THURSDAY, APRIL 30, 1903.

GENERAL NEWS.

In bulk, the world's product of potatoes equal that of wheat and corn combined.

Joseph Lygard has bought the Jewel properties, on the upper end of Manhattan Island, for \$20,000,000.

Three blocks, practically the entire business portion of Melbourne, Ia., was destroyed by fire Tuesday. The loss is \$43,000.

The supreme court has been asked for an order to compel A. J. Morunne, the French witness in the Fair will case, to answer questions.

While wrestling with a friend at his home in Pomfret, Conn., Albert Peterson, aged 40 years, was thrown in such a way that his neck was broken.

Worn out by watching at her husband's sick bed, Mrs. S. N. Browne, of East Orange, N. J., went insane. She was taken to the sanitarium and there took laudanum and died.

Twenty people gathered about the coffin of Mrs. Martin Myerhoffer at Chicago Monday afternoon were precipitated into the cellar with the corpse by the giving away of the floor. Seven were injured.

President Roosevelt will lay the cornerstone for a Y. M. C. A. building at Topeka, Kan., during the session of the International Convention of the Railroad Y. M. C. A., April 30 to May 3, in that city.

Great Britain has the following ships in course of construction: Eleven battleships, 19 armored cruisers, two second and four third-class cruisers, four scouts, two sloops, 19 destroyers, 18 torpedo boats and three submarines.

Giovanna Bavale has asked a New York magistrate for permission to carry a revolver. His life has been threatened for causing the arrest of five Italians, who, he says, attempted to extort money for defense of prisoners in the Madonna murder case.

At the session of the International Good Roads convention Wednesday, General Miles and William Jennings Bryan both spoke upon the subject of national highways, contending that government aid should be given such a project.

Besieged in the abbey, the Capuchin monks at Marseilles, France, underwent a regular siege Wednesday. The peasants of the vicinity have mounted guards at the convents to resist the dispersal of the priests by the French government.

PACIFIC NORTHWEST NEWS.

The postoffice at Woodburn was robbed Tuesday night.

Bad water has caused an epidemic of typhoid fever at Eugene.

Smith, the colored wife murderer of Portland, will hang on June 5.

William Robinson, a dope fiend of Seattle, has fallen heir to \$150,000.

Commander Booth Tucker spoke to an audience of 2000 in Portland Wednesday.

Colonel W. W. Robinson, a retired army officer, aged 84, died Wednesday at his home in Seattle.

Grant's Pass will hold a street fair and carnival under the auspices of the Woodmen on June 15-21.

Clark C. Lyons, of Cottage Grove, died Wednesday, aged 80 years. He was an Oregon pioneer of 1852.

The strike in Portland is still in a critical state and there are no indications of an early settlement.

Louisa M. Clark, a well known pioneer woman of Portland, died Wednesday after a lingering illness.

The union employes of the Sumpter Lumber Company went on strike Wednesday and the plant is closed down indefinitely.

The O. R. & N. is preparing to make a reduced fare from the East during the summer months, so tourists may see Oregon in bloom.

An epidemic of measles is now raging among Seattle school children. Two deaths have occurred and over 50 cases have been reported.

Dan Lynch, a laborer of Portland, was struck Wednesday morning by a Southern Pacific freight train and died Wednesday night of his injuries.

Five human skeletons were found this week in the Salton desert of California, making a total of 18 found since the irrigation plans have been started on the desert. The persons are supposed to have died of thirst in trying to cross the bed of the Salton sea.

DISTRIBUTING ALFALFA SEED.

O. R. & N. Sending Out Packages of Seed for Experiments on Dry Land.

The O. R. & N., through R. B. Miller, general freight agent, and R. C. Judson, industrial agent, is sending out about 100 packages of alfalfa seed to various points in the dry region of the Inland Empire, for the purpose of having experiments made upon the driest soil to be found.

Each package contains enough seed to plant about 15 feet square and explicit instructions for preparing the ground and cultivating the plants are sent with each.

While this small amount of seed may seem insignificant, yet the O. R. & N., through this method, pursued by the industrial department for a period of five or six years, has demonstrated that alfalfa can be grown successfully on land that is now considered unfit for agricultural purposes.

At Coyote station, in Morrow county, the company has just planted 15 acres of alfalfa, which will be carefully and scientifically cultivated with a view to thoroughly testing the producing capacity of the sandy soil in that locality.

