Robbed the Grave.

A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite growing weaker day by day. Three physicians had given me up. Then I was advised to try Electric Bitters, to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed at Tallman & Co.'s drug store.

SPEAKS ABOUT FAIR

MRS. WETHERED INTERESTS PUBLIC SCHOOL PUPILS.

Wants Their Assistance in Making a Complete Exhibit of Wild Flowers—Also Wants Grains and Grasses.

Mrs. Edith Tozier Wethered spoke to the pupils of the high school in Miss Shepard's room this morning on the Lewis and Clark fair. She outlined what the board wished the school children of the state to do to help the fair and followed her remarks on that subject by a brief account of her trip to Cuba shortly after the close of the Spanish war. She said in part:

"I am always glad to speak to the pupils of the public schools for it is not very long ago that I was sitting in the school room as a school girl. It is never too late to learn, and a person is never too old to go to school, though they may be ashamed to attend and find so many younger, who know so much more.

"I want to speak of the importance of the school children's interest in the Lewis and Clark fair. The board wants the most complete exhibit of wild flowers ever gathered together for any exhibition. A systematic classification of the flowers of the Eastern and of the Western parts of the state, and it wants the school children to gather them. It also wants to collect all of the best examination papers submitted from now until the fair for the school exhibit. At Omaha, our school exhibit took the gold medal and was a great surprise to the Eastern teachers. At the close of the fair the exhibit was loaned to the Omaha schools. The board also desires a collection of grains and grasses, and it wants the farmer boys of Eastern Oregon to bring in some prize-winning sheafs of wheat and other grains. A prize will be given to the best sheaf or sheafers submitted."

Continuing, Mrs. Wethered spoke of her trip to Cuba. She said that it was hard to realize a country so foreign as Cuba to be so close to the United States. While there she went surf bathing on the beach and the natives caught a man-eating shark from the beach.

The wreck of the *Maine* was visible as they passed, and while the ships sailed by all the sailors fired the deck and stood with bowed heads, the ships bells being tolled the while in memory of the heroes sent so treacherously to their deaths.

Cuba is the worst place in which to eat in the whole world, unless you except the railroad eating house at La Grande. The coffee is like molasses.

While there Mrs. Wethered, had much difficulty in making herself understood to the waiters and finally got a few pictures of eggs, beef a pitcher of milk and various articles. These she laid on the table and the waiter filled her orders by them.

Each institution has sent its chosen orator and the contest promises to be one of the best in the history of the league.

"California."

"California" is not a western melodrama filled with guns and pistols, but contains a beautiful story dealing with the truth and founded upon reason. It is very easy to see why it has been successful, for it is refined and natural and devoid of cheap sensationalism. "California" is a play you will see again and again, for it is true to life and is produced with a wealth of special scenery, superb costumes and effects.

Miss Rae Bronson is one of the features of "California"; with her great beauty, dash, superb voice and her splendid ability, you forget all else but the enjoyment of the play. "California" is indeed a great attraction and it has been a long time since we have enjoyed its equal, and we will hope next year to see it again and with Miss Bronson in the cast.—Goshen (Ind.) Tribune.

Develop Stone Quarry.

Mrs. S. W. Leach has bought two lots adjoining on the westward the lots where she will build her sanitarium, and is having the ground stripped to uncover the rock. Her first purpose is to develop a stone quarry and use the product in the foundation of the new building, and thus avoid buying rock and hauling it a considerable distance and up hill.
