Colorado "a lunger." He was pale, emaciated, with a hacking cough and had all the other usual symptoms of impending demise. He weighed at that time about 140 pounds, which was at least 70 pounds less than his average weight now. The name of the transfer man who took him in charge at Manitou was W. H. Reddy, and Mr. Robinson describes him as a very pleasant man, with an eye single to Mr. Robinson's comfort while the latter was within his charge.

Two weeks ago, and between eight and nine years after the Colorado trip, the representative of the Pacific Coast Rubber Company called upon Mr. Robinson at his laundry in this place with the intention of doing business with him. Mr. Robinson recognized him instantly as Reddy, the transfer man at Manitou. They had not met nor heard of each other since 1894. Mr. Reddy was dumbfounded at the complete metamorphosis in Mr. Robinson's appearance and evident condition of perfect health.

Some Valuable Umatilla Real Estate Changes Hands—Largest Record of Sales for One Day Recorded.

Five transactions in real estate today aggregate \$48,800—the largest record of sales for one day in this county for many years, or perhaps in the history of the county outside of railroad deals. The following is the record:

Gideon Brown of Pendleton, to E. L. Longmeier, also of this city, for \$15,000, all of the west half of section 10, town 3, range 33, lying five miles northeast of Fulton.

Francis Hoult to News Carnahan, both of this county, the southeast quarter of the southeast quarter of section 14, town 6, range 35, consisting of 40 acres. The property lies directly north of Freewater, in an irrigated district.

Arthur J. Dillon to Leonora G. Hunt of Portland for \$25,000, the northeast quarter and the west half of the southeast quarter of section 36, town 4, range 28, and the northeast quarter of section 1, town 3, range 28, the foregoing containing 400 acres. Also 105 acres in the northwest quarter of section 6, township 3, range 29. This place lies directly west of Foster station, two miles.

C. S. Miller, of this place, to Mrs. Leonora Hunt for \$1,500, the west half of the southeast quarter and the east half of the southwest quarter of section 1, town 3, range 28, lying adjoining the foregoing.

Howard C. Dunn to A. L. and H. L. Swaggart, all of this city, for \$1,900, the northwest quarter of section 34, town 2, range 32, the same lying four and a half miles directly south of the city of Pendleton.

JORDAN'S LAUNDRY.

The machinery—an entirely new outfit—for the new steam laundry is expected to arrive tomorrow. The laundry, which will be two doors east of the East Oregonian office, in R. Martin's new building, will be run by John Jordan, and will probably be in operation in about two weeks.

Case Appealed

Josie Fields was yesterday convicted in Judge Fitz Gerald's court of maintaining a nuisance, and was this morning sentenced to pay a fine of \$100 and to serve 20 days in the city jail. Josie was defended by McCourt & Balleray and immediately upon receiving her sentence took an appeal to the district court.

Irrigating With Engine.

The Kenison Brothers, of Foster, have just put into operation a pumping outfit run by a three horse-power gasoline engine. The apparatus does far more effective work than that at first thought it could do. It is said that they flooded nearly an acre of ground in an hour's time with water pumped from the river.

One of the exhibits at the World's fair, St. Louis, which will attract universal attention will be the largest herd of domesticated bison on the American continent owned by James Philip, of Pierre, S. D.

PENDLETON UNIONS

WILL ORGANIZE A CITY FEDERATION OF LABOR.

Delegates to Meet Tomorrow Night—Painters and Printers Elect Representatives to State Federation Meeting.

The various trades unions of the city will meet in council tomorrow night for the purpose of organizing a central council of federation of all the unions.

The painters, printers and laborers' unions have elected delegates thereto, as follows: Painters—Ashley Foullett, F. W. Krabler and C. J. Wilson; laborers—Douglas Phay, J. G. McConnell and P. Paulsen; printers—W. S. Brown. The carpenters will choose delegates tonight and also to the State Federation of Labor at La Grande.

The painters' delegates to La Grande are Ashley Foullett and F. W. Krabler; the printers will be represented at La Grande by W. A. Wyatt. The delegates to La Grande are expected to use their utmost endeavors to secure for Pendleton the next state federation convention.

The bartenders of this city are now trying to effect an organization, or more properly speaking, to revive their organization under the charter they once held, on the grounds that the organization merely suspended operations for a time, but did not go out of business or abandon their charter and organization. While they have not heard from their state organization at Portland on this point, they are very hopeful of securing reorganization under the old charter, and will endeavor to be represented tomorrow night in the council of unions which considers the question of organizing in this city a central council.

ARBOR DAY PARADE.

Pupils of High School Make Fine Showing in Their Public Procession

Over 700 of the pupils of the public schools this afternoon took part in the Arbor Day parade, bearing banners, class colors, flowers, branches of flowering shrubs and trees, and decorated in a wide variety of fanciful costumes, and traveling afoot, in floats, on horseback and on bicycles.

The much abused term "unique" can be applied to this procession without straining a point. The sight was really beautiful and inspiring as well. The procession was by platoons and companies composed of the children of the different classes and rooms, and was in 15 departments.

Two immense American flags borne by high school boys headed the procession, and immediately following came a carriage bearing the senior class of the high school, draped in flaming red, with the class colors of blue and yellow.

They were followed by the juniors in purple and white, preceded by a herald on a white horse blowing a trumpet.

This class was followed by the freshmen of the high school dressed in green as a symbol of their exceeding freshness and figurative greenness. (This is on the authority of a prominent educator in the public schools of the city.)

The Goddess of Spring, surrounded by her handmaidens, was a very conspicuous figure, and this symbol was one of the best executed in the entire procession.

Following the rooms mentioned came all the other departments of the schools, each costumed differently from the others, and bearing original and characteristic banners and other devices.