R. C. Judson, of the industrial department, has conducted some successful experiments with grasses and forage plants at different points along the line of the O. R. & N. with the result that many farmers and stockmen have been enlightened on the subject of growing grasses on the arid foothill lands of Eastern Oregon. The experiments being made by the company are watched with deep interest by those who hope for the final reclamation of the Eastern Oregon deserts.

STATE OF OHIO.

CITY OF TOLEDO, Lucas County.

Frank J. Cheney makes oath that he is the senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence this 6th day of December, A. D. 1899.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c. Hall's Family Pills are the best.

Road in Dangerous Shape.

The condition of what is called the "Pat Kline Hill," at the first river crossing east of the city, is giving a good deal of concern. Parties who pass the hill every day stated to the reporter yesterday that in their opinion there is liable to be a slip at any hour of the day or night that will take the entire roadway for a distance of 60 or 75 feet, into the river. The soil, the bed rock and the character of the work hitherto done on the strip give rise to the opinion that all that is needed to perpetrate such an accident would be for a train of loaded wagons to pass along the defective roadway. Already some of the roadway has caved off and a few panels of fencing have been put up to prevent travelers driving into the hole.

Stock Farm for Sale.

We have the Jas. Lindsay farm, near Alba for sale. It consists of 640 acres, 140 acres in timothy; more than 200 acres in wild hay, which will grow timothy. A portion will grow wheat and barley, balance pasture; abundance of water. All fenced; good buildings.

Will sell in one, two or three tracts. Easy terms.

BENTLEY & HARTMAN.

Moki Tea positively cures Sick Headache, Indigestion and Constipation.

A delightful herb drink. Removes all eruptions of the skin, producing a perfect complexion or money refunded. 25c and 50c. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. F. W. Schmidt & Co., druggists.

For Sale.

Three-quarter sections of good wheat land, of which one-half is in grain, and all lies five miles northeast of the city. A dwelling, two barns and other outbuildings, and a good water system. Call at Oliver & Co.'s grocery, or at the home of W. W. Rigby, 704 Thompson street.

A Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c at Tallman & Co.'s drug store.

FIRST LEAGUE GAME

COLFAX AND PENDLETON LINE UP TODAY.

Four Additional Players Secured—Most of the Boys on Home Team Have Been With North Yakima.

The first baseball game of the league schedule was played this afternoon. The game was scheduled for 3:30 and all the local fans hope for victory. The line-up of the local team has not been definitely settled as yet, though the management has secured the services of four men additional to the list published last evening. The new men are Clarence and Claude Penland, Babe Brown and Geo. Marquis. All the men are certain to be here with the exception of Marquis, and it is expected that he will arrive on time. He will be here for tomorrow's game sure.

The personnel of the Colfax team and their positions is given below: West, ss; Cline 3b; Bernard, lb; Ripley, lf; Miller, 2b; Lawrence, cf; Ripel, rf; Case, catcher and Somers pitcher and captain.

Dr. McPhee is the manager of the team and hopes great things from his colts. While they have not been together long and their team work is somewhat ragged, he expects them to give a good account of themselves in today's game.

The majority of the Pendleton team has been with North Yakima since the opening of the season and are in fit condition for the game. Of course, they have had no work in the places they will play here and what they can do is problematical. However, they are all good men and will quickly slip into their places.

The band will give the two teams a send-off before the game today.

A big crowd is expected to see the opening game of the season.

IN THE STREET.

City Is in Need of a Location for the Hose House on North Side.

The North Pendleton hose houses has no place whereon to rest its ever-changing foundation. The owners of the lot at the corner of Jackson and Perkins streets want their ground, and the owners of the other desirable locations in that vicinity do not like to lease their property.

The city doesn't jump at the chances of any real estate investment and is loath to rent, in the meantime the hose house is up against it. It can't stand where it is, and it has no place to go. The committee having charge of the matter had a happy thought, however, and have decided to move the homeless edifice out into the street and let it stand "until further notice."

There is one location available, the old cemetery ground, but that is too far down the hill to suit the fire ladders. They want the cart to be at the top of the hill. Then they could break the record going to fires. On the return time would not be long. The owners of the high land want prices in proportion to the altitude of their property, and so the matter stands. The house, as has been stated, also stands or will stand in the street. Anyway, it is better there, for the firemen can find it easier in the dark.

An Era of Co-Operation.

