Your brother took the civil-service examination, but he failed to guess the ect answer to a single question." What did they do with him?" Made him a weather prophet."

TO PREVENT FROST.

ifornia Man Invents a Novel Plan to Moderate Weather.

Ir. P. J. Bolton, who is the U. S. ather observer at Fresno, Cal., has cluated a most novel idea for the tection of fruit trees against losts his consists in an electric therneter, which is exposed to the air. which rings an alarm clock which temperature reaches a certain de-e, thereby warning the faitg two hustle out and raise the tempera-

making the average annual cost of the plant \$1.27 per acre. nd here is where the inventive ius of Mr. Bolton rises superior the weather.

the weather. Strung along through the rows be-cen the fruit trees are a number of a about 50 feet apart. These, are ch like a big flower pot, except it they have covers. They are to filled with crude oil, which be-c lighted, will burn for about six ars. The cover is kept on to pre-

Holds no customer responsible for more than the margin he places on a trade.

A margin of one cent a bushel is required on grain, and \$2 a share on stocks. An eighth cent a bushel commission is charged on grain and 1/4

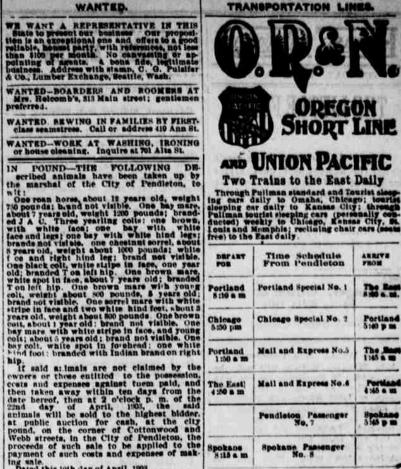

vent flames from issuing, and to mainvent flames from issuing, and to main-tain an even temperature. As a re-sult, the frosty air rapidly disappears and the life of the tree is saved. Thir-ty to 40 pots are considered about right for an acre. The company man-ufacturing the pots has arranged to place 1,000,000 on the market this year owing to the demand in the past. The pots should last five years. Three men with a warm can load 50 acres men with a wagon can load 50 acres of fire pots a day, and eight men can light the pots over the same acreage in two hours. The pots cost 20 cents each and the oil two cents per gallon

DEMAND IN ORIENT.

Consumption of American Goods of All Kinds Rapidly Increasing in China, Japan and the Philippines.

Allan Cameron, the Oriental agent

Allan Cameron, the Oriental agent of the O. R. & N. company, with head-quarters at Hong Kong, China, in a recent interview, said: "American goods of all kinds are rapidly increasing in consumption in China, Japan, India, Siam and the Philippines. Cotton goods, bicycles, canned goods, steel of all kinds, flour and machinery, including locomotives for interior railroads, electrical appli-ances, are coming over there by the ship load. The roads in China and thip load. The roads in China and Japan are the very finest hard finish-Japan are the very finest hard finish-ed macadam and are kept in splendid condition the year round. As they use no vehicles or horses in those countries to speak of, it is easy to keep the roads in fine shape. China-men and Japs have learned the use of the bike, which has to a large ex-tent taken the place of rickshaws, band costs and coolie carrying noise. hand carts and co Transportation in principally done coolies, who are p a day in Mexican want to load a sh the goods are pac house on the back which circles bet **R.
