OWL TEA HOUSE

HELIX HAPPENINGS

REV. HUGULET PREACHES HIS FAREWELL SERMON.

Mrs. J. H. Bott and Daughter are Improving—Personal Notes—Ladies of Maccabees to Give Entertainment. Helix, Ore., April 30.—Mrs. J. K. Bott and daughter, Maude, who have been quite ill are now improving.

Mr. and Mrs. Ben L. Leland drove to Athena yesterday.

B. B. Richards was also an Athena visitor yesterday.

Charles Alspach and Alex Montgomery went down to Pendleton Monday.

Mr. and Mrs. Stewart, of Milton, are in this city.

Mrs. Belle Murphy, who has been visiting her parents, Mr. and Mrs. R. S. Grant for the past week, returned to her home in Seattle Saturday night.

Ed Rush went to Pendleton yesterday on business.

Misses Elsie and Teresa Grant and Miss Amelia Robnavitz, of Pendleton, who have been visiting the Misses Grants' parents, were callers at the home of Miss Pearl Smith Monday morning.

Mrs. Thrasher and son, of Umatilla, spent Tuesday in this city.

Mrs. Benson and daughter, from near Walla Walla, have been visiting at the home of the former's mother, Mrs. Catherine Stanton, of this place.

Rev. Hugulet, of the Baptist church of this place, preached his farewell sermon Sunday evening and left for Seattle Monday evening.

The Ladies of the Maccabees contemplate giving an entertainment some time in June in this city.

Born to Mr. and Mrs. Daubner of this place on April 24, a son.

Charles Keen was in Helix Sunday.

Lillian Morrow is visiting at the home of her grandparents, Mr. and Mrs. J. F. Hill, of Cold Springs.

Clyde Bott is very sick with influenza.

Vansycle Letter.

Vansycle, Ore., April 28.—The grain in this section of the country is in need of a good rain, although it is looking fairly well.

Mr. Ben Stanton left for a trip to Franklin county, Wash., last evening with intentions of breaking land.

Joseph Ringle is intending to move over to the reservation to summer fallow 600 acres. Plowing is pretty well along in this section.

There will be a dance given at Mr. Ringle's granary at Stanton May 8. Plenty of good music. Supper will also be served. There is a good floor and plenty of room. A good time is expected.

Acker's Blood Elixir positively cures Chronic Blood Poisoning and all Scrofulous affections. At all times a matchless system tonic and purifier. Money refunded if you are dissatisfied. 50c and \$1.00 F. W. Schmidt & Co., druggists.

"CALIFORNIA."

One of the Most Delightful Attractions on the Road Next Tuesday Night.

There has been many successes staged at the Frazer in the past, but it is safe to say that none of them contain more real merit than "California." Few plays before the public today have met with as much praise and success in years as "California." It has come rapidly to the front on its own merits and is now pronounced one of the foremost of all melodramatic attractions. The story of the play is a strong one, yet simply and directly told. There are no impossible situations, no trick scenery, and contains none of those features which cause an intelligent audience to become dissatisfied.

"California," although a splendid success as a drama, is not alone the attraction. Miss Rae Bronson as Dolores, the betrayed Spanish girl, looks and plays the part to perfection. Her gowns are admired by all lovers of exquisite models of the tailor's art. She does not depend on even these for Dolores was played with great feeling and intensity and proved herself to be an actress of rare abilities. Her rendition of this beautiful character can be truly said to be an absolute triumph. At the Frazer, Tuesday, May 5.

News of Wild Horse.

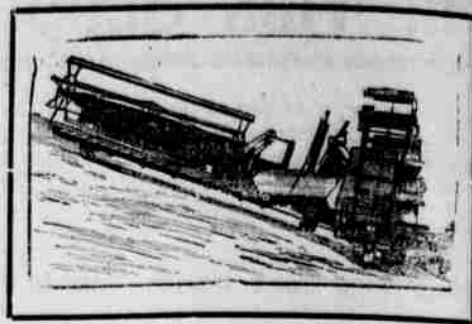

R. M. O'Brien has returned from Wild Horse mountain and the vicinity of Weston. He states that the promise for apples, peaches and pears is first-class, and the strawberry vines are in fine condition. The soil everywhere is in fine condition and seeding of spring crops about ended. The grain needs open, warm weather to develop the tops, but the roots are in good condition. There was from an inch to an inch and a half of snow on the mountains last Sunday, but it could not affect the growth of grass with which the pasturage districts is covered, except to delay its top growth for a few days.

