

WE BELIEVE IN DOCTORS

We believe that every man when he is sick should call a doctor, and not try to "doctor" himself. We believe there would be far less sickness—far better health—if everybody would do everything possible to co-operate with doctors in taking better care of their health. We believe that the best way, always, is to have a doctor see what the matter is, and write a prescription for it, and then have a reliable druggist prepare the medicine according to the prescription.

Pendleton DRUGGISTS Oregon

SATURDAY, MAY 2, 1903.

Warriors and statesmen have their meed of praise. And what they do or suffer, men record. While the long sacrifice of woman's days Passes without a thought, without a word! And many a holy struggle for the sake Of duty, sternly, faithfully fulfilled, For which the anxious soul must watch and wait, Goes by unheeded as the summer wind, And leaves no memory and no trace behind, Yet it may be more lofty courage dwells In one meek heart that braves an adverse fate, Than his whole ardent soul indignant swells Warned by the fight or cheered by high debate. —Mrs. Hemans.

The Eugene school district has voted \$35,000 bonds for the purpose of erecting a new high school building.

Measuring the success of the coming Fourth of July celebration by that of the May day exercises, Pendleton can look forward to the best celebration in her history. The Progress Club deserves the highest credit for the success of its first undertaking.

Binger Hermann declines to debate the political issues of the day with his opponent, A. E. Reames. The people will welcome the day in Oregon when a nomination on the ticket of the strong side does not mean an election. Some other qualification beside that of belonging to a winning party, should be required of the public official. When men are forced to make a mental effort to get office, the government and the people will fare better.

A number of islands never charted on any map, have been found in the southern part of the Philippine archipelago, and of course they count as part of our possessions. It is said they are valuable, but it may be their chief value will be that of affording positions for civil officials who may be sent down to take charge of them. In fact, further explorations in the archipelago may bring to light such a number of uncharted isles that it will be possible for Uncle Sam to console applicants who fail to get an office by giving them an island to play with.

There is now a possibility that the portage road will be delayed until the general government can surrender its claims to the proposed right of way. A board of government engineers was appointed in 1902 to report upon the feasibility of the boat canal around the obstructions, and this board now has the route under advisement. The war department cannot surrender its prior claim on the prospective route, until relieved by congress of the duties imposed upon it by the act of 1902. Fate, railroads and congress combine against the Eastern Oregon shipper. It seems.

There are fifteen United States senators who are millionaires, possessing in the aggregate about \$118,000,000, while the wealth of each runs from \$2,000,000 to \$20,000,000. A New York special to the Cincinnati Enquirer gives the names of this "millionaire club" of the senate as follows: Russell A. Alger, \$20,000,000; Levi Ankeny, \$10,000,000; Thomas R. Bard, \$2,000,000; William A. Clark, \$15,000,000; Chauncey M. Depew, \$2,000,000; John F. Dryden, \$2,000,000; Stephen B. Elkins, \$20,000,000; Marcus A. Hanna, \$10,000,000; John Kean, \$5,000,000; Redfield Proctor, \$10,000,000; Matthew S. Quay, \$2,500,000; Nathan B. Scott, \$4,000,000; George P. Wetmore, \$20,000,000.

The Adams Advance is greatly concerned over the fact that the residents of the west end of Umatilla county are to petition the county court for a new bridge in Pendleton. No matter

how hard people fight against progress. It overwhelms them sooner or later. Umatilla county needs miles of new roads, dozens of new bridges and numerous other public improvements which will come in due time. Because one bridge served this portion of the county twenty years ago, is no argument against another bridge now, to accommodate the fastly increasing population, and the corresponding increase of travel and traffic. Because a "calf path" answered for a county road a quarter of a century ago, is no argument now against good county roads. The county court is a progressive body of men and will readily recognize the merits of all improvements demanded by the citizens of the county.

EXTREMES OF THE WEST.

At Greeley, Col., the special presidential train will stop thirty minutes and Roosevelt will eat a "cowboy breakfast" which will be arranged by the stockmen of that vicinity.

