

HERPICIDE
Destroy the Cause, you Remove the Effect
 Newbro's Herpicide kills the dandruff germ which causes falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Stop dandruff, there'll be no falling hair, no baldness.

DICKINSON, N. D., Nov. 8, '96.
 Have been using Herpicide, and have met about one-third of a \$1 bottle, and find that it does all, and even more, than you claim for it. It not only cleanses the scalp from dandruff and prevents the hair from falling out, but promotes a new growth. I have only used the quantity mentioned, and have more hair on my head than I have had for years. I also find that it keeps the hair soft and glossy.

NEWS FROM ECHO

MANY CATTLE BUYERS FROM PORTLAND AND SOUND.

Little Son of Mr. Odom is Improving—Zoeth Houser Visits Echo—Contract for Nolan Sidetrack Let to H. G. Newport.

Echo, Or., May 3.—T. C. Benson, the cattle buyer, is here again, and yesterday bought four more cars of fat steers of Robert Stanfield.

L. Straus, of Pendleton, was here yesterday. He drove over to Sand Hollow for the purpose of buying several lots of wool.

Henry D. Patterson, of Bridal Veil, is here to fill the place of H. C. Willis as night operator for the O. R. & N. Mr. Willis takes the place of C. S. Mudge, station agent, who has a leave of absence for 30 days. Mr. Mudge is not decided as to where he will spend his vacation.

A. V. Wilson, R. J. K. Jackson and McMaster Brothers, of the Yakima country, have been here for some time buying sheep for that portion of the country. They have picked up several thousand, which they will drive through.

The Fourth of July committee is a hustler and no doubt Echo will do herself proud at that time.

Robert Stanfield took the train for Portland this afternoon to be absent about a week.

Elaborate preparations are being made here for the jack rabbit banquet on the 15th.

A. B. Stanley came over from Hardman yesterday to look after his ranch here.

Fleming Brothers were here last night with their picture show. They had a well-filled house.

The son of Mr. Odom, who has been dangerously ill with pneumonia, is improving, and recovery is thought to be assured.

John T. Whistler, in company with an expert irrigation engineer from California, took a drive over to the Juniper reservoir site yesterday.

Z. Houser came in yesterday from his mine in the Quartzburg district, in Grant county. He brought down a sample from the mine in which he is interested, the Standard, and also some from the Dixie Meadows, three miles above. The sample from the Dixie Meadows assays from \$50 to \$75 dollars per ton silverite. Mr. Houser will return to the camp in about a week. He leaves for Portland tomorrow.

H. G. Newport and son, railroad contractors, have taken the work of the Nolan extension side track and have their outfit cars here. They will commence work outfitting tomorrow and will be ready to commence work on the side track. Ross Newport will have immediate charge of the rock work. This will furnish employment for 30 or 40 men. They have not finished their grade work on the flat and will therefore use two crews. They are just finishing their new residence in the south part of town.

IN CONFERENCE.

O. R. & N. Employees of La Grande, Meet President Mohler.

The recent conference of the O. R. & N. engineers and firemen, with Superintendent J. P. O'Brien, was adjourned until the return of President A. L. Mohler from the East.

Mr. Mohler passed down the road Saturday on his return from an extended trip to New York and the representatives of the engineers and firemen at La Grande accompanied him to Portland.

Frank E. Holm is chairman of the engineers' grievance committee and O. E. Lemons is chairman of the firemen's committee, and these gentlemen are now in conference with the officials in Portland. A new wage scale will be discussed and several important changes in the working schedule will be presented.

An effort will be made to have the wages of engineers raised to the rate paid by all the trans-continental roads using the large type of engines.

At present the engineers receive \$4.45 on the compound freight engines and the firemen \$2.70 per 100 miles.

In passenger service the pay of engineers is \$4.25, and firemen \$2.55 per 100 miles. The Rio Grande Western road pays the highest wages to its engineers of any road on the Pacific Coast. Its engineers receive \$5 and firemen \$3.10 per 100 miles.

NATIONAL GUARD CONVENTION.

Plans for Increasing the Efficiency of the National Militia.

Columbus, O., May 4.—The fourth annual convention of the Interstate National Guard Association was opened in this city today with an address by Secretary Root. The secretary of war, who was introduced to the convention by President Charles Dick of the association, spoke at considerable length, reviewing the growth of the national guard and outlining plans for raising the standard of efficiency for this branch of the nation's defensive service. Secretary Root spoke of the value of co-operation among the militia organizations of the different states and predicted great improvements in the service as a result of the new national militia law.

The convention, which will be in session until Thursday, is attended by the adjutants general and other militia officers from many states. The militia legislation recently adopted by congress and the steps being taken by the various states to conform to its provisions will be the chief topic of discussion.

Tubeworkers' Union Growing.

Pittsburg, Pa., May 4.—A large number of delegates were present today when the convention of the National Association of Tubeworkers was called to order by the president, Charles Sable, of Washington, Pa. This is the first annual convention, but the officers' reports show that the organization already has nearly 10,000 members, but is growing rapidly. The principal work before the convention, which is to last several days, is the formulation of a national wage scale.

Rheumatism
Is Not a Skin Disease

Most people have an idea that rheumatism is contracted like a cold, that damp, chilly air penetrates the muscles and joints and causes the terrible pain, or that it is something like a skin disease to be rubbed away with ointment or drawn out with plasters; but Rheumatism originates in the blood and is caused by Urea, or Uric Acid, an irritating, corroding poison that settles in the muscles, joints and nerves, producing inflammation and soreness and the sharp, cutting pains peculiar to this distressing disease.

