CANAL AT RAPIDS

MAY MODIFY PLANS TO MEET ESTIMATES.

Will Also Examine the Proposed Route—Will Also Consider Moody's Suggestion of a Natural Channel From the Big Eddy to Cello.

Washington, April 15.—Representative Moody, before leaving Washington, had a final conference with members of the board of engineers having under consideration the opening of the Columbia river from The Dalles to Cello, and was informed that the board will meet in Portland May 11 to consider more fully all data that has recently been collected by Major Langfitt regarding the portion of the river to be improved.

Mr. Moody says that, while it is impossible to say what the board will finally report, its conclusions will largely depend upon calculations to be based on data that has been compiled by Major Langfitt, bearing on the several modifications of substitutions for the Harts project.

Mr. Moody also had under consideration with the engineers the removal of one of the reefs at Ten-Mile Rapids, with a view to facilitating steamboat navigation up to the lower end of the proposed state portage road. That proposition will be considered by the board when it meets. The board will probably visit the obstruction in the river and will determine for itself the need of blasting this reef. Having viewed the river during the summer, the board at its coming meeting will have opportunity to see the stream at the high stage of water and form a better idea of the volume of water to be controlled.

The board will make an extraordinary effort to devise a practical plan than can be carried out at a cost not exceeding Captain Hart's estimate for his original scheme, and there is some hope that such a plan may eventually be found. In the light of data that has been collected by Major Langfitt, the board will be able closely to estimate the cost of several modifications of the Hart's project that have been proposed and will also be able to estimate the cost of other schemes that have been brought forward by other engineers.

Mr. Moody has urged that, if the Hart's plan in an amended form is not agreed upon, the board seriously consider the proposition of a continu-

ous canal from the Big Eddy to Cello and determine whether or not such a canal can be built by making use of natural channels through the rocks to the south of the river, at a cost not greater than Hart's estimate. This suggestion will be investigated, and, if it proves feasible at reasonable cost, may be accepted, as the advantages of a continuous canal are recognized by many of the officers.

CROOKS FOLLOWING PRESIDENT

Army of Criminals Take Advantage of Crowds.

Butte, Mont., April 15.—Butte's police force is prepared to handle 100 skilled crooks, pickpockets in the main, who are following President Roosevelt's train. Most of these men are now in Montana. Chief of Police James Reynolds has now photographs and descriptions of almost every one of this army of grafters. A complete list of their names and outlines of their various methods of operation are also in his hands.

These are being given out to members of the force and a sharp lookout will be kept from this time on for any of the number. These men have come from the East. They are clearly acting under the direction of some experienced crook. Pocket picking and bunco playing are the specialties of most of them. They are systematically divided into small parties, each of which takes some one town to work. In this they are much like the array of crooks who followed President Roosevelt into Montana in 1900 and came to grief in Butte.

Miss Hawthorne Weds.

New York, April 15.—The Swedish church in East Thirty-fifth street was the scene today of the wedding of Miss Imogen Hawthorne, daughter of Mr. and Mrs. Juli Hawthorne and granddaughter of the famous novelist, Nathaniel Hawthorne, and Dr. Will Champion Deming, of Westchester, N. Y. The sisters and brothers of the bride, six in number, were the attendants.

Georgia Medical Association.

Columbus, Ga., April 15.—The Georgia State Medical Association began its fourth annual meeting in this city today with an attendance of prominent physicians and surgeons representing all parts of the state. The sessions are to continue several days, during which time more than 50 papers treating of subjects of interest to the fraternity will be presented and discussed.

NO GREASE OR DANGEROUS DRUGS.

In "Herpicide" The New Scientific and Successful Dandruff Treatment.

Have you dandruff? Then you have a contagious parasite disease, unpleasant, unhealthy, and one that will eventually lead to baldness. To cure it you must destroy the parasite that eats at the root of the hair. The only preparation for destroying these germs is Newbro's Herpicide. Charles Klein, of Laramie, Wyo., says: "Herpicide allayed the itching cured the dandruff and stopped my hair's falling out; and it is bringing a new crop of hair." Herpicide is free from grease or dangerous drugs, and makes hair glossy and soft as silk. One bottle will convince you of its merits. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. Sold by F. W. Schmidt & Co.

Easter Sale.

