## FAVORABLE SHOWING.

Bradstreet Reports Only 2,640 Failures for the Months of January, February and March.

Bradstreet's report of business embarrassments for the first quarter of 1903 makes a highly favorable showing of commercial stability. There were only 2,640 failures reported for the months of January, February and March combined, a decrease of 12 per cent in number from last year and the year preceding and of nearly 2 per cent from the hitherto low-record total of recent years, that of 1900. Liabilities aggregated only \$28,016,996, a falling off of 18 per cent from last year and of 9 per cent from the low record of 1900. Failures, in fact, were the fewest reported since 1885, and liabilities the smallest since 1887. There was a decrease of 55 failures in the Pacific coast group of states, as compared with last year, the total being 142, with liabilities of \$884,792, compared with \$827,510, and assets \$464,891, against \$287,980 in 1902. For Washington the record shows 23 failures, with \$195,264 liabilities, and \$114,734 assets, against 23 failures with \$124,427 liabilities and \$71,668 assets for the first quarter of 1902.

## A Submerged "Bull."
