

NEWS FROM ECHO

KENNISON BROS. SUCCEED WITH IRRIGATION SCHEME.

O. R. & N. Officials Well Pleased With the Echo District—President of Dairy Company Pronounces it an Ideal Dairy Country.

Echo, Or., April 30.—Senator C. F. Clapp, of Port Townsend, George H. Stevenson and H. F. Connor came in on yesterday morning's train and spent yesterday and today driving over Umatilla Meadows and Butter Creek. They are well pleased with the country and will no doubt invest in land here. Mr. Stevenson is the confidential man of the O. R. & N. and has been with them for about 20 years. Mr. Connor is a prominent attorney of Portland and is also connected with the O. R. & N.

David Brown, president of the Hazlewood Dairy Company, of Spokane, who is always looking for more cream, came in on yesterday's train and spent yesterday and today in driving over the country and talking with the people here. He pronounces this an ideal dairy country and when one stops to think that he is president of a company that has paid out within the last year over a million dollars in the three places where they are operating, Spokane, Portland and Sioux City for butter fat, one can readily see that he comes near knowing what he is talking about. Mr. Brown was well pleased with his trip here and met with much encouragement from the people; a number of them saying they were contemplating a trial of the dairy business as the public range was gone and the

growing of beef cattle was bound therefore to be less remunerative.

W. W. Hoagland, of Spokane, is here again looking for investment.

O. D. Teel returned recently from North Yakima, where he went to study the system of irrigation practiced there. Mr. Teel is seeding quite a number of acres this spring. He says the Yakima system is all right for rolling lands, but that the check system as practiced here, is the only system that promises success in a flat country.

The Kennison Bros., who a short time ago put in a gasoline engine for pumping water from the river, are succeeding handsomely with their undertaking. They have a three-horse power and are lifting the water a distance of 13½ feet. They think they will be able to irrigate between 70 and 80 acres with the one engine. They are using a four-inch pipe and a centrifugal pump.

Program for German Agriculturists.

New York, May 1.—Forty-six German agriculturists will arrive in New York tomorrow. They will cross the continent and make a trip of 10,000 miles to study methods of farming and stock raising. Among them will be feudal land barons, scientists in the government service and students of agriculture.

J. L. Schultz of the United States department of agriculture, is here to meet the visitors and two special cars are ready to take them on their long tour. They will travel by a southern route to California, up the Pacific coast and return to the Atlantic through the northern tier of states. The trip has been arranged to enable the visitors to inspect the great wheat regions of the West, the orchards of the North, the stock farms of the South and West, and the packing houses of Kansas City and Chicago. The tour will occupy nearly two months.

Interchangeable Mileage.

New York, May 1.—The new interchangeable mileage book recently adopted by the passenger departments of leading trunk line railroads comes into use today. It is good on the Pennsylvania railroad, Baltimore & Ohio, Delaware, Lackawanna & Western, Lehigh Valley, Erie and the Chesapeake & Ohio railroads. The books are issued at the rate of \$30 for 1000 miles, which is \$10 a book more than has been charged heretofore. But the extra amount is to be returned to the purchaser if he lives up to the contract. This arrangement is made to prevent the books getting into the hands of "scalpers."

For Sale.

Three-quarter sections of good wheat land, of which one-half is in grain, and all lies five miles northeast of the city. A dwelling, two barns and other outbuildings, and a good water system. Call at Oliver & Co.'s grocery, or at the home of W. W. Rigby, 704 Thompson street.

Lots for Sale.

I offer some nice lots on the north side near the river. No grading needed. Price \$200 to \$300. N. T. Conklin.

CHRONIC SORES

Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder. The taking of strong medicines, like mercury or potash, will sometimes so pollute and vitiate the blood and impair the general system that the merest scratch or bruise results in obstinate non-healing sores of the most offensive character.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the

polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health. If you have a chronic sore write us. No charge for medical advice.