Exposure to bad weather or sudden chilling of the body will hasten an attack of Rheumatism after the blood and system are in the right condition for it to develop, but have nothing to do with the real true causes of Rheumatism, which are internal and not external.

Liniments, plasters and rubbing will sometimes reduce the inflammation and swelling and ease the pain for a time, but fail to relieve permanently because they do not reach the seat of the trouble. S. S. S. cures Rheumatism because it attacks it in the blood, neutralizes the Uric Acid poison, neutralizes the sluggish circulation stimulated and quickened, and soon the system is purified and cleansed, the aching muscles and joints are relieved of all irritating matter and a lasting cure of this most painful disease effected.

S. S. S. is a harmless vegetable remedy, unequalled as a blood purifier and an invigorating, pleasant tonic. Book on Rheumatism it did me so much good.

Want Barbers' License Law.

Lafayette, Ind., May 4.—The Indiana State Barbers' Association, which organized at Muncie last year, is holding its first annual convention here with a good attendance of members. Some changes are to be made in the constitution and by-laws of the association, and the members will also take steps to renew their fight for a state barbers' license law before the next meeting of the state legislature.

Won the Liar's Medal.

"Have you got the plans for your new house completed yet?" some one asked him.

"Not quite," he replied. "There is a difference of opinion between my wife and me as to the interior arrangements. She says the pantry is too large and that there are too many closets."

Without another word the medal for the biggest lie of the evening was awarded to him.—Chicago Tribune.

Queer Friends.

In Muncie, Ind., there are a cat and a hen which are inseparable companions up to the threshold of the kitchen door. Into the kitchen the hen will not go. In the barn or in the yard the two are constantly together, and the hen has even abandoned the roost of her ancestors in order to sleep on the floor near her friend.

The minority stockholders of the Southern Pacific filed an appeal Friday to prevent Harriman and the majority stockholders voting at the postponed election.

Physicians Gather in New Orleans.

New Orleans, La., May 4.—This city is thronged today with eminent physicians from all parts of the United States and Canada come to attend the annual session of the American Medical Association. Tomorrow there will be a meeting of the American Academy of Medicine and on Wednesday the association proper will begin its business sessions.

HIGHLAND STOCK
WILL BE ADVANCED IN PRICE
MAY 15th, 1903

Development at the Highland Mine Justifies an Advance in the Price of Stock. It is Much More Valuable Now Than When We Placed the First Allotment on the Market Some Two Months Ago.

CONSTANT DEVELOPMENT AND RESULTS

A crew of men have been constantly at work ever since we acquired this property and the Glasgow crosscut has now encountered and fully crosscut the ledge. In this crosscut we have opened up a body of ore sixteen feet in width carrying good commercial values.

In speaking of commercial values we mean ores which have a sufficient value to pay for the extraction milling and all other incidental expenses thereto, with enough of a margin left over to pay good dividends to the stockholders.

This large body of ore was not in the nature of a surprise, we simply expected it, as the surface developments showed this same large body of ore, and there was no reason why it should not be encountered in this crosscut and at this depth.

FUTURE DEVELOPMENT

We are now turning to drift on the ledge to the west from the crosscut in order that we may open up the richer ores at a greater depth which are found on the surface throughout the Bannockburn claim.

This line of development, we believe, will prove very interesting to all who are interested, or may become interested in the Highland mine, as it will certainly open up ore bodies rich in quality and in large quantities.

It will demonstrate that the Highland will rank as one of the largest producers in the district.

From now on the development work will be comparatively easy and not very expensive, as we will be drifting along the ledge where the ground is much easier to work than in the country rock which encases the vein. Every month will show a large increase in our ore reserves.

FREE TRIP TO THE HIGHLAND

To any one who wishes to invest a reasonable sum of money in the Highland mine, we will pay all traveling expenses to and from the mine for the purpose of his making a personal examination.

In offering you a free trip to the Highland we feel that this is proof within itself of the value of this property as it stands to reason that if we did not have a good mine there and all that we claim for it we could not offer you such an inducement.

We would be only too glad to have each and every one who contemplates the investment of money in mines, come out and look over this property and the district in general. In offering to pay your expenses out here and back we feel that we are not running any risk whatsoever as we know positively that no one, no matter how great or conservative an expert or mining engineer he may be, could possibly, roughly speaking, "turn it down."

POOL YOUR INTERESTS

If you have not sufficient money yourself to justify you in coming to the Highland to look it over before investing, we would suggest that you and your friends make up a small pool and send one of your number out here to look over the Highland. In this way we believe you would get absolute information as to the value of the property you invest your money in, and you will also have an opportunity to learn all about the reputation, standing and ability of the directors of the Highland company.

OUR REFERENCE

We take pleasure in referring you to any bank, business man, or mining man in our own community.

SECURE STOCK NOW

If you wish to secure any of this stock while it is selling at the low price you should send in your order as quick as possible. Those who have not all the money on hand to pay for as much stock as they wish to purchase, may send us a portion of it and we will set the stock aside for you and you can pay the balance later.

THE PRESENT PRICE OF STOCK IS SIX (6) CENTS PER SHARE

NOTICE

In case all the stock we wish to sell you at this price should be sold before your order is received, we reserve the right to return you your money.

Address all communications, and make your checks, drafts and money orders payable to