The party of two or three hundred visitors will have their mess wagons on the ground and will cook breakfast on the campfire, just as it would be cooked on the "round up."

Every man will be seated on the ground and will feast on bacon and scrambled eggs from tin plates. Each man will hold his saddle horse by the rein, ready for instant mounting, just as in the "round up."

Roosevelt will sit on a saddle blanket, with his legs crossed under him and will recall for twenty happy moments the life he led once, himself, on the Western plain.

At San Francisco, a banquet has been arranged for the president and party at the Palace Grill rooms. Tickets to this banquet will cost \$20, and the guests will be confined to an exclusive set, known as the Commercial Association.

Every luxury that can be scraped up, from the jewelled array of Californian splendors, will crown this feast.

The coldest, most unbending, mechanical formality and regularity will mark the progress of this banquet. Without hesitating an instant to study the man or the surroundings, it is safe to say that Roosevelt will enjoy most thoroughly that rough Greeley breakfast, where the spontaneity of Western life can speak at will, free as the breezes from the glistening peaks overlooking the scene.

SCIENTIFIC LIAR.

Dr. J. W. Fewkes, an assistant anthropologist of the Smithsonian institution, and one of the best known scientists in the employ of the government, has carried the news to Porto Rico that the United States is preparing to go to war with Germany. The Porto Ricans, desiring to show their patriotism, are turning over to Dr. Fewkes by the bushel their ancient stone axes to be ground into powder for the use of the United States army and navy in the terrific clash he has told the Porto Ricans is scheduled to occur between the United States and Germany.

According to the report that has reached here from San Juan, the American scientist had to resort to this harmless little deception, as his confederates in government scientific circles call it, in order to induce the guileless Porto Ricans to part with their precious stone axes, or "thunder bolts," as they are known among the descendants of the aborigines of the island. They are valued above money and above price.

Dr. Fewkes was sent to Porto Rico a few weeks ago to study the early history of the island from the anthropological standpoint. Among the most interesting specimens of the skill and handicraft of the race that occupied Porto Rico before the invading Spaniards set up the standards of Castile there are the beautifully carved stone axes.

The owners of these evidences of a prehistoric race, however, refused to part with them until he convinced them that their "thunder bolts," which their ancestors believed came from the skies on streaks of lightning, were needed by the United States government to be ground into powder with which to fight Germany. Dr. Fewkes spread the news all over the island that preparations were making in Washington for a fierce war with Germany, and now the "thunder bolts" are showering in upon him from all parts of Porto Rico. He will bring the finest specimens among them to Washington and place them in glass cases in the national museum. —Washington Star.

THE DISAPPOINTED.

There are songs enough for the hero Who dwells on the height of fame; I sing for the disappointed— For those who missed their aim.

I sing with a tearful cadence For one who stands in the dark, And knows that his last, best arrow Has bounded back from the mark.

I sing for the breathless runner, The eager, anxious soul, Who falls, with his strength exhausted Almost in sight of the goal.

For the hearts that break in silence With a sorrow all unknown; For those who need companions, Yet walk their way alone.

There are songs enough for the lovers, Who share love's tender pain; I sing for the one whose passion Is given all in vain.

For those whose spirit comrades Have missed them on the way, I sing with a heart-overflowing, This minor strain today.

And I know the solar system Must somewhere keep in space A prize for that spent runner Who barely lost the race.

For the plan would be imperfect Unless it held some sphere That paid for the toil and talent And love that are wasted here. —Ella Wheeler Wilcox.

QUEER VOTING.

We Americans are often negligent of our interests in local government. We enthuse over the election of a president or a governor and care little for the election of a tax assessor. A great Frenchman pointed out this characteristic of our people many years ago.

The recent city election in Chicago illustrates this weakness. It was proposed to refund some \$4,000,000 of the city indebtedness at a lower rate of interest. The refunding meant a saving to the taxpayers of a quarter of a million annually.

Nobody in particular opposed the bond proposition.