The annual Easter sale, under the auspices of the St. Agnes Guild, will take place at the Parish house Saturday afternoon and evening, April 18th, commencing at 2 o'clock. Light refreshments will be served.

Sick Headache absolutely and permanently cured by using Moki Tea. A pleasant herb drink. Cures Constipation and Indigestion, makes you eat, sleep, work and happy. Satisfaction guaranteed or money back. 25 cts and 50 cts. Write to W. H. Hooker & Co., Buffalo, N. Y., for a free sample. F. W. Schmidt & Co., druggists.

When a doctor permits a patient to eat anything he calls for, it is a sign that he is out of danger, or that there is no hope.—Acheson Globe.

GRAIN-O

THE PURE GRAIN COFFEE

If you use Grain-O in place of coffee you will enjoy it just as much for it tastes the same; yet, it is like a food to the system, distributing the full substance of the pure grain with every drop.

TRY IT TO-DAY.

At grocers everywhere; 15c. and 25c. per package

THE BEST MANUFACTURING COMPANY

STEAM AND HORSE POWER
COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and header, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire.

RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with it for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.

HIGHLAND STOCK

WILL BE ADVANCED IN PRICE

MAY 15th, 1903

Development at the Highland Mine Justifies an Advance in the Price of Stock. It is Much More Valuable Now Than When We Placed the First Allotment on the Market Some Two Months Ago.

CONSTANT DEVELOPMENT AND RESULTS

A crew of men have been constantly at work ever since we acquired this property and the Glasgow crosscut has now encountered and fully crosscut the ledge. In this crosscut we have opened up a body of ore sixteen feet in width carrying good commercial values.

In speaking of commercial values we mean ores which have a sufficient value to pay for the extraction milling and all other incidental expenses thereto, with enough of a margin left over to pay good dividends to the stockholders.

This large body of ore was not in the nature of a surprise, we simply expected it, as the surface developments showed this same large body of ore, and there was no reason why it should not be encountered in this crosscut and at this depth.

FUTURE DEVELOPMENT

We are now turning to drift on the ledge to the west from the crosscut in order that we may open up the richer ores at a greater depth which are found on the surface throughout the Bannockburn claim.

This line of development, we believe, will prove very interesting to all who are interested, or may become inter-

ested in the Highland mine, as it will certainly open up ore bodies rich in quality and in large quantities.

It will demonstrate that the Highland will rank as one of the largest producers in the district.

From now on the development work will be comparatively easy and not very expensive, as we will be drifting along the ledge where the ground is much easier to work than in the country rock which encases the vein. Every month will show a large increase in our ore reserves.

FREE TRIP TO THE HIGHLAND

To any one who wishes to invest a reasonable sum of money in the Highland mine, we will pay all traveling expenses to and from the mine for the purpose of his making a personal examination.

In offering you a free trip to the Highland we feel that this is proof within itself of the value of this property as it stands to reason that if we did not have a good mine there and all that we claim for it we could not offer you such an inducement.

We would be only too glad to have each and every one who contemplates the investment of money in mines, come out and look over this property and the district in general. In offering to pay your expenses out here and back we feel that we are not running any risk whatsoever as we know positively that no one, no matter how great

or conservative an expert or mining engineer he may be, could possibly, roughly speaking, "turn it down."

POOL YOUR INTERESTS

If you have not sufficient money yourself to justify you in coming to the Highland to look it over before investing, we would suggest that you and your friends make up a small pool and send one of your number out here to look over the Highland. In this way we believe you would get absolute information as to the value of the property you invest your money in, and you will also have an opportunity to learn all about the reputation, standing and ability of the directors of the Highland company.

OUR REFERENCE

We take pleasure in referring you to any bank, business man, or mining man in our own community.

SECURE STOCK NOW

If you wish to secure any of this stock while it is selling at the low price you should send in your order as quick as possible. Those who have not all the money on hand to pay for as much stock as they wish to purchase, may send us a portion of it and we will set the stock aside for you and you can pay the balance later.

THE PRESENT PRICE OF STOCK IS SIX (6) CENTS PER SHARE

NOTICE

In case all the stock we wish to sell you at this price should be sold before your order is received, we reserve the right to return you your money.

Address all communications, and make your checks, drafts and money orders payable to