HERPICIDE

BEAUTY IS NEVER COMPLETE

without a thick, luxuriant head of soft, glossy hair, which is in truth "woman's crowning glory." The faithful use of Newbro's Herpicide never fails to produce hair of this character, for, by destroying the deadly germs that feed upon the oil of the hair root, it makes dandruff, falling hair and all scalp diseases impossible. It then promotes a new and thick growth to replace the old thin, brittle hair.

One bottle will verify these statements. For Sale at all First-Class Drug Stores.

DANDRUFFENE

An antiseptic absorbent guaranteed to Cure Dandruff, Eczema and all Scalp Diseases in

SEVEN DAYS

Dandruffene renders the scalp pliant and elastic. It is a marvelous hair restorer.

Ask your druggist for Dandruffene. It is sold by first-class druggists. Sold in Baker City by A. Levinger.

HIGHLAND STOCK

WILL BE ADVANCED IN PRICE

MAY 15th, 1903

Development at the Highland Mine Justifies an Advance in the Price of Stock. It is Much More Valuable Now Than When We Placed the First Allotment on the Market Some Two Months Ago.

CONSTANT DEVELOPMENT AND RESULTS

A crew of men have been constantly at work ever since we acquired this property and the Glasgow crosscut has now encountered and fully crossed the ledge. In this crosscut we have opened up a body of ore sixteen feet in width carrying good commercial values.

In speaking of commercial values we mean ores which have a sufficient value to pay for the extraction milling and all other incidental expenses thereto, with enough of a margin left over to pay good dividends to the stockholders.

This large body of ore was not in the nature of a surprise, we simply expected it, as the surface developments showed this same large body of ore, and there was no reason why it should not be encountered in this crosscut and at this depth.

FUTURE DEVELOPMENT

We are now turning to drift on the ledge to the west from the crosscut in order that we may open up the richer ores at a greater depth which are found on the surface throughout the Bannockburn claim.

This line of development, we believe, will prove very interesting to all who are interested, or may become inter-

ested in the Highland mine, as it will certainly open up ore bodies rich in quality and in large quantities.

It will demonstrate that the Highland will rank as one of the largest producers in the district.

From now on the development work will be comparatively easy and not very expensive, as we will be drifting along the ledge where the ground is much easier to work than in the country rock which encases the vein. Every month will show a large increase in our ore reserves.

FREE TRIP TO THE HIGHLAND

To any one who wishes to invest a reasonable sum of money in the Highland mine, we will pay all traveling expenses to and from the mine for the purpose of his making a personal examination.

In offering you a free trip to the Highland we feel that this is proof within itself of the value of this property as it stands to reason that if we did not have a good mine there and all that we claim for it we could not offer you such an inducement.

We would be only too glad to have each and every one who contemplates the investment of money in mines, come out and look over this property and the district in general. In offering to pay your expenses out here and back we feel that we are not running any risk whatsoever as we know positively that no one, no matter how great

or conservative an expert or mining engineer he may be, could possibly, roughly speaking, "turn it down."

POOL YOUR INTERESTS

If you have not sufficient money yourself to justify you in coming to the Highland to look it over before investing, we would suggest that you and your friends make up a small pool and send one of your number out here to look over the Highland. In this way we believe you would get absolute information as to the value of the property you invest your money in, and you will also have an opportunity to learn all about the reputation, standing and ability of the directors of the Highland company.

OUR REFERENCE

We take pleasure in referring you to any bank, business man, or mining man in our own community.

SECURE STOCK NOW

If you wish to secure any of this stock while it is selling at the low price you should send in your order as quick as possible. Those who have not all the money on hand to pay for as much stock as they wish to purchase, may send us a portion of it and we will set the stock aside for you and you can pay the balance later.

THE PRESENT PRICE OF STOCK IS SIX (6) CENTS PER SHARE

NOTICE

In case all the stock we wish to sell you at this price should be sold before your order is received, we reserve the right to return you your money.

Address all communications, and make your checks, drafts and money orders payable to
