Some Buddhist Laws.

Prof. Maxwell Sommerville was discussing the other day the Buddhist faith, for which he has a profound respect. Some of the striking tenets of bubbhism that he quotes were:

Use not perfume about thy person. To cough or sneeze in order to win the notice of a group of girls is a sin. Destroy no tree,

Drink no intoxicating beverage. Care for the aged and infirm. It is sinful to think one way and to

speak another. It is sinful to pass judgment on the acts of other men. Give no flowers to women and sing

no gay songs.

"Forkibus, cartibus et manuribus,"
said Joseph. "Well, now," said the

Where He Could Get It.

A Winona, Minn., druggist had been worried the other morning and his temper was none the sweetest. A customer called and got a pound

sulphur.
"How much?"
"Ten cents."
"Ten cents!" "Ten cents." exclaimed the purchaser. "Why, I can get a pound of sulphur at Blank's for a nickel, any day."
"Is that so?" snapped the druggist. "Well, if you go to hell, you'll get it for nothing."

Charles B. Hanford,

Charles B. Hanford.

The demand for Charles B. Hanford's productions for Shakespearean comedy, as evidenced by a volumnious correspondence with managers, has been so great that his tour this season covers to a large degree the same cities that accorded him such a brilliant and appreciative audiences last year. His company has been made in every respect superior to its predecessor, and its scenery and costumes

will be memorable examples of stage magnificence. Mr. Hanford will be at the Frazer next Monday, in "Much Ado About Nothing."

Humane Harness

This age of advancement forward steps are taken in harness making as well as other branches of manufacturing. The greatest improvement in harness is the new attachment which makes harness humane. This new improvement is a sliding device which is attached to the hames and breeching and gives the harness an opportunity to move with the action of the horse's body. It works on the same principle as the latest suspender. The advantages of the Humane Harness are many and among them are

> The comfort and ease they give to Horses wearing them; Will outlast the old style harness; does away with the back band; prevents the rubbing of the skin and thus prevents sores and blisters.

The Humane Harness is simple and made according to the most correct principles. No one interested in harness should fail to thoroughly investigate the new idea.

> Don't buy old style harness until you have seen the Humane Harness. It's a revelation in harness making.

The Humane Harness is manufactured under contract with the patentee, exclusively by us, we having the sole right in Umatilla county, and will prosecute infringements.

The Humane Harness device can be attached to any harness at a small expense. Come and let us show how nicely it works and how simple it is to attach it.
