## NEWS OF MILTON

Milton, April 17.—A couple of Walla Walla Salvation women were in town Thursday, soliciting aid for missionary work in connection with the work of the Northwest.

If nothing interferes from now on, this valley will have the largest crop of fruit that it ever saw.

### FOR RIVER ROAD.

Supervisor Campbell Very Enthusiastic Over Grading and Putting on Crushed Rock.

Milton, April 18.—Road Supervisor Campbell gets more enthusiastic every day over the grading and putting crushed rock on the river road above town. He says that the first six miles of road can be graded and rocked to the width of 20 feet and eight inches deep, for \$5,000. The people along the road have subscribed \$2,000 and if the county court gives him \$3,000 and furnishes a crusher, he will show them that it can be done. This is the easiest piece of road in the county to grade and the rock along the line is porous enough that it will be no effort to pulverize it with a good crusher, and need not be hauled only one place more than a mile, as it lies loose all along the road and only needs to be shoveled into the crusher.

With Mr. Campbell's experience on the road and in handling men and teams there's no doubt but what he knows what his talking about. He says it's hard work to get any work of this kind started, but when once started it's just as hard to get it stopped, which fact we can vouch for, having lived in a country where rocks had to be quarried, crushed and hauled from three to eight miles to make pikes. Now, since it was started nearly every road in the county is completed. We hope that Umatilla county will start this good work and start it on this road, where it can be thoroughly tested.

Chicago, Ill., April 18.—Western passenger traffic officials confidently predict that this season's immigration to the West will far surpass that of any former year.