There are a few cases of smallpox in that vicinity, and some measles, but the general health is good. It is worth while to mention in this connection that the article in yesterday's East Oregonian entitled "Campbell system," was a narrative of R. M. O'Brien's experiments, whereas by some blunder not now located, his first name is given in that article as William.

New Engines Arrive.

Two more monster compound freight engines, Nos. 312 and 313, have arrived from the Baldwin shops in Philadelphia, and are now being connected up in the La Grande roundhouse. This makes a total of 14 freight engines of this type now in use on the mountain division of the O. R. & N. The company expects to take all the light engines to the Dalles division soon, leaving nothing but the heavy power on the mountain. The 14 freight and six passenger engines of the compound type, purchased within the past 18 months, represents an outlay of \$200,000 in new power for the mountain division.

THE BEST MANUFACTURING COMPANY STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and harrow, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch iron RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with it for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.

TEMPLE & WILCOX,

Price \$35.

Equal to any \$100 Machine. They are also agents for other Stamp Goods.

HIGHLAND STOCK

WILL BE ADVANCED IN PRICE

MAY 15th, 1903

Development at the Highland Mine Justifies an Advance in the Price of Stock. It is Much More Valuable Now Than When We Placed the First Allotment on the Market Some Two Months Ago.

CONSTANT DEVELOPMENT AND RESULTS

A crew of men have been constantly at work ever since we acquired this property and the Glasgow crosscut has now encountered and fully crosscut the ledge. In this crosscut we have opened up a body of ore sixteen feet in width carrying good commercial values.

In speaking of commercial values we mean ores which have a sufficient value to pay for the extraction, milling and all other incidental expenses thereto, with enough of a margin left over to pay good dividends to the stockholders.

This large body of ore was not in the nature of a surprise, we simply expected it, as the surface developments showed this same large body of ore, and there was no reason why it should not be encountered in this crosscut and at this depth.

FUTURE DEVELOPMENT

We are now turning to drift on the ledge to the west from the crosscut in order that we may open up the richer ores at a greater depth which are found on the surface throughout the Bannockburn claim.

This line of development, we believe, will prove very interesting to all who are interested, or may become inter-

ested in the Highland mine, as it will certainly open up ore bodies rich in quality and in large quantities.

It will demonstrate that the Highland will rank as one of the largest producers in the district.

From now on the development work will be comparatively easy and not very expensive, as we will be drifting along the ledge where the ground is much easier to work than in the country rock which encases the vein. Every month will show a large increase in our ore reserves.

FREE TRIP TO THE HIGHLAND

To any one who wishes to invest a reasonable sum of money in the Highland mine, we will pay all traveling expenses to and from the mine for the purpose of his making a personal examination.

In offering you a free trip to the Highland we feel that this is proof within itself of the value of this property as it stands to reason that if we did not have a good mine there and all that we claim for it we could not offer you such an inducement.

We would be only too glad to have each and every one who contemplates the investment of money in mines, come out and look over this property and the district in general. In offering to pay your expenses out here and back we feel that we are not running any risk whatsoever as we know positively that no one, no matter how great

or conservative an expert or mining engineer he may be, could possibly, roughly speaking, "turn it down."

POOL YOUR INTERESTS

If you have not sufficient money yourself to justify you in coming to the Highland to look it over before investing, we would suggest that you and your friends make up a small pool and send one of your number out here to look over the Highland. In this way we believe you would get absolute information as to the value of the property you invest your money in, and you will also have an opportunity to learn all about the reputation, standing and ability of the directors of the Highland company.

OUR REFERENCE

We take pleasure in referring you to any bank, business man, or mining man in our own community.

SECURE STOCK NOW

If you wish to secure any of this stock while it is selling at the low price you should send in your order as quick as possible. Those who have not all the money on hand to pay for as much stock as they wish to purchase, may send us a portion of it and we will set the stock aside for you and you can pay the balance later.

THE PRESENT PRICE OF STOCK IS SIX (6) CENTS PER SHARE

NOTICE

In case all the stock we wish to sell you at this price should be sold before your order is received, we reserve the right to return you your money.

Address all communications, and make your checks, drafts and money orders payable to