But it failed to get enough votes. Over 310,000 persons voted for mayor and city officers. Only 147,000 voted for the bond proposition. It failed to get the necessary majority from sheer neglect of the voters. The people almost broke their necks to vote for Harrison or Stewart but neglected their own pocketbooks.

It is the paradox of this commercial age that sentiment often actuates people more than self interest. —Spokane Press.

It has been determined by police investigation that Miss Deboe, of Seattle, did not commit suicide, as at first supposed, but that she was murdered. The notes which were found which led to the theory of suicide, have been found to be bogus.

Six thousand carpenters in Philadelphia struck Friday for an increase in wages.

It's So Easy

To take cold. It's so common to neglect the cold. That is one reason why there are so many people with "deep-seated," stubborn coughs, and so many more with "lung trouble."

The short, quick way to cure a cough is to use Dr. Pierce's Golden Medical Discovery. The quicker this remedy is used the quicker the cure. But even when neglect has let disease fasten on the lungs, "Golden Medical Discovery" may be relied on to cure in ninety-eight cases out of every hundred.

The only motive for substitution is to permit the dealer to make the little extra profit paid on the sale of less meritorious medicines. He gains. You lose. Therefore accept no substitute for "Golden Medical Discovery."

"I am feeling quite well," writes Miss Dorcas A. Lewis, of No. 1129 24th St., Washington, D. C. "My cough is very much better, and I owe it all to Dr. Pierce's Golden Medical Discovery. I cannot say too much in praise of the medicine. I had been quite a sufferer for a long time, and after reading Doctor Pierce's Common Sense Medical Adviser I thought I would try his 'Golden Medical Discovery.' I commenced taking it in May, 1902. Had not been sleeping well for a long time. Took one teaspoonful of Dr. Pierce's Golden Medical Discovery and slept nearly all night without coughing, so I continued taking it. I am in great sympathy with everybody who suffers with a cough. I had been a sufferer for more than ten years. I tried lots of different medicines and different doctors, but did not feel much better. I coughed until I commenced spitting blood, but now I feel much stronger and am entirely well. Dr. Pierce's Golden Medical Discovery is the best medicine I have ever taken. My home is in Williamsburg, Virginia."

Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

BUSY HOUSEWIVES.

Pe-ru-na a Prompt and Permanent Cure for Nervousness.

MRS. LULU LARMER.

Mrs. Lulu Larmer, Stoughton, Wis., says:

"For two years I suffered with nervous trouble and stomach disorders until it seemed that there was nothing to me but a bundle of nerves.

"I was very irritable, could not sleep, rest or compose myself, and was certainly unfit to take care of a household.

"I took nerve tonics and pills without benefit. When I began taking Peruna I grew steadily better, my nerves grew stronger, my rest was no longer fitful, and to-day I consider myself in perfect health and strength.

"My recovery was slow but sure, but I persevered and was rewarded by perfect health."—Mrs. Lulu Larmer.

Mrs. Anna B. Fleharty, recent Superintendent of the W. C. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University at Lincoln, Neb.

In a letter written from 401 Sixty-seventh street, W., Chicago, Ill., she says:

"I would not be without Peruna for ten times its cost."—Mrs. Anna B. Fleharty.

"Summer Catarrh," a book written by Dr. Hartman on the subject of the nervous disturbances peculiar to summer, sent free to any address by The Peruna Medicine Co., Columbus, Ohio.

Notice

We have purchased the second hand store at 312 Court street. We intend to refit it and increase the stock. We would be glad to have our friends drop in if you need anything in our line. If you have anything to sell let us know, we can sell it for you. Drop in and see our line of Indian curios. Give us a trial, we will treat you right.

THE BEST MANUFACTURING COMPANY

STEAM AND HORSE POWER COMBINED HARVESTERS

As McCormick was the original inventor of the reaper and header, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the strongest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire. RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with it for speed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents clogging the shoe and carrying the grain over in the straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class in every respect.

TEMPLE & WILCOX,

Local Agents

WATER TANKS

We make a Specialty of Building Tanks or Square

WATER TANKS

We make them right and always give satisfaction. Our work is never slighted or botched.