"The dairymen over in Kittitas valley have formed a co-operative company for the handling of products of the dairy farms," said W. R. Lee, who has been looking after property interests at Ellensburg. "They have leased a building, purchased machinery and employed men to operate the creamery. The butter is sold through authorized agents, expenses deducted, and the remainder of the money divided. It is claimed that the returns are much better than by selling milk through the old channels, and every man becomes a part owner in the business. This is but the natural trend of public thought in the manipulation of finances. An era of co-operation in the true business spirit has dawned on the many industries of the Northwest. It is an indication of safer, better and more satisfactory financial days."

For Sale—Residence with one, two or three lots, located at 517 Jaac street. Call at house.

CLIMATE AND CROPS.

Weekly Crop Bulletin for the Oregon Section of the United States Department of Agriculture.

Portland, April 30.—The weather during the past week has been favorable to all crops, except that more rain is needed in the Grand Ronde valley, and in the stock country east of the Cascade mountains. The soil works nicely and farmers are busy plowing summer fallow and preparing the land for corn, potatoes and gardens.

Late reports regarding the damage to alfalfa in Baker and Malheur counties, are to the effect that it is not as great as at first thought. The damage is confined to the bottom lands while alfalfa on high lands has not suffered any injury. Previous reports as to damage to early varieties of fruit in the southern sections of the state are confirmed, but apples and late varieties of peaches and pears promise a full crop.

Strawberry vines in the Hood river district are beginning to blossom, and the vines are healthy and promising. Fruit of all kinds in the Willamette valley and the coast counties is now in full bloom, and in general, fruit prospects are considered to be exceptionally good.

Wheat, both fall and spring, has made excellent advancement and there remains but little seeding to be done. Pastures have improved greatly and stock is rapidly being turned out on the summer ranges. Sheep shearing is general, and the few reports received indicate that the clip will be below the average. The increase of lambs is unusually small.

Columbia River Valley.

Ridgeway, Wasco county, M. U'Ren.—Rain and cloudy weather first of the week; seeding all done; spring and fall sown grain doing well; cherries, peaches and plums in bloom; weather too cold for gardens to do well.

Grass Valley, Sherman county, H. W. Wilcox.—Warm all week; nearly all of the spring seeding done; fall grain has commenced to show green; a fine rain Tuesday which will cause spring crops to come up at once.

Arlington, Gilliam county, R. H. Robinson.—All kinds of grain, fruits and vegetables doing nicely; light showers the past week have been beneficial; spring plowing done.

Lexington, Morrow county, Edwin K. Bench.—The week was warm, with a light shower of rain on all kinds has pushed rapidly; potatoes coming up; fruit blossoms appearing in great profusion; weeds getting rank; and the grain shooting up; prospects in general are now good.

Hells, Umatilla county, S. L. Isaacs.—Weather very favorable for growing crops; all have made marked improvement; fall sown crops, particularly, make a fine showing; spring sown, somewhat late, but healthy; gardens backward; farm work progressing rapidly.

Plateau Region.

Summerville, Union county, C. Cott.—Days bright and warm; nights frosty; no damage has resulted; early fruit ready to blossom; fall grain standing nicely; plowing in progress and ground plows up well; grass improving and range stock doing well; gardening commenced.

Traffic on the Cincinnati Southern railroad, near Greenwood, Ky., Monday night was blocked by a freight wreck.

Purity Of Our Drugs

That's the point we are trying to impress on the public mind. When a clean, pure drug stock is spoken of we want that to refer to our store. We're doing all we can to merit that title. It's the main point of our business. We think about it and talk about it all the time. Bye and bye you'll bear this in mind if you haven't already. There is no extra charge for this purity. Together with accuracy it's our inducement for your prescription trade. We are careful and prompt with mail orders

Sharples Tubular Dairy Cream Separator

Beats them all for close skimming and easy running, no disc or bowl complications whatever

The closest skimming and easiest to separate yet produced, securing under the adverse circumstances as regards to quality, condition and temperature of the milk, heretofore considered impossible. It delivers smooth, frothless, perfect cream that will cut out more butter than can be obtained from other Separator in existence. It is thoroughly and completely washed inside of five uses, as there are only three pieces to be taken apart. The Sharples Tubular machines are simple and durable made, and can be maintained at a less cost for oil and renewal parts than any other Separator on the market. For catalogue, address:
